

Chapter 1 The Long Journey to the Diagnosis of Interatrial Blocks: ECG-VCG Criteria

Antoni Bayés de Luna and Adrian Baranchuk

Chapter 2 Normal Electrical Atrial Activity

Pyotr G. Platonov

Chapter 3 Structure of the Bachmann bundle

José Angel Cabrera and Damián Sánchez-Quintana

Chapter 4 Physiopathology of the Interatrial Blocks

Antoni Bayés de Luna, Albert Massó van-Roessel, and Luis Alberto Escobar Robledo

Chapter 5 Contributions of Noncontact Mapping to the Understanding of Normal Atrial Activation

Colin Yeo, Robert Lemery, and Martin Green

Chapter 6 Contributions of Noncontact and Contact Mapping to the Understanding of Interatrial Block

Benedict M. Glover

Chapter 7 Epidemiology of Interatrial Block

Shreyas Gowdar, Lovely Chhabra, and David H. Spodick

Chapter 8 Consensus Document on Interatrial Blocks: 2016 Update

Antoni Bayés de Luna, Iwona Cygankiewicz, Javier García-Niebla, and Francisco G. Cosío

Chapter 9 Interatrial Block and Supraventricular Arrhythmias: Bayés' Syndrome

Diego Conde and Adrian Baranchuk

Chapter 10 Correlation of Interatrial Block with Left Atrial Enlargement and P-wave Terminal Force

Larisa G. Tereshchenko

Chapter 11 Interatrial Block and Stroke

Arun Gautam, Lovely Chhabra, and David H. Spodick

Chapter 12 Interatrial Block as a Predictor of Atrial Fibrillation

Andres Enriquez and Diego Conde

Chapter 13 Interatrial Block as a Predictor of Post-CABG Atrial Fibrillation

Erik M. van Oosten and Adrian Baranchuk

Chapter 14 Interatrial Block in Octogenarians and Up

Manuel Martínez-Sellés and Antoni Bayés de Luna

Chapter 15 Interatrial Block in Hemodialysis Patients

Marco Marano

Chapter 16 Interatrial Block in Severe Heart Failure and the Impact of Cardiac Resynchronization Therapy

Fariha Sadiq Ali, Roger Villuendas, and Antoni Bayés-Genís

Chapter 17 Interatrial Block in Patients with Sleep Apnea and the Impact of CPAP

Adrian Baranchuk and Benedict Glover

Chapter 18 Progressive Interatrial Block

Bryce Alexander and Adrian Baranchuk

Chapter 19 Atrial Resynchronization by Batrial Pacing: Is This a Solution?

Jean-Claude Daubert, Raphaël Martins, and Philippe Mabo

Chapter 20 The Future (and Challenge) of Treating Interatrial Block in the 21st Century

Ignacio Fernández-Lozano, Diego Jiménez Sánchez, Eusebio García Izquierdo, and

Antoni Bayés de Luna
