I Internal Nose: Septum

1	Primary Septoplasty	3
1.1	Surgical Principles in Primary Septoplasty	4
1.2	Case Studies: Primary Septoplasty	12
1.2.1	Case 1: Technique: Fixation of the Caudal Septum to the Nasal Spine.....	12
1.2.2	Case 2: Technique: Using Cartilaginous Splinting Grafts to Straighten the Septum.....	15
1.2.3	Case 3: Technique: Partial Extracorporeal Septoplasty (Septal Exchange Technique)	18
1.2.4	Case 4: Technique: Extracorporeal Septoplasty	21
1.2.5	Case 5: Extracorporeal Septal Reconstruction for Severe Anterior Septal Angulation and Dislocation of the Caudal Septum	24
1.2.6	Case 6: Extracorporeal Septal Reconstruction for Building a L-Shaped Neoseptum.....	27
1.2.7	Case 7: Technique: Extracorporeal Septal Reconstruction Using Bone Graft for Splinting.....	30
1.2.8	Case 8: Extracorporeal Septal Reconstruction by Resection of the Deviated Anterior Septum and Turning the Posterior Part 180°	33
	Suggested Reading.....	35
2	Secondary Septoplasty	37
2.1	Surgical Principles	39
2.2	Case Studies	51
2.2.1	Case 1: Technique: Splinting of a Scored Septum with Ethmoid Bone.....	51
2.2.2	Case 2: Technique: Septal Extension Graft.....	54
2.2.3	Case 3: Technique: Suture Fixation of the Neoseptum to the ANS Using Osseous Drill Holes.....	58
2.2.4	Case 4: Technique: Creation of a Neoseptum with PDS Foil, Restoration of Strong Tip Support Using a Sandwich Graft from the Concha	61
2.2.5	Case 5: Technique: Straightening by Splinting with Thinned Perpendicular Plate	65
2.2.6	Case 6: Technique: Covering the Reconstructed Septum with Free Diced Cartilage (FDC).....	69
2.2.7	Case 7: Technique: Lengthening of the Septum by Extracorporeal Technique.....	72
2.2.8	Case 8: Technique: Reconstruction of an Overresected, Deformed Anterior Septum.....	78
2.2.9	Case 9: Technique: Reconstruction of a Neoseptum with Ethmoid Bone Grafting.....	82
2.2.10	Case 10: Septal Correction with Ethmoid Splinting Graft, Septal Extension Graft from Double-Layered Conchal (Sandwich) Graft, and Maxillary Augmentation	86
2.2.11	Case 11: Technique: Extracorporeal Septal Reconstruction with Double-Layered L-Strut.....	92
2.2.12	Case 12: Technique: Extracorporeal Septal Reconstruction and Repositioning of the Anterior Nasal Spine.....	99
2.2.13	Case 13: Technique: Reconstruction of the Inner Valve with PDS Foil	102
2.2.14	Case 14: Technique: Total Reconstruction of the Septum with Both Conchae.....	106
2.2.15	Case 15: Technique: Total Septal Reconstruction with Both Conchae, Reconstruction of the Dorsum with DC-F.....	110
2.2.16	Case 16: Technique: Augmentation of the Maxilla with a DC-F Graft	115
2.2.17	Case 17: Technique: Reconstruction of the Septal Framework Using Rib Cartilage	119
	Suggested Reading.....	123
3	Functional Aspects in Primary Rhinoplasty	125
3.1	Physical Examination	127
3.2	Surgical Principles	138
3.2.1	Septoplasty	138
3.2.2	Spreader Grafts and Upper Lateral Cartilage (ULC) Suture Techniques	139
3.2.3	Spreader Flaps and Anatomic Details of the Nasal Dorsum	144
3.2.4	Batten Grafts or Lateral Crural Strut Grafts	148
3.2.5	Reduction of Columellar Width	151
3.2.6	Turbinate Reduction	153

