

Section 1: Ageing population and policy, Edited by Jean-Pierre Michel

- 1: Demography of Global Ageing, *David E. Bloom, Elizabeth Mitgang, and Benjamin Osher*
- 2: Population ageing in Europe, *Emily M Grundy and Michael Murphy*
- 3: Ageing in North America: Canada and the United States, *Eileen M. Crimmins, Hiram Beltran-Sanchez, Lauren Brown and Yongjie Yon*
- 4: Population ageing in south and central America, *Carlos M. Paixao Junior, Roberto A. Lourenço and Morales-Martinez*
- 5: Population ageing in sub-Saharan Africa, *Bilkish Cassim and Isabella Aboderin*
- 6: Population ageing in Asia, *Du Peng and Cao Ting*
- 7: Population Ageing in Arab countries, *Abla Mehio Sibai and Anthony Rizk*
- 8: Population Ageing in Oceania, *Leon Flicker and Ngaire Kerse*
- 9: Health expectancies, *Jean-Marie Robine and Carol Jagger*
- 10: Life course approach to understanding inequalities in health in later life, *Ruth Bell and Michael Marmot*
- 11: Implications of population ageing for societies and governments, *John R Beard, Anne Margriet Pot, and Geeske Peeters*
- 12: Economic implications of Population Ageing, *Andrew Mason and Ronald Lee*
- 13: Policy options for responding to population ageing, *Alexandre Sidorenko and Alan Walker*

Section 2: Key Concepts in care of older adults, Edited by Finbarr C. Martin

- 14: A lifecourse approach for understanding later life sustainability, *H E Syddall and A A Sayer*
- 15: Ageing, multimorbidity and daily functioning, *Barbara Gryglewska, Karolina Piotrowicz and Tomasz Grodzicki*
- 16: Comprehensive Geriatric Assessment: Evidence, *Alberto Pilotto and Francesco Panza*
- 17: Comprehensive Geriatric Assessment: The Specific Assessment Technology of InterRAI, *George Heckman and Pálmi V. Jónsson*
- 18: Engaging older patients in their treatment and care, *Angela Coulter*
- 19: Models of health care for older people, *Kaisu Pitkala, John Gladman and Martin Connolly*
- 20: History Taking And Physical Examination, *José M Ribera-Casado*
- 21: Communication, *Rebecca Allwood, Rowan H Harwood*
- 22: Interprofessional Team Building and Case Management, *Ellen Flaherty and Terry Fulmer*
- 23: Age-friendly environments and their role in supporting Healthy Ageing, *Lisa Warth, Alana Margaret Officer, John Roland Beard and Norah Keating*
- 24: Principles Of Medication Management, *David G Le Couteur, Andrew J McLachlan and Sarah N Hilmer*
- 25: Optimizing Pharmacotherapy for Older Patients, *Denis O Mahony*
- 26: Limitations in the evidence for safe and effective medications for older people, *Antonio Cherubini and Graziano Onder*
- 27: General principles of recovery and rehabilitation, *Torgeir Bruun Wyller and Erik Bautz-Holter*
- 28: The approach of dying and death, and the mourning process of the survivors, *Jonathan Martin, Caroline Nicholson and Rob George*
- 29: Legal and ethical issues in care of older adults, *Reijo Tilvis*

Section 3: Principles and organisation of care, Edited by B. Lynn Beattie

- 30: Integrating geriatrics principles into primary care, *Alfonso J. Cruz-Jentoft*
- 31: Clinical Interventions in home care, *Gideon Caplan*
- 32: Geriatric Patients in the Emergency Department, *Don Melady and Barry J. Goldlist*
- 33: Critical Illness and Intensive Care, *Maria E. Carlo, Kwame Frimpong and E. Wesley Ely*
- 34: Older People Presenting to Acute Care Hospitals, *Roger Wong*
- 35: Postacute Care and Intermediate Care, *Liang-Kung Chen*
- 36: Pre-operative assessment and peri-operative management, *Jugdeep Dhesi and Judith Partridge*
- 37: Residential and nursing home care; from the past to the future, *Jos M. G. A. Schols and Adam Gordon*
- 38: Dementia specialist care units, *Rebecca Palm and Sabine Bartholomeyczik*
- 39: Transitions between Care Settings Till Death, *Elizabeth Gundersen, Benjamin A. Bensadon and Joseph G. Ouslander, M.D.*

