

### ***Section 1: General Topics***

**Chapter 1: History and Evolution of Hip Surgery, Chapter 2: Arthroscopic and Open Anatomy of the Hip, Chapter 3: Imaging: Plain Radiographs, Chapter 4: Magnetic Resonance Imaging of the Hip Joint, Chapter 5: Computed Tomography, Ultrasound and Imaging-Guided Injections of the Hip, Chapter 6: The Techniques and Art of the Physical Examination of the Adult and Adolescent Hip, Chapter 7: Nonoperative Management and Rehabilitation of the Hip, Chapter 8: Assessing Outcomes After Hip Surgery**

### ***Section 2: Arthroscopic Management***

**Chapter 9: Supine Approach to Hip Arthroscopy, Chapter 10: Lateral Approach to Hip Arthroscopy, Chapter 11: Peripheral Compartment Approach to Hip Arthroscopy, Chapter 12: Complex Therapeutic Hip Arthroscopy with the use of a Femoral Distractor, Chapter 13: Arthroscopic Labral Debridement, Chapter 14: Arthroscopic Labral Repair, Chapter 15: Arthroscopic Capsular Plication and Thermal Capsulorrhaphy, Chapter 16: Arthroscopic Iliotibial Band Lengthening and Bursectomy for Recalcitrant Trochanteric Bursitis and Coxa Saltans Externa, Chapter 17: Arthroscopic Hip "Rotator Cuff Repair" of Gluteus Medius Tendon Avulsions, Chapter 18: Arthroscopic Iliopsoas Release and Lengthening, Chapter 19: Arthroscopic Femoral Osteoplasty, Chapter 20: Arthroscopic Rim Resection and Labral Repair, Chapter 21: Arthroscopic Synovectomy and Treatment of Synovial Disorders, Chapter 22: Arthroscopic Microfracture and Chondroplasty, Chapter 23: Arthroscopy for Symptomatic Hip Arthroplasty, Chapter 24: Arthroscopic Management of the Trauma Patient, Chapter 25: Arthroscopic Management of the Pediatric Hip Disease**

### ***Section 3: Open Management***

**Chapter 26: The Bernese Periacetabular Osteotomy for Hip Dysplasia and Acetabular Retroversion, Chapter 27: Trochanteric Distalization (Relative Femoral Neck Lengthening) for Legg-Calve-Perthes Disease and Coxa Vara, Chapter 28: Surgical Hip Dislocation for Femoroacetabular Impingement, Chapter 29: Limited Open Osteochondroplasty for the Treatment of Anterior Femoroacetabular Impingement, Chapter 30: Nonvascularized Bone Grafting for the Treatment of Osteonecrosis of the Femoral Head, Chapter 31: Vascularized Fibular Grafting for Osteonecrosis of the Femoral Head, Chapter 32. Proximal Femoral Osteotomies in Adults for Secondary Osteoarthritis: Femoral Osteotomies for Adult Deformity, Chapter 33: Open Treatment for Hip Cartilage Injuries, Chapter 34. Anterior Hueter Approach for Hip Resurfacing in the Arthritic Patient, Chapter 35. Total Hip Arthroplasty in the Young Active Patient with Arthritis, Chapter 36: Proximal Femoral Osteotomy in the Skeletally Immature Patient with Deformity, Chapter 37: Pediatric Pelvic Osteotomies and Shelf Procedures, Chapter 38. Surgical Treatment for Athletic Pubalgia ("Sports Hernia")**