3.3	Functional Aspects in Primary Rhinoplasty: Case Studies	154
3.3.1	Case 1: Spreader Grafts	154
3.3.2	Case 2: Spreader Grafts	158
3.3.3	Case 3: Spreader Flaps	161
3.3.4	Case 4: Spreader Flaps	164
3.3.5	Case 5: Functional Correction of Complex Alar Deformities	167
3.3.6	Case 6: Functional Correction of Severe Deviation of the Anterior Nasal Spine (ANS)	172
3.3.7	Case 7: Balancing Airway Cross Section and Nasal Aesthetics	176
	Suggested Reading	179
4	Functional Aspects in Secondary Rhinoplasty	181
4.1	Diminished Side Wall Support	182
4.2	Surgical Principles	182
4.3	Case Studies	183
4.3.1	Case 1: Spreader Grafts and Extended Alar Batten Grafts	183
4.3.2	Case 2: Spreader Grafts and Alar Batten Grafts	188
4.3.3	Case 3: Bony Out-Fracture and Spreader Grafts	193
4.3.4	Case 4: Bony Out-Fracture	197
4.3.5	Case 5: Underscoring the Importance of Septal Support to Nasal Valve Function	199
4.3.6	Case 6: Bony Out-Fracture and Dorsal Narrowing	201
4.3.7	Case 7: Spreader Grafts and Alar Batten Grafts	203
4.3.8	Case 8: Septal Reconstruction with Rib Cartilage, Cephalic Fold-Under Flap	207
	Suggested Reading	211
II	External Nose	
5	Primary Reduction of the Dorsum	215
5.1	Surgical Principles	216
5.2	Case Studies	225
5.2.1	Case 1: Minor Hump Reduction with Power Drill	225
5.2.2	Case 2: Hump Reduction with Compound Technique	227
5.2.3	Case 3: Major Reduction for Rhinomegaly with Chisel Combined with Lateral Sliding Technique for Deprojection of the Tip	231
5.2.4	Case 4: Lowering the Dorsum Combined with Extracorporeal Septal Reconstruction	234
5.2.5	Case 5: Lowering the Dorsum Plus Spreader Flaps	236
5.2.6	Case 6: Reduction for Rhinomegaly Combined with Extracorporeal Septal Reconstruction	240
5.2.7	Case 7: Widening of Internal Valves with Spreader Flaps	244
5.2.8	Case 8: Overprojected Dorsum Combined with Underprojected Tip	247
5.2.9	Case 9: Rhinomegaly: Reduction Rhinoplasty Combined with Extracorporeal Septal Reconstruction	249
5.2.10	Case 10: Rhinomegaly with Hypoplasia of the Chin: Reduction Rhinoplasty Combined with Lateral Crural Overlap (Sliding) Technique, Tongue-in Groove Technique, Spreader Flaps, and Chin Augmentation	253
5.2.11	Case 11: Reduction Rhinoplasty Combined with Extracorporeal Septal Reconstruction Plus Shortening of the Nasal Spine	256
5.2.12	Case 12: Overprojected Dorsum and Overprojected Tip and Long Nose	258
5.2.13	Case 13: Dorsal Reduction Combined with Chin Augmentation	261
	Suggested Reading	264
6	Secondary Correction of the Dorsum Including Polly-Beak Deformity	265
6.1	Surgical Principles	266
6.2	Treatment of the Undersupported Nasal Tip	268
6.3	Case Studies	278
6.3.1	Case 1: Polly-Beak Deformity with Tip Ptosis and Deviated Nose in a Thin-Skinned Patient	278
6.3.2	Case 2: Complex Deformity with Polly-Beak Parrot Beak from Incomplete Hump Reduction	281
6.3.3	Case 3: Polly-Beak Deformity Following Septal Overresection and Increased Scarring	285

