

New to this Edition:

- NEW! Full color design provides a more vivid depiction of pathologies, concepts and procedures.
 - NEW! Expert Consult website includes all of the chapters from the print text plus "classic" online-only chapters and an expanded image collection, references linked to PubMed and periodic content updates.
 - NEW! Thoroughly revised and reorganized content reflects current information and advances in OMS.
 - NEW! New chapters on implants and orthognathic surgery cover the two areas where oral and maxillofacial surgeons have been expanding their practice.
 - NEW! Digital formats are offered in addition to the traditional print text and provide on-the-go access via mobile tablets and smart phones.
-

Περιεχόμενα:

Volume I

Section 1: Profession and Practice of OMS

1. Professionalism and Ethics
2. The Philosophical Basis of a Successful Surgical Practice
3. Oral and Maxillofacial Surgery Career Alternatives to Private Practice
4. OMS Practice Transition: Decisions for the New Surgeon and the Established Surgeon
5. Performing Oral Surgery from the Sitting Position
6. Business Management of the Oral and Maxillofacial Surgery Practice
7. Risk Management in Oral and Maxillofacial Surgery
8. Coding, Insurance and Third-Party Payers
9. Accreditation of Outpatient Surgery Facilities
10. Marketing of the Oral and Maxillofacial Surgery Practice
11. Challenges of Retirement
12. Boundary Violations and Physical and Mental Impairments

Section 2: Anesthesia and Pain Control

1. Preoperative Evaluation
2. Monitoring for the Oral and Maxillofacial Surgery Patient
3. Local Anesthetics
4. Pharmacology of Drugs in Ambulatory Anesthesia
5. Anesthetic Concepts and Techniques
6. Concepts in the Management of Acute Postoperative Pain
7. Pediatric Pharmacosedation and General Anesthesia

Section 3: Dentoalveolar Surgery

1. Pediatric Dentoalveolar Surgery
2. Basic and Complex Exodontia and Surgical Management of Impacted Teeth
3. Complications of Dentoalveolar Surgery

4. Skeletally Based Implant Assisted Orthodontics
5. Lasers in Oral and Maxillofacial Surgery
6. Trigeminal Nerve Injuries

Section 4: Implant Surgery

1. Esthetic Implant Dentistry: Diagnosis and Treatment Planning
2. Immediate Implants
3. Bone Grafting Techniques and Materials
4. Bone Graft Histology
5. Autogenous Bone Grafting for Dental Implants
6. Guided Tissue Regeneration in Implant Dentistry
7. Contemporary Sinus-Lift Subantral Surgery and Graft
8. Osteoperiosteal Flaps/Distracted Osteogenesis
9. Peri-Implant Soft Tissue Augmentation
10. Zygomatic Implant: A Graftless Approach for Treatment of the Edentulous Maxilla
11. Fixed Restoration of the Edentulous Maxilla
12. Mandibular Immediate Loading with the Complete Arch Provisional Prostheses
13. Contemporary Options for Implant-Supported Restorations
14. Implant Overdentures
15. Implants in Congenital and Acquired Defects
16. Three-Dimensional Imaging and Digital Workflow Protocols for Dental Implants and Bone Grafting
17. Peri-Implant Disease and Restorative Aspects of Dental Implants
18. Peri-Implant Disease

Volume 2

Section 1: Trauma

1. Initial and Post-Operative Management of the Craniomaxillofacial Trauma Patient
2. Airway and Anesthetic Management for the Traumatized Patient
3. Imaging in Maxillofacial Trauma
4. Soft Tissue Injuries of the Face, Head and Trunk
5. Diagnosis and Management of Trigeminal and Facial Nerve Injuries
6. Diagnosis and Management of Dentoalveolar Injuries
7. Diagnosis and Management of Mandibular Injuries
8. Nasal Fractures
9. Management of Zygomatic Fractures
10. Diagnosis and Management of Midface Fractures
11. Diagnosis and Management of Frontal Bone Injuries
12. Assessment and Management of the Injured Child
13. Pediatric Cranio-Maxillofacial Trauma and Management
14. Reconstruction of Avulsive Injuries of the Craniomaxillofacial Region
15. Treatment of Maxillofacial Gunshot Wound Injuries

