

**Foreword x**

**Preface xi**

**About the Editors xiii**

**Contributors xvi**

**PART 1 General principles of cancer diagnosis and management 1**

**Principles of knowledge generation and translation**

**1 – Cancer epidemiology 3**

**2 – Levels of evidence, guidelines and standards 12**

**3 – Prognosis and classification of cancer 23**

**4 – Principles of cancer staging 34**

**5 – Assessment of treatment outcome 40**

**6 – Cancer informatics 53**

**Principles of cancer diagnosis**

**7 – Imaging 63**

**8 – Pathology 83**

**Principles of treatment**

**9 – Principles of surgery 98**

**10 – Principles of radiotherapy 108**

**11 – Principles of systemic therapy 124**

**Special settings, supportive care and survivorship**

**12 – Treatment in pregnancy 134**

**13 – Treatment in the elderly 139**

**14 – Oncology emergencies 145**

**15 – Supportive care during curative treatment 155**

**16 – Pain management in cancer 168**

**17 – Palliative care 174**

**18 – Survivorship 184**

**19 – Rehabilitation 194**

**PART 2 Site-specific multidisciplinary cancer management 203**

**Thoracic malignancies**

**20 – Lung 205**

**Breast**

**21 – Breast 221**

**Gastrointestinal malignancies**

**22 – Liver 241**

**23 – Biliary tract and pancreas 263**

**23.1 – Biliary tract 263**

**23.2 – Pancreas 270**

**24 – Oesophagus 280**

**25 – Stomach 297**

**26 – Colon, rectum and anus 308**

**26.1 – Colon and rectum 308**

**26.2 – Anus 327**

**Genitourinary malignancies**

**27 – Prostate 333**

**28 – Bladder and other urothelium 343**

**29 – Kidney 354**

**30 – Testicular germ cell tumours 368**

**31 – Penis 384**

**Haematological malignancies**

**32 – Lymphoma 392**

**33 – Myeloma 415**

**34 – Leukaemia 427**

**Gynaecological cancers**

**35 – Cervix 449**

**36 – Uterus 467**

**37 – Ovary and fallopian tube 479**

**Head and neck cancer**

**39 – General principles of head and neck cancer management 503**

**40 – Nasopharynx 512**

**41 – Oral cavity 524**

**42 – Larynx and hypopharynx 542**

**43 – Oropharynx 559**

**44 – Major salivary glands 571**

**45 – Nasal cavity and paranasal sinus 586**

**46 – Head and neck unknown primary 597**

**Endocrine tumors**

**47 – Pituitary 609**

**48 – Thyroid 626**

**49 – Adrenal tumours 641**

**50 – Neuroendocrine tumours 656**

**Dermatological cancer**

**51 – Skin: Basal cell carcinoma, squamous cell carcinoma and Merkel cell carcinoma 674**

**52 – Melanoma 689**

**Central nervous system and ocular cancers**

**53 – Central nervous system 706**

**54 – Eye: Choroidal melanoma, retinoblastoma, ocular adnexal lymph**

**Sarcoma**

**55 – Bone (osteosarcoma) 745**

**56 – Soft tissue 754**

**Childhood malignancies**

**57 – Paediatric tumors 768**

**Specific cancer situations**

**58 – Cancer of unknown primary (no 59 – HIV and transplant-related neoplasms 797**

**59.1 – HIV-related neoplasms 797**

**59.2 – Post-transplantation lymphoproliferative disease 809**

**59.3 – Cancer following solid organ transplantation 812**

**Index 815**