6.3.4	Case 4: Inverted-V Deformity Combined with Underresected Dorsum	292
6.3.5	Case 5: Inverted-V Deformity Combined with Polly-Beak Deformity.....	297
6.3.6	Case 6: Insufficient Tip Support with Retracted Columella.....	300
6.3.7	Case 7: Underresected and Overprojected Dorsal Septum with Underprojected Tip (Sheep's Nose Deformity)	303
6.3.8	Case 8: Irregular Overprojected Dorsum with Overresected Septum	307
6.3.9	Case 9: C-Shaped Tension-Nose Deformity with Long, Displaced Septum	310
6.3.10	Case 10: Polly-Beak Deformity in a Short Nose	313
6.3.11	Case 11: Polly-Beak Deformity After Total Resection of the LLC in a Thick-Skinned Patient with Bad Scarring	316
6.3.12	Case 12: Irregular, Overprojected Dorsum with Ptotic Nasal Tip and Severe Septal Deformity.....	321
6.3.13	Case 13: Overresection of the Dorsum with Saddle-Nose Deformity Combined with Inverted-V and Polly-Beak Deformity	325
6.3.14	Case 14: Overresected Dorsum Combined with Polly-Beak Deformity.....	328
6.3.15	Case 15: Overresected and Deviated Dorsum.....	331
	Suggested Reading.....	336
7	Primary Augmentation of the Dorsum	337
7.1	Surgical Principles in Primary Saddle-Nose Deformity	338
7.2	Case Studies	344
7.2.1	Case 1: Augmentation with Cephalic Portion of LLC.....	344
7.2.2	Case 2: Dorsal Reconstruction by Extracorporeal Septal Reconstruction with PDS Foil.....	346
7.2.3	Case 3: Dorsal Reconstruction by Extracorporeal Septal Reconstruction.....	349
7.2.4	Case 4: Augmentation with Conchal Cartilage and Allogenic Fascia.....	352
7.2.5	Case 5: Reconstruction of the Anterior Septum with Double-Layered Conchal Graft and Augmentation with DC-F from Allogenic Fascia and Diced Cartilage	355
7.2.6	Case 6: Dorsal Reconstruction by Solid Graft.....	359
7.2.7	Case 7: Dorsal Reconstruction with DC-F.....	362
7.2.8	Case 8: Dorsal Reconstruction with DC-F.....	366
7.2.9	Case 9: Dorsal Reconstruction with DC-F.....	369
7.2.10	Case 10: Dorsal Reconstruction of Ethnically Low Dorsum	371
7.2.11	Case 11: Dorsal Reconstruction of Ethnic Saddle Nose and Narrowing of Alar Base.....	374
7.2.12	Case 12: Dorsal Reconstruction with DC-F After Septal Abscess in Childhood.....	379
7.2.13	Case 13: Complex Dorsal Reconstruction of Binder Syndrome Deformity.....	383
7.2.14	Case 14: Augmentation of a Severe Congenital Saddle Nose with Simultaneous Bulbous Tip Correction.....	387
7.2.15	Case 15: Augmentation of a Severe Idiopathic Saddle Nose and Simultaneous Tip Correction	391
	Suggested Reading	394
8	Secondary Augmentation of the Dorsum	395
8.1	Surgical Principles in Secondary Saddle-Nose Deformity	396
8.2	Case Studies	400
8.2.1	Case 1: Overresected Dorsum Augmented with Multilayered Allogenic Fascia Lata.....	400
8.2.2	Case 2: Augmentation with Free Diced Cartilage.....	403
8.2.3	Case 3: Augmentation with Free Diced Cartilage.....	405
8.2.4	Case 4: Augmentation with Conchal Cartilage and Simultaneous Reconstruction of the Lateral Crura.....	408
8.2.5	Case 5: Augmentation with Conchal Cartilage.....	411
8.2.6	Case 6: Augmentation with Conchal Cartilage.....	412
8.2.7	Case 7: Augmentation with Conchal Cartilage.....	414
8.2.8	Case 8: Augmentation of DC-F Graft from Concha, Complex Tip Reconstruction.....	416
8.2.9	Case 9: Augmentation of DC-F Graft from Concha and Simultaneous Deprojection of the Tip.....	420
8.2.10	Case 10: Augmentation with DC-F from Rib Cartilage and Lengthening with Septal Extension Graft	423
8.2.11	Case 11: Replacing a Medpore [®] Implant with a DC-F Graft	427
8.2.12	Case 12: Augmentation with DC-F from Rib Cartilage	430
8.2.13	Case 13: Augmentation with DC-F from Rib Cartilage	434
8.2.14	Case 14: Dorsal Reconstruction with DC-F from Rib Cartilage.....	436

8.2.15 Case 15: Dorsal Reconstruction with Solid Rib Graft Covered with DC-F 440

8.2.16 Case 16: Augmentation with Diced Cartilage from the Previous Rib Cartilage Graft 444

8.2.17 Case 17: Augmentation with Diced Cartilage from a Previous Rib Cartilage Graft 447

8.2.18 Case 18: Augmentation with Diced Cartilage from the Previous Rib Cartilage Graft..... 453

8.2.19 Case 19: Total Septal Reconstruction with Concha Combined with DC-F Graft from Rib Cartilage..... 455

8.2.20 Case 20: Removal of Silicone Implants and Replacement of DC-F Graft..... 460

8.2.21 Case 21: Removal of Silicone Implants and Replacement of DC-F Graft..... 463

8.2.22 Case 22: Removal of Synthetic Implant and Replacement of DC-F Graft..... 466

8.2.23 Case 23: Enlarging the Shrunken Skin Envelope by Continuous Manual
Stretching as Prerequisite for a Successful Augmentation with Solid Rib Graft 470