Section 2: Surgical Pathology

1. Oral and Maxillofacial Pathology: Available Diagnostic Techniques and Surgical Interactions

2. Cysts of the Oral and Maxillofacial Region
3. Odontogenic Tumors
4. Benign Non-Odontogenic Lesions of the Jaws
5. Salivary Gland Disease
6. Diagnosis and Management of Medication-related Osteonecrosis of the Jaws
7. Langerhans Cell Histiocytosis
8. Vascular Anomalies of the Oral and Maxillofacial Region
9. Vesiculobullous Diseases
10. Osteomyelitis and Osteoradionecrosis
11. The Molecular Biology of Cancer
12. Sarcomas of the Jaws
13. Squamous Cell Carcinoma of the Oral and Maxillofacial Region
14. Melanoma
15. Lymphoma
16. Non-Melanoma Skin Cancer of the Head and Neck
17. The Use of Radiation Therapy in Treatment of Head and Neck Cancer
18. Principles of Medical Oncology in the Management of Head and Neck Cancer

Section 3: Temporomandibular Disorders

1. History of Temporomandibular Surgery
2. Structure and Function of the Temporomandibular Joint
3. Assessing Temporomandibular Disorders
4. Imaging of the Temporomandibular Joint
5. Pathology of TMJ
6. Nonsurgical Management of Temporomandibular Joint Disorders
7. Arthrocentesis of the Temporomandibular Joint
8. Arthroscopy of the Temporomandibular Joint
9. Surgery for Internal Derangement of the Temporomandibular Joint
10. Temporomandibular Joint Replacement
11. Chronic Facial Pain: Evaluation, Differential Diagnosis and Management Strategies
12. Temporomandibular Muscle Disorders: Diagnosis and Management Considerations

Volume 3

Section 1: Orthognathic Surgery

1. The History of Orthognathic Surgery
2. Treatment Planning in Orthognathic Surgery
3. Virtual Treatment Planning for Orthognathic Surgery
4. Orthognathic Model Surgery
5. Common Mandibular Ramus Osteotomies: Sagittal Split Ramus Osteotomy (Ssro) And Intraoral Vertical Ramus Osteotomy (Ivro)
6. Genioplasty
7. Inverted L Osteotomy of the Mandible
8. Endoscopically Assisted Mandibular Osteotomies
9. LeFort I
10. LeFort I Segmental
11. Combined Maxillary and Mandibular Osteotomies

12. Intraoral Distraction Osteogenesis
13. Concomitant TMJ Total Joint Prosthetic Reconstruction and Orthognathic Surgery
14. Surgery for Accelerated Orthodontic Movement
15. Orthognathic Surgery for Sleep Apnea
16. Perioperative Management of the Orthognathic Patient
17. Mandibular Surgery: Complications, Prevention and Management

Section 2: Esthetic Surgery

1. Rhytidectomy
2. Laser Surgery
3. Rhinoplasty
4. Blepharoplasty
5. Forehead and Brow Lift
6. Liposuction and Fat Transfer
7. Hair Transplantation
8. Botulinum Toxin and Facial Chemical Peels for Skin Enhancement
9. Otoplasty
10. Facial Implants in Cosmetic Surgery

Section 3: Cleft and Craniofacial Surgery

1. Orofacial Embryogenesis: A Framework for Understanding Clefing Sites
2. Comprehensive Management of Facial Clefts
3. Cleft Lip Repair
4. Cleft Palate Repair
5. Presurgical Infant Orthopedic Treatment for Patients with Cleft Lip and Palate
6. Evaluation and Management of Speech Disorders for the Patient with Cleft Palate
7. Management of the Cleft Maxilla
8. Cleft Orthognathic Surgery
9. Revision Surgery for Cleft Malformations
10. Craniomaxillofacial Surgery in the Pediatric Patient: Growth and Development Considerations
11. Nonsyndromic Craniosynostosis: Diagnosis and Contemporary Surgical Management
12. Craniofacial Dyostosis Syndrome: Evaluation and Staging of Reconstruction
13. Oculoauriculovertebral Spectrum: Staged Reconstruction
14. Treacher Collins Syndrome: Evaluation and Staging of Reconstruction
15. Craniofacial Pathology in the Pediatric Patient
16. Distraction Osteogenesis of the Craniomaxillofacial Skeleton
