

Section I: Non-Urologic Complications of Urologic Surgery

1. Impact of Host Factors and Co-Morbid Conditions
2. Pulmonary Complications of Urologic Surgery
3. Cardiac Complications of Urologic Surgery
4. Hematologic complications
5. Metabolic Complications of Urologic Surgery
6. Anesthetic Complications

Section II: Complications of Medical Therapies

7. Pharmacological Complications
8. Complications of Intravesical Therapy
9. Complications of Hormonal Treatment for Prostate Cancer
10. Toxicities of Chemotherapy for Genitourinary Malignancies
11. Complications of Radiation Therapy for Urologic Cancer

Section III: Complications of Minimally Invasive Urologic Procedures

12. Complications of Therapeutic Radiologic Procedures
13. Complications of ESWL
14. Complications of Renal Tissue Ablation
15. Complications of Interstitial Seed Implantation
16. Complications of Cryosurgical Ablation of Prostate
17. Complications of Minimally Invasive Procedures for Benign Prostatic Hyperplasia
18. Complications of Lasers in Urologic Surgery

Section IV: Common Surgical Considerations

19. Assessing Quality of Care in Urologic Surgery
20. Complications of the Incision and Patient Positioning
21. Management of Vascular Complications
22. Management of Bowel Complications
23. Management of Urinary Fistulas

Section V: Complications of Endourologic Procedures

24. Complications of Transurethral Resection of the Prostate

25. Complications of Transurethral Resection of Bladder Tumors

26. Complications of Ureteropyeloscopy

27. Complications of Percutaneous Renal Surgery

Section VI: Complications of Laparoscopic Procedures

28. Special Considerations in Laparoscopy

29. Complications of Laparoscopic Renal Surgery

30. Complications Following Laparoscopic Robot-Assisted Radical Prostatectomy

31. Complications of Minimally Invasive Reconstruction of the Upper Urinary Tract

32. Complications of Robotic Surgery

Section VII: Complications of Retroperitoneal Surgery

33. Complications of Nephrectomy

34. Complications of Partial Nephrectomy

35. Complications of Renovascular Surgery

36. Complications of Renal Stone Surgery

37. Complications of Renal Transplantation

38. Complications of Ureteral Surgery

39. Complications of Adrenalectomy

40. Complications of Lymphadenectomy

Section VIII: Complications of Pelvic Surgery

41. Complications of Radical Cystectomy

42. Complications of Simple Prostatectomy

43. Complications of Radical Perineal Prostatectomy

44. Complications of Radical Retropubic Prostatectomy

45. Longterm Outcomes of Radical Prostatectomy

Section IX: Complications of Reconstructive Surgery

46. Complications of Urinary Conduit Diversion

47. Complications of Continent Cutaneous Diversion

48. Complications of Orthotopic Neobladder

49. Complications of Bladder Augmentation

50. Complications of Female Incontinence Surgery

51. Complications of Male Incontinence Surgery

52. Complications of Urethral Reconstruction

53. Complications of Surgery for Erectile Dysfunction and Peyronie's Disease

54. Complications of Surgery of the Scrotum, Testis and Vas

Section X: Complications of Pediatric Urologic Surgery

55. Special Considerations in the Pediatric Patient

56. Complications of Pediatric Laparoscopy

57. Complications of Surgery for Posterior Urethral Valves

58. Complications of Ureteral Reimplantation, Anti-reflux Surgery and Megaureter Repair

59. Complications of Exstrophy and Epispadias Repair

60. Complications of Hypospadias Repair

61. Complications of Surgery for Disorders of Sex Development