Section 4: Age-related biological changes, altered physiology and vulnerability to diseases and chronic conditions, Edited by Jeremy D. Walston

40: Why do organisms agea

41: Age-related Physiologic Declines, *Fabbri Elisa, Zoli Marco and Ferrucci Luigi*

42: The Emergence of Ageing Phenotypes and Multi-system decline, *Fabbri Elisa, Zoli Marco and Ferrucci Luigi*

43: Environment and ageing biology, *Arun S Karlamangla and Teresa E Seeman*

44: Inflammation and its role in ageing and disease, *Jintang Wang and Sean X. Leng*

45: Immune system changes and immunosenescence, *Graham Pawelec, Ludmila Müller, Tamas Fülöp*

46: Mitochondrial Decline and Chronic Conditions of Older Adults, *Emanuele Marzetti, Francesco Landi, Francesca Martini, Christiaan Leeuwenburgh, Riccardo Calvani*

47: Biological significance of gut microbiota changes associated with ageing, *Kevin Horgan, Fergus Shanahan, Paul W. O Toole and Deborah Dunn-Walters*

Section 5: Geriatric syndromes in clinical practice, Edited by Jeremy D. Walston

48: Conceptualizing Geriatric Syndromes, *Marcel Olde Rikkert*

49: Delirium, *Alasdair MacLulich, Edward R. Marcantonio and David Meagher*

50: Falls, *Clemens Becker, Jean Woo and Chris Todd*

51: Urinary Incontinence, *Adrian Wagg*

52: Benign Prostatic Hyperplasia and Prostate Cancer, *Richard Savdie, Edmund CP and Mr Chidi Molokwu*

53: Pressure ulcers in the ageing population, *Cindy Kiely and Magdalena Pupiales*

54: Sarcopenia Definitions and Epidemiology, *José A. Morais*

55: Pathophysiology of Sarcopenia, *Townsend Benard and Roger A. Fielding*

56: Sarcopenia: assessment, management and outcomes, *Luis Miguel F. Gutiérrez Robledo and Mario Ulises Perez Zepeda*

57: Frailty in older adults, *Jeremy Walson*

Section 6: Nutrition and metabolism, Edited by B. Lynn Beattie

58: Epidemiology of malnutrition in different care settings, *Maria Isabel Toulson Davisson Correia and Simone de Vasconcelos Generoso*

59: Anorexia of Ageing, *Francesco Landi, Anna Maria Martone, Riccardo Calvani and Emanuele Marzetti*

60: Protein and energy requirements in health and illness, *Jürgen M. Bauer and Rebecca Diekmann*

61: Vitamin D: Its role in health and disease in older people, *Heike A. Bischoff-Ferrari*

62: Micronutrients: their roles in health and diseases in older people, *Cédric Annweiler and Olivier Beauchet*

63: From nutritional screening to assessment and nutritional plan in community, acute and long term care, *Gianfranco Gioia, Alessio Molfino, Filippo Rossi Fanelli, and Maurizio Muscaritoli*

64: Obesity, *Mauro Zamboni, Francesco Fantin and Gloria Mazzali*

65: Metabolic syndrome, *Stefania Maggi and Gaetano Crepaldi*

66: Management of Diabetes in Older Adults., *Leocadio Rodríguez Mañas, Marta Castro Rodríguez and Alan J. Sinclair*

Section 7: Mobility disorders: prevention, impact and compensation, Edited by Finbarr C. Martin

67: Gait Disorders: Clinical Significance and Approach to Evaluation and Management, *Stephanie Studenski and Jessie Van Swearingen*

68: Osteoporosis in the oldest old: epidemiology, assessment and management, *René Rizzoli*

69: Common fractures in older adults: Epidemiology and outcomes, *Hiroshi Hagino and Akiko Kondo*

70: Management of Common Fractures in Older Adults, *V. Ana Sanguineti, Jason R. Wild, Bellal Joseph and Mindy J. Fain*

71: Secondary prevention of fragility fractures: case finding, fracture liaison, falls reduction, injury prevention., *Tahir Masud and Paul J. Mitchell*

