

Part I Introduction 1

- **1 The role of the perioperative medicine physician 3**

Mike Grocott

- **2 The role of the preadmission clinic 6**

James Tomlinson

- **3 Consent 11**

Justin Burke

- **4 The early postoperative round 15**

Debra Devonshire and Paul Myles

- **5 Quality improvement and patient safety 18**

Stuart Marshall

- **6 Intraoperative and postoperative monitoring 22**

Philip Peyton

- **7 Drugs used for anaesthesia and sedation 28**

Alex Konstantatos

- **8 The recovery room 33**

Arvinder Grover

- **9 Perioperative genomics 38**

Christopher Bain and Andrew Shaw

Part II Preoperative risk assessment 43

- **10 Perioperative medication management 45**

Paul Myles

- **11 The cardiac patient for non]cardiac surgery 51**

Howard Machlin

- 12 Cardiovascular risk assessment in cardiac surgery 57

Christopher Duffy

- 13 Preoperative cardiac testing 61

Joshua Martin and Peter Bergin

- 14 Airway assessment and planning 68

Pierre Bradley and Joel Symons

- 15 Pulmonary risk assessment 74

David Daly

- 16 Preoperative cardiopulmonary exercise testing 79

Chris Snowden and Serina Salins

17 Anaemia 85

Amanda Davis and Angus Wong

- 18 Central nervous system risk assessment 90

Richard Stark

- 19 Risk assessment for perioperative renal dysfunction 94

David McIlroy

- 20 Medical futility and end of life care 98

Mark Shulman and Matthew Richardson

- 21 The surgical safety checklist 102

Pedro Guio Aguilar and Russell Gruen

Part III Perioperative investigations 107

- 22 Preoperative investigations (non cardiac surgery) 109

Arvinder Grover

- 23 Postoperative investigations 114

Arvinder Grover

Part IV Specific medication management and prophylaxis 119

- 24 Thromboprophylaxis 121

Amanda Davis

- 25 Anticoagulants and antiplatelet agents 128

David Daly

- 26 Diabetes medication 136

Shane Hamblin

- 27 Steroid medication 144

Shane Hamblin

- 28 Opioids and opioid addiction 148

Meena Mittal, Nicholas Christelis and David Lindholm

- 29 Antibiotic prophylaxis 154

Allen Cheng

- 30 Antibiotic prophylaxis for endocarditis 158

Denis Spelman

Part V Perioperative management of organ dysfunction and specific population groups 163

- 31 Coronary artery disease and coronary stents 165

Sesto Cairo

- 32 Hypertension 170

Steven Fowler and Terry Loughnan

- 33 Arrhythmias 175

Andrew Robinson

- **34 Pacemakers and implanted defibrillators 182**

Andrew Robinson

- **35 Heart failure 188**

Vanessa van Empel and Dion Stub

- **36 Aortic stenosis 193**

Rishi Mehra

- **37 Pulmonary hypertension 198**

Mark Buckland

- **38 Endocarditis, myocarditis and cardiomyopathy 203**

Enjarn Lin

- **39 Acute lung injury 212**

Paul Nixon and David Tuxen

- **40 Obstructive sleep apnoea 217**

Matthew Naughton

- **41 Asthma 223**

Alan Young

- **42 Chronic obstructive pulmonary disease 229**

Jeremy Wrobel and Trevor Williams

- **43 Non small cell lung cancer 235**

Robert Stirling

- **44 Gastrointestinal disease 242**

Lauren Beswick and William Kemp

- **45 Hepatic disease 245**

Lauren Beswick and William Kemp

- **46 Oliguria 249**

Paul Myles

- **47 Acute kidney injury 254**

Lloyd Roberts and Owen Roodenburg

- **48 Renal transplantation 259**

Solomon Menahem

- **49 Diabetes mellitus 264**

David Story

- **50 Thyroid disorders 268**

Shane Hamblin

- **51 Parathyroid disorders 272**

Shane Hamblin

- **52 Adrenal disorders 277**

Jonathan Serpell

- **53 Carcinoid syndrome 281**

Alexandra Evans

- **54 Intracranial surgery 286**

Hilary Madder

- **55 Carotid surgery 292**

Matthew Claydon

- **56 Epilepsy 301**

Richard Stark

- **57 Neuromuscular disease 304**

Erik Andersen and Andrew Kornberg

- **58 Trauma: pretheatre management 309**

John Moloney

- **59 Traumatic brain injury 314**

Winifred Burnett

- **60 Maxillofacial injuries 322**

Joel Symons and Charles Baillieu

- **61 Spinal injuries (excluding cervical spine) 329**

Susan Liew

- **62 Cervical spine injuries 337**

Peter Hwang and Jin Tee

- **63 Chest injuries 343**

Silvana Marasco

- **64 Abdominal injuries 349**

Katherine Martin

- **65 Burns 354**

Jamie Smart

- **66 Bleeding disorders 360**

Paul Coughlan

- **67 Human immunodeficiency virus infection 366**

Anna Pierce

- **68 Exposure to blood borne viruses 370**
Anna Pierce
- **69 The patient with psychiatric illness 374**
Steven Ellen and James Olver
- **70 Obstetric patients having non obstetric surgery 377**
Maggie Wong
- **71 The elderly patient 382**
Yana Sunderland
- **72 Allergies and anaphylaxis 386**
Helen Kolawole
- **73 Obesity 390**
Jennifer Carden
- **74 Goal directed therapy 395**
Andrew Toner and Mark Hamilton
- **75 Fluids and electrolytes 400**
David Story
- **76 Electrolyte abnormalities 404**
Lloyd Roberts and Carlos Scheinkestel
- **77 Blood transfusion 410**
Amanda Davis
- **78 Organ donation 416**
Steve Philpot and Joshua Ihle

Part VI Early postoperative care 421

- **79 Postoperative nausea and vomiting 423**

Joel Symons

- **80 Postoperative fluid therapy 430**

Dashiell Gantner

- **81 Ventilation strategies 435**

John Botha

- **82 Sepsis and the inflammatory response to surgery 440**

Tomás Corcoran and Kajari Roy

- **83 Nutritional support 445**

Craig Walker

- **84 Postoperative surgical complications 449**

Katherine Martin

- **85 Postoperative chest pain 453**

Shane Nanayakkara and Peter Bergin

- **86 Postoperative shortness of breath 459**

KJ Farley and Deirdre Murphy

- **87 Postoperative hypotension 467**

Steven Fowler

- **88 Myocardial injury after non]cardiac surgery 472**

Fernando Botto and PJ Devereaux

- **89 Aspiration 476**

Alan Kakos

- **90 Postoperative delirium and postoperative cognitive dysfunction 480**

Brendan Silbert and Lisbeth Evered

- **91 Postoperative hyperthermia 485**

Glenn Downey

- **92 Perioperative hypothermia 493**

John Monagle and Shashikanth Manikappa

Part VII Pain management 499

- **93 Acute pain 501**

Alex Konstantatos

- **94 Neuropathic pain 507**

Tim Hucker

- **95 The chronic pain patient 511**

Carolyn Arnold
