

Section 1: Introduction

- 1: Giancarlo Logroscino and Rosanna Tortelli: Epidemiology of neurodegenerative diseases**
- 2: Luigi Barberini, Luca Saba, Claudia Fattuoni, Matteo Fraschini and Francesco Marrosu: Metabolomics of neurodegenerative disorders**
- 3: James D Mills and Michael Janitz: Transcriptome profiling in neurodegenerative disorders**
- 4: Thomas Rapp, Pauline Chauvin, Nadège Costa and Laurent Molinier: Health economic considerations in neurodegenerative disorders**
- 5: Robert Laforce, M. Lehmann, J. Macoir, S. Poulin, M. Roy, J.-P. Soucy, L. Verret, B. L. Miller and R. W. Bouchard: Symptoms of neurodegenerative diseases**

Section 2: Imaging Technique

- 6: Michele Anzidei: Computed Tomography**
- 7: Aart J. Nederveen, Matthan W.A. Caan and Marion Smits: General principles of Magnetic Resonance Imaging**
- 8: Juergen Dukart and Bogdan Draganski: Nuclear medicine and radiology**
- 9: Vivekanandan Palaninathan, Sivakumar Balasubramanian, D. Sakthi Kumar: Molecular imaging and neurodegenerative diseases**
- 10: Christopher Kobylecki, Alexander Gerhard and Karl Herholz: PET imaging in neurodegenerative disorders - evolving techniques and new tracers**
- 11: Shankar Vallabhajosula, Brigitte Vallabhajosula and Lilja Solnes: Radiopharmaceuticals for molecular imaging of neurodegenerative diseases**

Section 3: Neurodegeneration: Cognition

- 12: Charles D. Smith and Brian T. Gold: Neuroimaging of Alzheimer's disease**
- 13: F. Garaci, N. Toschi, T. Volpi, G. Gareffa, L. Spies, S.Lista, H. Hampel: MRI-based imaging of Alzheimer's disease**
- 14: Jennifer L. Whitwell: Frontotemporal dementia**
- 15: Claire Henchcliffe and Thomas Tropea: Dementia with Lewy Bodies**
- 16: Luke A Massey and Sean O'Sullivan: Corticobasal Syndrome and Corticobasal Degeneration**

Section 4: Neuroregeneration: Movement

- 17: Ana M. Franceschi, Sofia Pina and Mauricio Castillo: Parkinson's disease: Clinical and Imaging Features**
- 18: Dominic Paviour: Progressive Supranuclear Palsy (PSP)**
- 19: SJA van den Bogaard and RAC Roos: Imaging in Huntington's disease**
- 20: Keita Sakurai: Multiple system atrophy**

Section 5: Neurodegeneration: Strength

- 21: Martin R. Turner: Amyotrophic Lateral Sclerosis**

Section 6: Neurodegeneration: Coordination

22: Ana Solodkin, Gulin Oz and Christopher M Gomez: Spinocerebellar Atrophies

23: Hamed Akhlaghi, Martin B. Delatycki, Nellie Georgiou-Karistianis and Gary F. Egan: Imaging in Neurodegenerative Disorder- Friedreich Ataxia

24: Damien Galanaud: Neuroimaging in human prion diseases

Section 7: Neurodegeneration: PNS\ANS

25: Erez Nossek & Tali Jonas Kimchi: Amyloidosis

26: Amogh Hedge and CC Tchoyoson Lim: Metabolic and toxin related neurodegeneration

Section 8: Neurodegeneration: Myelin

27: Eytan Raz: Demyelinating diseases

28: José Berciano and Elena Gallardo: Charcot-Marie-Tooth disease

29: Lev Bangiyev, Alexandra Roudenko, Eytan Raz, August Dietrich, Girish M.

Fatterpekar: Neurodegenerative Disorders of the Basal Ganglia

Section 9: Neurodegeneration: Trauma

30: Jan Booij, Françoise J Siepel, Tirza C Buter and Dag Aarsland: Clinical benefit of dopamine transporter imaging in movement disorders and dementia

31: Erin D. Bigler: Neurodegeneration post trauma: Brain

32: J.A. Petersen, Spyros S. Kollias: Neurodegeneration post trauma: spine

33: Duan Xiao-Hui and Jun Shen: Neurodegeneration post trauma: Peripheral nerves

Section 10: Neuroimaging after therapy

34: A.L. Bartels, R. Hilker: Functional imaging of neurosurgery in Parkinson's disease

35: Tsui A, Piccini P: Neuroimaging after Cell-Based Therapy