72: Osteoarthritis, *Francisco J Blanco*

73: Low back pain in older adults: From red flags to functional rehabilitation, *Kieran O Sullivan, Kjartan Vibe Fersum, Wim Dankaerts and Peter O Sullivan*

- 74: Vasculitides In The Elderly, *Alexis Régent and Loïc Guillevin*
75: Management of common types of arthritis in older adults, *James B Galloway and David L Scott*
76: Foot Problems, *Hylton B. Menz*
77: Injuries in sports activities in elderly people, *Tomasz Kostka and Joanna Kostka*
78: Orthogeriatrics, *Jacqueline Close*

Section 8: Infections in Older Adults: Epidemiology, pathophysiology, diagnosis and management, Edited by Jean-Pierre Michel

- 79: Immunosenescence and Infectious Diseases, *Michel Moutschen, Henri Martens and Vincent Geenen*
80: Epidemiology of infection in elderly populations in various settings, *Gaëtan Gavazzi, Thibaut Fraisse, Benoît de Wazières*
81: Pneumonia and respiratory tract infections, *Adamantia Liapikou and Antoni Torres*
82: Tuberculosis in old age, *Aparajit Ballav Dey and Ramesh Kandel*
83: Bone and Periprosthetic Joint Infections in Older Adults, *Werner Zimmerli and Parham Sendi*
84: Infective endocarditis, *Ursula Müller-Werdan and Karl Werdan*
85: Ageing with HIV, *Amy Justice*
86: Health care associated infections and emergence of antibiotic resistance, *Benedikt Huttner and Stephan Harbarth*
87: Healthcare-associated infections and infection control, *Pascal Astagneau, Elise Seringe and Francois Bricaire,*
88: Vaccines against viral infections, *Janet E. McElhaney*
89: Vaccination in older adults needs to be included a life-course programme, *Jean-Pierre Michel, Pierre-Olivier Lang and Richard Aspinall*

Section 9: Cancer: Epidemiology, pathophysiology, diagnosis and management, Edited by B. Lynn Beattie

- 90: Cell biology and carcinogenesis in the elderly, *Tamas Fulop, Vladimir N. Anisimov, Francis Rodier and Martine Extermann*
91: Epidemiology of cancers in older adults, *Shane O'Hanlon and Margot Gosney*
92: Screening for Cancer, *Anne M Horgan and Shabbir MH Alibhai*
93: Multidisciplinary management, including chemotherapy of solid tumors (lung, breast & colon), *Nicolò Matteo Luca Battisti and Martine Extermann*
94: Haemopoietic diseases: Leukemias & Myelomas, *Roberto Mina, Alessandra Larocca and Antonio Palumbo*

Section 10: Vascular diseases: Epidemiology, pathophysiology, diagnosis and management, Edited by Jeremy D. Walston

- 95: Cardiac and Vascular Ageing, *Hidetaka Ota and Masahiro Akishita*
96: Dyslipidemias and other cardio-metabolic risk factors In Older Adults, *Hidenori Arai*
97: Physical factors in arterial ageing, *Junichiro Hashimoto, Michael F. O'Rourke*
98: Peripheral Vascular Disease in Older Adults: Diagnostic and Treatment Considerations, *Chung S Lim, Sarah Onida and Alun H Davies*
99: Aneurysmal Diseases, *Gino Gemayel and Afksendiyos Kalangos*
100: Pulmonary thromboembolism, *Simone Wärntges, Katrin Schäfer and Stavros V. Konstantinides*
101: Hypertension in older adults, *Hiromi Rakugi, and Tatsuo Kawai,*
102: Syncope and neurocardiovascular instability, *R. A. Kenny and Conal Cunningham*
103: Management of Atrial Fibrillation and Anticoagulant Therapies, *John Whitaker, Jonathan Birns, Matthew Wright and Mark D. O'Neill*
104: Management of Bradyarrhythmias, *James L Harrison and Mark D O'Neill*
105: Management of Bachyarrhythmias, *James L Harrison and Mark D O'Neill*
106: Ischemic Heart Disease, *Martina Rafanelli, Francesco Orso and Niccolò Marchionni*
107: Valvular Heart Disease State of the Art and Treatment Perspectives, *Alain Cribier and Helene Eltchaninoff*
108: Heart Failure - Definitions, Investigation & Management, *John Cleland and John Baxter*
109: Cardiac Rehabilitation, *Andrew Maiorana, Lis Neubeck, Sian Williams and Keith Hill*

