

Basic Instrumentation and Modalities

- 1: General principles of echocardiography, *Madalina Garbi, Jan d'Hooge and Evgeny Sholnik***
- 2: Transthoracic echocardiography/M-Mode and 2D echocardiography, *Miguel Ángel García Fernández and José Juan Gómez de Diego***
- 3: Doppler echocardiography, *Jaroslav Kasprzak, Ruxandra Jurcut & Anita Sadeghpour***
- 4: Deformation echocardiography, *Matteo Cameli, Partho Sengupta & Thor Edvardsen***
- 5: Storage and report, *Steven Droogmans, Bernard Cosyns & Alessandro Salustri***
- 6: Transoesophageal echocardiography, *Frank A. Flachskampf, Mauro Pepi & Silvia Gianstefani***
- 7: 3D Echocardiography, *Luigi P. Badano, Roberto Lang & Alexandra Gonçalves***
- 8: Contrast echocardiography, *Asrar Ahmed, Leda Galiuto, Mark Monaghan & Roxy Senior***
- 9: Hand-held echocardiography, *Denis Pellerin, Nuno Cardim & Christian Prinz***
- 10: Intracardiac and intravascular echocardiography, *Gilbert Habib, Carlo di Mario & Guy Van Camp***
- 11: Stress echocardiography: introduction and pathophysiology, *Rosa Sicari & Raluca Dulgheru***
- 12: Stress echocardiography: methodology, *Maria João Andrade & Albert Varga***
- 13: Stress echocardiography: imaging acquisition and modalities, *Rosa Sicari, Edyta Ptonska & Jorge Lowenstein***
- 14: Stress echocardiography: diagnostic criteria and interpretation, *Paolo Colonna, Monica Alcantara & Katsu Tanaka***
- 15: Stress echocardiography: diagnostic and prognostic / Specific clinical subset, *Luc A. Pierard & Lauro Cortigiani***
- 16: Lung echocardiography, *Luna Gargani & Marcelo-Haertel Miglioranza***
- 17: Digital echocardiography laboratory, *Reidar Bjørnerheim, Geneviève Derumeaux & Andrzej Gackowski***

Cardiac Morphology, Haemodynamics and Physiology

- 18: Left ventricle: morphology and geometry, *Peng-Fei Zhang, Yun Zhang & Siew Yen Ho***
- 19: Left ventricle: cardiac mechanics and LV performance, *Erwan Donal, Seisyou Kou & Partho Sengupta***
- 20: Left ventricular systolic function, *Bernard Cosyns, Krasimira Hristova, Hyung-Kwan Kim & Otto Smiseth***
- 21: LV diastolic function, *Maurizio Galderisi & Jae Oh***
- 22: Left atrium, *Monica Rosca, Sergio Mondillo & Kim O'Konnor***
- 23: Right ventricle and pulmonary arterial pressure, *Annemien E. van den Bosch, Luigi P. Badano & Julia Grapsa***
- 24: Right atrium, *Thierry Le Tourneau & Luis Caballero***

Disease echocardiographic assessment

- 25: Heart failure: LV systolic dysfunction, *Erwan Donal & Elena Galli***
- 26: Heart failure: LV dyssynchrony, *Jens-Uwe Voigt, Peter Søgaard & Emer Joyce***
- 27: Heart failure: risk stratification, *Marie Moonen & Nico Van de Veire***
- 28: Heart failure: preserved LV ejection fraction, *Johan De Sutter, Piotr Lipiec &***