Suggested Reading..... 472

III Nasal Pyramid

9 **Osteotomies in Primary Rhinoplasty** 475

9.1 **Surgical Principles**..... 476

9.2 **Case Studies: Primary Nasal Pyramid Correction** 481

9.2.1 Case 1: Wide Nasal Bridge 481

9.2.2 Case 2: Wide Nasal Bridge 484

9.2.3 Case 3: Wide Nasal Bridge Complicated by Fracture of the Septal Frame 487

9.2.4 Case 4: Wide Nasal Bridge with Functional Problems 489

9.2.5 Case 5: Narrow Nasal Bridge..... 492

9.2.6 Case 6: Narrow Nasal Bridge with Overprojected Dorsum 494

9.2.7 Case 7: Deviated Wide Nasal Bridge..... 496

9.2.8 Case 8: Deviated Nasal Bridge..... 499

9.2.9 Case 9: Asymmetrical Nasal Bridge with Severe Septal Deviation..... 501

9.2.10 Case 10: Inverted-V Deformity..... 504

Suggested Reading..... 506

10 **Osteotomies in Secondary Rhinoplasty**..... 507

10.1 **Surgical Principles of Osteotomies in Secondary Rhinoplasty** 508

10.2 **Case Studies: Secondary Nasal Pyramid Correction**..... 509

10.2.1 Case 1: Wide Nasal Bridge 509

10.2.2 Case 2: Wide Nasal Bridge 511

10.2.3 Case 3: Asymmetrical Wide Nasal Bridge 513

10.2.4 Case 4: Deviated Nasal Pyramid Combined with Inverted-V Deformity 516

10.2.5 Case 5: Deviated Nasal Pyramid 519

10.2.6 Case 6: Wide Bony Pyramid..... 522

10.2.7 Case 7: Crooked Nose with Asymmetrical and Deviated Nasal Pyramid 525

10.2.8 Case 8: Narrow Nasal Pyramid with Inverted-V Deformity..... 528

Suggested Reading..... 530

IV Tip

11 **Tip Refinement in Primary Rhinoplasty** 533

11.1 **Surgical Principles**..... 535

11.1.1 Nasal Tip Contour 536

11.1.2 Projection of the Tip..... 542

11.1.3 Rotation of the Tip..... 549

11.2 **Case Studies: Contour**..... 555

11.2.1 Case 1: Debulking of the Tip..... 555

11.2.2 Case 2: Debulking of the Tip..... 557

11.2.3 Case 3: Augmentation of the Soft Triangle..... 562

11.2.4 Case 4: Contouring by Suture Technique..... 564

11.2.5 Case 5: Contouring by Suture Technique After Lateral Crural Overlay 570

11.2.6 Case 6: Contouring by Lateral Crural Steal and Transposition 573

11.2.7 Case 7: Contouring in a Thick LLC by Dome Division Technique..... 575

11.2.8	Case 8: Contouring in a Thick LLC by Dome Division Technique.....	577
11.2.9	Case 9: Technique: Contouring in a Thin-Skinned Patient with Suture Technique and Additional Camouflaging with Allogenic Fascia Lata and Foot Plate Resection.....	579
11.3	Case Studies: Projection	582
11.3.1	Case 10: Deprojection and Lengthening of the Nose by Modified Lateral Sliding (Overlay) Technique	582
11.3.2	Case 11: Deprojection by Medial Sliding.....	584
11.3.3	Case 12: Deprojection by Medial and Lateral Sliding	586
11.3.4	Case 13: Deprojection.....	591
11.3.5	Case 14: Technique: Reduction Rhinoplasty with Tip Deprojection and Correction of Concave Lateral Crura Using the Lateral Crural (Sliding) Overlap Technique	594
11.3.6	Case 15: Increasing the Projection by Grafting.....	598
11.3.7	Case 16: Increasing the Projection	600
11.3.8	Case 17: Increasing the Projection by Grafting.....	604
11.4	Case Studies: Rotation	606
11.4.1	Case 18: Lengthening: Derotation by Columellar Strut Combined with Extended Spreader Grafts.....	606
11.4.2	Case 19: Lengthening: Derotation by Septal Extension Graft	607
11.4.3	Case 20: Shortening: Cranial Rotation by Tongue-in-Groove Technique	610
11.4.4	Case 21: Shortening: Cranial Rotation by Modified Tongue-in-Groove Technique	612
11.4.5	Case 22: Shortening: Cranial Rotation by Suspension with Anterior Sling Plasty	613
11.4.6	Case 23: Shortening: Cranial Rotation by Suspension with Anterior Sling Plasty.....	617