110: Cardiopulmonary Resuscitation: Outcomes and Decision Making Processes for Older Adults, *Esther M.M. van de Glind, Barbara C. van Munster and Marije E. Hamaker*

Section 11: Neurologic Disorders: Epidemiology, pathophysiology, diagnosis and management, Edited by Finbarr C. Martin

111: Examining the nervous system of an older patient, *Henry J. Woodford and James George*

112: Peripheral neuropathies and motor neuron disorders, *Stéphane Mathis, Pierre Bouche, Jean-Michel Vallat*

113: Headaches and Facial Pain, *Mark Weatherall*

114: Traumatic brain injury and subdural hematoma, *Abdullah Bin Zahid and Uzma Samadani*

115: Seizure disorders and management, *Steven C. Schachter*

116: Parkinsonism, Parkinson s disease and related conditions, *John V. Hindle, Sion Jones and Glesni Davies*

117: Stroke: Epidemiology, different types of strokes, *Uy Hoang, Abdel Douiri, Salma Ayis, Yanzhong Wang, Anthony Rudd and Charles Wolfe*

118: Primary and secondary prevention of stroke, *L. Manning, M. Y. Lam, and T. G. Robinson*

119: Management of acute stroke within the stroke pathway and stroke clinics, *Jonathan Birns and Ajay Bhalla*

120: Neurological Rehabilitation, *J.S. K. Kwan, M. M. Y Tse and L. S. W. Li*

Section 12: Cognitive decline and dementia in older adults: Epidemiology, pathophysiology, diagnosis and management, Edited by B. Lynn Beattie

121: Normal cognition and ageing: Structure and function, Cognitive reserve, *John Starr*

122: Epidemiology of Alzheimer s Disease: a relevant challenge for long term follow-up of population-based cohort., *Jean François Dartigues, Leslie Grasset, Maturin Tabue-Tiguo, Alexandra Foubert, Karine Pérès, Catherine Helmer and Hélène Amieva*

123: Cognitive impairment Risk Factors and Prevention, *Francesca Mangialasche , Tiia Ngandu and Miia Kivipelto*

124: Neuropsychological evaluation of cognition, *H. Tuokko and C. Smart*

125: Mild Cognitive Impairment, *Pieter Jelle Visser, Nienke Legdeur, Mara ten Kate and Daniela Bertens*

126: The Diagnosis of Alzheimer s Disease: Assessment and Criteria, *Bruno Dubois, Massimo Filippi and Gunhild Waldemar*

127: Assessment and diagnosis of the non-Alzheimer dementias, *Chiadi U. Onyike*

128: Pharmacological interventions in mild cognitive impairment (mci) and dementia, *Jacques Hugon and Claire Paquet*

129: Non-pharmacologic Behavioral Activity Interventions to Prevent Dementia, *Michelle C. Carlson and Vijay R. Varma*

130: Management of co-morbidities in demented patients, *Gabriel Gold and Dina Zekry,*

131: Evidence-based management of behavioural and psychological symptoms of dementia, *Anne Corbett, Clive Ballard and Byron Creese*

132: Caregivers in dementia: Role and Empowerment, *Emma Reynish, Nicola Thomson and Jane Roberson*

133: A new model of care for patients with dementia: The Japanese Initiative for Dementia Care, *Yohko Maki, Takashi Sakurai and Kenji Toba*

Section 13: Mental health of older adults, Edited by Jean-Pierre Michel

134: Mental health: Epidemiology, pathophysiology, diagnosis and management, *Renzo Rozzini and Marco Trabucchi*

135: Sleep disorders, *Yohannes Endeshaw and Donald L. Bliwise*

136: Mood and Anxiety Disorders, *Christine M. Ulbricht, Jacob Hunnicutt, Anne Hume, Camilla B. Pimentel, Jennifer Tjia and Kate L. Lapane*

137: Functional psychoses, *Luis Agüera-Ortiz*

138: Older people with substance problems, *Ilana Crome and Rahul (Tony) Rao*

139: Elder Abuse, *Peter Crome and Amit Arora*

Section 14: Management of Common medical conditions: epidemiology, pathophysiology, diagnosis and management, Edited by Finbarr C. Martin