Christine Henri

- 29: Ischaemic heart disease: acute coronary syndromes, George D. Athanassopoulos, Krassimira Hristova & Alessandro Salustri**
- 30: Ischemic heart disease: stable coronary artery disease - Coronary artery anomalies, Eugenio Picano, Fausto Pinto & Blazej Michalski**
- 31: Heart valve disease: aortic valve disease, Cristina Basso, Gaetano Thiene & Siew Yen Ho**
- 32: Heart Valve disease: aortic stenosis, Helmut Baumgartner, Stefan Orwat, Leyla Elif Sade & Javier Bermejo**
- 33: Heart valve disease: aortic regurgitation, Christophe Tribouilloy, Patrizio Lancellotti, Ferande Peters, José Juan Gómez de Diego & Luc A. Pierard**
- 34: Mitral valve disease: mitral valve anatomy and morphology, Giovanni La Canna**
- 35: Mitral valve disease: mitral stenosis, Bogdan A. Popescu, Shantanu P. Sengupta, Niloufar Samiei and Anca D. Mateescu**
- 36: Mitral valve disease: mitral regurgitation, Patrizio Lancellotti, Raluca Dulgher, Mani Vannanu & Kiyoshi Yoshida**
- 37: Tricuspid valve disease, Denisa Muraru, Ashraf M. Anwar & Jae-Kwan Song**
- 38: Pulmonary valve disease, Werner Budts & Owen Miller**
- 39: Multivalvular disease and others, Philippe Unger & Gerald Maurer**
- 40: Prosthetic valves, John Chambers & Philippe Pibarot**
- 41: Endocarditis, Gilbert Habib, Franck Thuny, Guy Van Camp & Simon Matskeplishvili**
- 42: Hypertrophic cardiomyopathy, Nuno Cardim, Denis Pellerin & Filipa Xavier Valente**
- 43: Dilated cardiomyopathy, Fausto Rigo, Covadonga Fernández-Golfin & Bruno Pinamonti**
- 44: Restrictive cardiomyopathy / arrhythmogenic right ventricular cardiomyopathy, Perry Elliott, Kristina Haugaa, Pio Caso & Maja Cikes**
- 45: Isolated ventricular non-compaction, Frank Weidemann, Gilbert Habib & Clara Vazquez**
- 46: Tako-Tsubo cardiomyopathy, Rodolfo Citro, Laurent Davin & Daniel Rodriguez Muñoz**
- 47: Familial cardiomyopathies, Fausto Rigo, Covadonga Fernández-Golfin & Bruno Pinamonti**
- 48: RV dilatation and dysfunction, Petros Nihoyannopoulos, André La Gerche & Gustavo Restrepo**
- 49: Pericardial disease, Bernard Paelinck & Pedro Gutierrez Fajardo**

Disease echocardiographic assessment

- 50: Cardiac transplant patients, Río Aguilar Torres, Luigi P. Badano & Dimitrios Tsiapras**
- 51: Cardiac masses and potential sources of emboli, Nadia Benyounes, Mauro Pepi, Roberta Esposito, Carmen Ginhina & Ariel Cohen**
- 52: Cardiac tumours/other non-neoplastic intracardiac masses / Extracardiac, Maria Joao Andrade, Jadranka Separovic & Ricardo Ronderos**
- 53: Diseases of the aorta, Arturo Evangelista, Eduardo Bossone & Alain Nchimi**
- 54: Systemic disease and other conditions: introduction, Andreas Hagedorff**
- 55: Athlete's Heart, Antonello D'Andrea, André La Gerche & Christine Selton-Suty**

- 56: Systemic disease and other conditions: heart during pregnancy, *Agnes Pasquet, Marcia Barbosa & Jo Nan Liao***
- 57: Disease with main influence on cardiovascular system, *Edyta Plonska-Gosciniak, Michal Ciurzynski, Marcin Fijalkowski, Piotr Gosciniak, Piotr Szymanski, Tomasz Pasierski, Daniel Rodriguez Muñoz & Jose Luis Zamorano***
- 58: Disease with main influence on heart valves, *Andreas Hagendorff, Elie Chammas & Mohammed Rafique Essop***
- 59: Disease with main influence on myocardium / pericardium, *Andreas Hagendorff & Laura Ernande***
- 60: Disease with main influence on right ventricular function, *Damien Voilliot, JD Kasprzak & Eduardo Bossone***
- 61: Adult congenital heart disease, *Giovanni Di Salvo, Werner Budts & Owen Miller***

Specific clinical context / environment

- 62: Acute cardiac care, *Susanna Price, Roxy Senior & Bogdan A. Popescu***
- 63: Cardiac rhythm disorders: atrial fibrillation, *Kristina H. Haugaa, Francesco Faletra & João L. Cavalcante***
- 64: Cardiac oncology, *Maurizio Galderisi, Juan Carlos Plana, Thor Edvardsen & Patrizio Lancellotti***
- 65: Interventional echocardiography, *Alejandra Carbonell San Román & Jose Luis Zamorano***
- 66: Peri-operative echocardiography, *Patrick Wouters, Fabio Guarracino & Manfred Seeberger***

Miscellaneous

- 67: Coronary artery imaging, *Andreas Hagendorff, Ivan Stankovic & Masaaki Takeuchi***
- 68: Vascular echo imaging, *Muriel Sprynger, Iana Simova & Scipione Carerj***
- 69: Competence and certification, *Alexandros S. Stefanidis & Bogdan A. Popescu***
- 70: Training for emergency echocardiography, *Aleksandar N. Neskovic***
- 71: Laboratory accreditation, *Petros Nihoyannopoulos & Luna Gargani***
- 72: Quality assurance in echocardiography, *Kevin Fox & Henri Skinner***