11.4.7	Case 24: Shortening: Cranial Rotation by Suspension with Posterior Sling Plasty.....	621
11.4.8	Case 25: Identical to Case 2 in Primary Dorsum: Tip Correction with Fold-Under Flap Technique, Transdomal Suture, Spanning Suture, and Tip Suspension with Posterior Sling.....	622
11.4.9	Case 26: Shortening: Cranial Rotation by External Nose Lift.....	626
11.4.10	Case 27: Shortening: Cranial Rotation by Dome Division Combined with Internal Nose Lift.....	628
11.4.11	Case 28: Tip Correction by Columellar Strut (Sandwich Graft), Lateral Crural Steal Technique, Mattress Sutures Plus Double Layered Onlay Graft in Combination with Premaxillary Augmentation (DC-F Graft)	630
	Suggested Reading	634
12	Tip Refinement in Secondary Rhinoplasty	635
12.1	Surgical Principles in Secondary Tip Correction	637
12.2	Case Studies	640
12.2.1	Case 1: Suture and Shield Grafts.....	640
12.2.2	Case 2: Alar Reconstruction with Septal Cartilage.....	643
12.2.3	Case 3: Fold-Under Flap Combined with Lateral Crural Overlay.....	646
12.2.4	Case 4: Combination Columellar Strut/Cephalic Fold-Under Flap/Suspension Suture with Anterior Sling	650
12.2.5	Case 5: Technique: Supratip Excision.....	653
12.2.6	Case 6: Reconstruction of the Lower Framework with Septum via Bending Technique.....	657
12.2.7	Case 7: Reconstruction of the Lower Framework with Septum via Bending Technique.....	661
12.2.8	Case 8: Reconstruction of the Lower Framework with Septum via Bending Technique.....	664
12.2.9	Case 9: Reconstruction of the Lower Framework with Septum via Bending Technique.....	667
12.2.10	Case 10: Reconstruction of the Lower Framework with Septum via Bending Technique	670
12.2.11	Case 11: Reconstruction of the Lower Framework with Septum via Bending Technique	673
12.2.12	Case 12: Reconstruction of the Lower Framework with Septum via Bending Technique	677
12.2.13	Case 13: Reconstruction of the Lower Framework with Septum via Batten Graft Technique	681
12.2.14	Case 14: Reconstruction of the Lower Framework with Septum via Batten Graft Technique	683
12.2.15	Case 15: Reconstruction of the Lower Framework with Septum via Batten Graft Technique	686
12.2.16	Case 16: Reconstruction of the Lower Framework with Septum via Batten Graft Technique	690
12.2.17	Case 17: Reconstruction of the Lower Framework with Septum via Batten Graft Technique	692
12.2.18	Case 18: Reconstruction of the Lower Framework with Septum via Batten Graft Technique	695
12.2.19	Case 19: Reconstruction of the Lower Framework with Septum via Batten Graft Technique	698
12.2.20	Case 20: Reconstruction of the Lower Framework with Septum via Batten Graft Technique	701
12.2.21	Case 21: Correcting the Lower Framework with Septum via Batten Graft Technique.....	704

12.2.22 Case 22: Reconstruction of the Lower Framework with Septum via Batten Graft Technique 707

12.2.23 Case 23: Reconstruction of the Lower Framework with Rib Grafts 712

12.2.24 Case 24: Reconstruction of the Lower Framework with Rib Grafts 716

12.2.25 Case 25: Reconstruction of the Lower Framework with Rib Grafts 720

12.2.26 Case 26: Reconstruction of the Lower Framework with Rib Grafts 723

12.2.27 Case 27: Reconstruction of Tip Projection by Sandwich Graft, Combined with Lateral Crural Steal Technique 728

12.2.28 Case 28: Increasing Projection by Grafting 731

12.2.29 Case 29: Reconstruction of Tip Support with Conchal Graft (Sandwich)..... 734

12.2.30 Case 30: Deprojection with Simultaneous Correction of Dysplastic LLCs by Medial Crural Overlap (Medial Sliding) 738

