## Part I – Clinical relevance of cognitive dysfunction in major depressive disorder

- 1 **Does cognitive dysfunction predate the onset of incident depression?** 1  
Julia Buthmann, Danielle S. Cha, and Roger S. McIntyre
- 2 **Understanding the importance of cognitive dysfunction and cognitive change in major depressive disorder** 15  
Paul Maruff and Judith Jaeger
- 3 **Cognition in MDD: implications for primary care** 30  
Larry Culpepper
- 4 **Neurocognition in pediatric depression** 47  
Dwight F. Newton, Melanie R. Naiberg, and Benjamin I. Goldstein
- 5 **Neuroanatomy of cognition in major depressive disorder** 60  
Guy M. Goodwin
- 6 **Hot and cold cognition in major depressive disorder** 69  
Oliver J. Robinson, Jonathan P. Roiser, and Barbara J. Sahakian

- 
- 7 **Social cognition and emotional processing in major depressive disorder** 81  
Philippe Fossati and Sophie Hinfray
  - 8 **The role of social cognition in major depressive disorder** 92  
Bernhard T. Baune and Michael Weightman
  - 9 **Are cognitive deficits in major depressive disorder progressive?** 110  
Marie Laure Cléry-Melin and Philip Gorwood
  - 10 **Implications of cognitive impairments on functional outcomes in major depressive disorder** 125  
Tracy L. Greer and Cassandra R. Hatt

## Part II – Underlying biological substrates associated with cognitive dysfunction in major depressive disorder

- 11 **Cognition and biomarkers in major depressive disorder: endophenotype or epiphenomenon?** 145  
Shane J. McInerney, Philip Gorwood, and Sidney H. Kennedy

Table of Contents

[More information](#)

vi	Contents
12	<b>Inflammation and cognition in major depressive disorder</b> 160 Bernhard T. Baune
13	<b>HPA axis and cognitive dysfunction in mood disorders</b> 179 Rebecca Strawbridge and Allan H. Young
14	<b>White matter neurobiology and cognitive dysfunction in major depressive disorder</b> 194 Geoffrey Chern-Yee Tan and Kang Sim
15	<b>Insulin resistance and implications for hippocampal volume/function and the default mode network</b> 209 Heather A. Kenna, Tonita E. Wroolie, Danielle R. Balzafore, and Natalie L. Rasgon
<b>Part III – Evaluating cognitive dysfunction in major depressive disorder</b>	
16	<b>Measuring the mind: detecting cognitive deficits and measuring cognitive change in patients with depression</b> 229 John E. Harrison
17	<b>Subjective measures of cognitive dysfunction in major depressive disorder</b> 242 Raymond W. Lam
<b>Part IV – Treatment opportunities for ameliorating cognitive dysfunction in major depressive disorder</b>	
18	<b>Neuroscience of functional outcomes and treatment targets in major depressive disorder</b> 257 Lisanne M. Jenkins, Amy Peters, Rachel H. Jacobs, and Scott A. Langenecker
19	<b>Treatment of cognitive dysfunction in adults with major depressive disorder</b> 274 Roger S. McIntyre, Kahlood Syeda, and Danielle S. Cha
20	<b>A novel treatment targeting cognitive dysfunction in mood disorders</b> 289 Kamilla W. Miskowiak
21	<b>Cognitive remediation for major depressive disorder</b> 306 Christopher R. Bowie
22	<b>Exercise and cognition</b> 321 Guy Faulkner, Markus J. Duncan, and Mehala Subramaniapillai