140: Common geriatric emergencies, *Simon Conroy and Rosa McNamara*

- 141: Management of acute kidney injury and chronic kidney disease, *Natalie Ebert and Elke Schaeffner*
- 142: Oral Health and Mouth Diseases., *Michael I Macentee*
- 143: Gastrointestinal disease in the older population, *Silvia Carrión and Pere Clavé*
- 144: Malabsorption, *Philippe Ducrotte and Philippe Chassagne*
- 145: Constipation and faecal incontinence, *Philippe Chassagne and Frédéric Roca*
- 146: Age-associated breathlessness, *Chang Won Won and Sunyoung Kim*
- 147: Anaemia, *Ammon M. Fager and Harvey Jay Cohen*
- 148: Endocrinology of Ageing, *Alexis McKee and John E. Morley*
- 149: Sexuality in Older Persons, *Marcello Maggio, Fulvio Lauretani and Gian Paolo Ceda*
- 150: Skin diseases more common in older adults, *Christophe Trivalle and Daniel Wallach*
- 151: Common age-related eye diseases and visual impairment, *Jacqueline Chua, Ching-Yu Cheng and Tien Yin Wong*
- 152: Hearing impairments and their treatments, *Sara K. Mamo, Theresa H. Chisolm and Frank R. Lin*
- 153: Dizziness and Vertigo, *Declan Lyons, Avril Bierne and Joanna Lawson*

Section 15: Palliative medicine and end of life care, Edited by Jean-Pierre Michel

- 154: Why, when, and where do older people die
- 155: Prognostication and Recognition of dying, *Viviana Forte and Giovanni Gambassi*
- 156: Pain assessment and management in cognitively intact and impaired patients, *Nele Van Den Noortgate and Elizabeth Sampson*
- 157: Symptom assessment and management at the end of life, *Nele Van Den Noortgate and Elizabeth Sampson*
- 158: Eating and Drinking in Later Life, *Finbarr C Martin, Abdul Abyad, Hidenori Arai, Marcel Arcand, Hashim Hasan Balubaid, B Lynn Beattie, Yitshal N. Berner, Rajiv Mohan Kaushik, Pedro Paulo Marín, Yasuyoshi Ouchi, Marwan Ramadan and Paulina Taboada*
- 159: Rehabilitation: additional palliative care approaches
- 160: Advance Care Planning for Older People, *Aline De Vleminck and Luc Deliens*

Section 16: Healthy ageing, Edited by Jeremy D. Walston

- 161: Healthy Ageing Phenotypes and Trajectories, *Sebastiano Collino, Blandine Comte, Estelle Pujos Guillot, Claudio Franceschi, Antonio Nuñez Galindo, Loïc Dayon and Martin Kussmann*
- 162: Empowerment of the ageing population: a contribution to active ageing, *Ina Voelcker and Alexandre Kalache*
- 163: Midlife risk factors of diseases and geriatric syndromes, *Timo E. Strandberg*
- 164: Optimizing Physical Activity Across the Lifespan, *Stephen D. Anton, Duane Corbett and Todd Manini*
- 165: Nutrition, ageing and longevity, *Tommy Cederholm and Mai-Lis Hellénus*
- 166: Optimizing cognition in older adults: lifestyle factors, neuroplasticity, cognitive reserve., *Nicoletta Berardi, Alessandro Sale and Lamberto Maffei*
- 167: Preserving Mental Health and Well-Being, *Osvaldo P. Almeida*
- 168: Clinical Translation of Interventions that Target Ageing: Toward a Longevity Dividend, *Allyson K. Palmer and James L. Kirkland*
- 169: Driving, transportation and mobility in the older adult, *Benjamin Shapiro and L. Jaime Fitten,*
- 170: Nanosciences and the Medicine of Ageing, *James Podrebarac, Joel Edin, Erik J. Suuronen, Emilio I. Alarcon and May Griffith*
- 171: Gerontechnology, *Tilak Dutta, Babak Taati, Pam Holliday, Yue Li, Steve Pong, Alex Mihailidis and Geoffrey Fernie*
- 172: Personalized Medicine for Older Adults, *Gunnar Akner*
- 173: What next for Geriatric Medicine?, *Jean-Pierre Michel, B. Lynn Beattie, Finbarr C. Martin and Jeremy Walston*
- Index