12.2.31 Case 31: Deprojection by Medial Crural Overlap (Medial Sliding)..... 739

12.2.32 Case 32: Deprojection by Medial Crural Overlap (Medial Sliding)..... 740

12.2.33 Case 33: Deprojection by Medial Crural Overlap (Medial Sliding)..... 742

12.2.34 Case 34: Deprojection by Medial Crural Overlap (Medial Sliding)..... 744

12.2.35 Case 35: Deprojection by Lateral Crural Overlap (Lateral Sliding)..... 748

12.2.36 Case 36: Complex Tip Reconstruction with Deprojection and Lengthening by Sandwich Graft, Combined with Push Down, Reconstruction of the Missing Dome with Ear Cartilage 751

12.2.37 Case 37: Deprojection by Lateral Crural Overlap (Lateral Sliding) and Setback by Septal Extension Graft 755

12.2.38 Case 38: Deprojection Combined with Cranial Rotation by Septal Extension Graft 757

12.2.39 Case 39: Deprojection Combined with Cranial Rotation and Total Reconstruction of the Lower Framework 761

12.2.40 Case 40: Deprojection by Lateral Crural Overlap Combined with Sandwich Graft Working as a Septal Extension Graft..... 765

12.2.41 Case 41: Lengthening by Columellar Strut and Extended Spreader Grafts, Reconstruction of the Lower Framework with Septal Cartilage 769

12.2.42 Case 42: Lengthening by Septal Extension Graft 773

12.2.43 Case 43: Lengthening by Combination from Sandwich Graft and Septal Extension Graft 777

12.2.44 Case 44: Lengthening by Two Doublelayered Sandwich Grafts from both Conchae 779

12.2.45 Case 45: Shortening by Tip Suspension Suture with Anterior Sling, Additionally Columella Shortening..... 783

12.2.46 Case 46: Shortening by Sandwich Graft for Tip Support..... 786

12.2.47 Case 47: Shortening by Combination of Different Techniques 790

12.2.48 Case 48: Shortening by Combination of Different Techniques 793

12.2.49 Case 49: Correction of Hanging Columella with Columellar Strut from Double-Layered Conchal Cartilage (Sandwich Graft) Plus Double-Layered Shield Graft and Soft-Tissue Graft..... 797

12.2.50 Case 50: Correction of Hanging Columella with Columellar Strut and Extended Spreader Grafts, Total Reconstruction of the Lower Framework..... 801

Suggested Reading 805

V Malformations

13 **Malformation**..... 809

13.1 **Surgical Principles** 810

13.2 **Case Studies**..... 815

13.2.1 Primary Cases 815

13.2.2 Secondary Cases..... 837

Suggested Reading 868

VI Complex Revision

14 **Complex Revisions**..... 871

14.1 **Case 1: Long-Term Result of Complex Tip Reconstruction (12-Year Follow-Up)** 872

14.2 **Case 2: Complex Reconstruction with Extracorporeal Septal Reconstruction, Cartilage Grafts from Ear and Rib and Dorsal Reconstruction with DC-F Graft**..... 878

14.3 Case 3: Complex Nose Reconstruction in a Patient with Partial Necrosis of the Columella..... 882

14.4 Case 4: Reconstruction of Tip and Dorsum with Rib Grafts..... 886

14.5 Case 5: Complex Tip Reconstruction 890

14.6 Case 6: Severe Psychological Problems After Minor Surgical Deformity
with 15-Year Follow-Up 894

14.7 Case 7: Scar Correction After a Failed Open Approach..... 899

14.8 Case 8: Complex Tip Reconstruction 902

14.9 Case 9: Complex Reconstruction of the Nasal Framework in Severely Scared Skin 905

14.10 Case 10: Complex Tip and Dorsal Reconstruction Including Extracorporeal
Septal Reconstruction..... 911

Suggested Reading 916

VII Software

15 **New Software for Rhinoplasty Documentation and Record Keeping** 919

15.1 Case 1: Overprojected Dorsum with Bulbous Tip and Thin Skin..... 921

15.2 Case 2: Overprojected, Hourglass-Shaped Narrow Dorsum..... 926

15.3 Case 3: Primary Rhinoplasty in a Thin-Skinned Patient..... 930

15.3.1 Technique: Camouflaging with Allogenic Fascia..... 930

15.4 Case 4: Secondary Rhinoplasty After Overresection of the Dorsum and the LLCs 934

Suggested Reading 938
