

List of contributors, ix

Preface, xi

Acknowledgements xii

List of abbreviations xiii

1 Introduction to clinical problems in oncology 1

Sing Yu Moorcraft

General approach to the management of oncology patients 2

Performance status 6

Tumour markers 6

2 Oncological emergencies 13

Daniel L.Y. Lee

Anaphylaxis and hypersensitivity reactions 13

Bleeding 16

Central airway obstruction and stridor 19

Extravasation 23

Febrile neutropenia 28

Hypercalcaemia 30

Non-neutropenic sepsis 34

Raised intracranial pressure and seizures 36

Spinal cord compression 41

Superior vena cava obstruction 45

Transfusion reactions 48

Tumour lysis syndrome 50

3 Side effects and complications of cancer and its treatment 53

Alexandra Pender, Sing Yu Moorcraft and Daniel L.Y. Lee

Overview of toxicity management 54

Abnormal liver function tests 57

Alopecia 60

Anaemia 62

Anorexia and nutrition 66

Ascites 69

Bone metastases and osteoporosis 71

Bowel obstruction 75

Breathlessness 77

Chest pain and other cardiac complications 81

Confusion and decreased conscious level 86

Constipation 91

Dental disorders 93

Diarrhoea 95

Dysphagia 100

Fatigue 104

Fertility and pregnancy 106

Haematuria 113

Hearing loss 115

Hiccups 117

Hyperglycaemia and hypoglycaemia 119

Hypertension and hypotension 123

Lymphoedema 127

Mucositis 129

Nausea and vomiting 133

Neuropathy 138

Neutropenia 142

Proteinuria 145

Pruritus 146

Psychiatric disorders 149

Rash 154

Renal failure and hydronephrosis 163

Sexual dysfunction 166

Thrombocytopenia 170

Thromboembolism 173

Vaccinations and immunoglobulin 178

Visual symptoms 180

4 Introduction to radiotherapy 185

Emma Dugdale, Alexandra Gilbert and Robin Prestwich

Introduction to radiotherapy 185

Methods of delivery of radiotherapy 186

5 Radiotherapy side effects and their management 193

Alexandra Gilbert, Emma Dugdale and Robin Prestwich

Overview of radiotherapy toxicity 193

Overview of radical radiotherapy treatment and side effect management by anatomical treatment site 195

Brain 195

Head and neck 196

Breast 200

Thorax 200

Abdomen 204

Pelvis 205

Skin toxicities 211

Total body irradiation 214

6 Endocrine therapy, immunotherapy and targeted therapies 215
Samantha Turnbull

Endocrine therapy 215

Immunotherapy 218

Targeted therapies 220

7 Electrolyte abnormalities 225
Sing Yu Moorcraft

Hypocalcaemia 225

Hyperkalaemia and hypokalaemia 227

Hypermagnesaemia and hypomagnesaemia 231

Hypernatraemia and hyponatraemia 234

Hyperphosphataemia and hypophosphataemia 237

8 Palliative care and pain management 241
Karen Neoh

Pain management 241

Overview of pain management 241

Opioid prescribing in palliative care 245

Opioid toxicity 251

Syringe pumps 252

End-of-life care 253

9 Oncology procedures and their complications 257

Juanita Lopez

Ascitic drains (paracentesis) 257

Biliary drains and stents 259

Central venous access devices 261

Chemoembolisation 265

Chest drains and pleurodesis 266

Enteral feeding tubes 269

Nephrostomies and ureteric stents 270

Oesophageal stents and dilatation 272

Radioembolisation (SIR-spheres®) 273

Radiofrequency ablation (RFA) 275

10 Cancer drug development and funding 277

Sing Yu Moorcraft

Clinical trials 277

Funding of cancer drugs 280

Personalised medicine 282

Appendices 287

Sing Yu Moorcraft and Daniel L.Y. Lee

Chemotherapy regimes 287

Drug toxicities 287

Useful resources 296

Index 301
