

Introduction

1: Introduction to Psoriatic Arthritis, *Dafna Gladman and Oliver FitzGerald*

Epidemiology

2: Epidemiology of Psoriasis, *Joel Gelfand and Junko Takeshita*

3: Epidemiology of Psoriatic Arthritis, *Elaine Husni and Madonna Michael*

Pathogenesis

4: Overview of Psoriatic Arthritis Pathogenesis, *Kurt De Vlam*

5: Genetics of Psoriasis, *Philip E. Stuart, Lam C. Tsoi, Caely A. Hambro, and James T. Elder*

6: Genetics of Psoriatic Arthritis, *Robert Winchester and Proton Rahman*

7: Immunology and Cytokine Pathways, *Bruce Kirkham*

8: Mechanisms of bone destruction and proliferation, *Rik Lories*

Clinical features

9: Psoriasis and Nail, *Cheryl F. Rosen and Brian Kirby*

10: Peripheral arthritis, *Raffaele Scarpa, Francesco Caso, Luisa Costa, Rosario Peluso, Nicola Matteo Dario Di Minno, and Antonio Del Puente*

11: Enthesitis, *Juan D. Cañete and Julio Ramírez*

12: Dactylitis, *Ignazio Olivieri, Enrico Scarano, Salvatore D'Angelo, Carlo Palazzi, and Angela Padula*

13: Axial disease, *Ennio Lubrano*

14: Extra-articular, extra-skin disease, *Filip Van den Bosch*

15: Co-morbidities, *Muhammad Haroon*

Imaging

16: Plain radiography, *Neil McHugh and William Tillet*

17: Ultrasound, *Gurjit Kaeley*

18: MRI, *Dennis McGonagle and Iris Eshed*

19: MicroCT, *Georg Schett and Camille Figueiredo*

Diagnosis and classification

20: Diagnosis and classification criteria, *Laura Coates and William Taylor*

Outcome and biomarkers

21: Clinical course and outcome, *Lih Eder*

22: Biomarkers of psoriatic arthritis outcome, *Vinod Chandran and Katerina Oikonomopoulou*

Domains, instruments, and composite scores

23: Domains and instruments, *Alberto Cauli*

24: Patient-related outcome measures, *Laure Gossec, Maarten de Wit, and Tania Gudu*

25: Composite scores, *Philip Helliwell*

Treatment

26: Psoriasis treatment, *Alice Gottlieb, Ami Saraiya, and Deep Joshipura*

27: Approach to management and symptomatic (including non-pharmacologic) management of PsA, *Enrique Soriano and Laura Acosta Felquer*

28: Synthetic DMARDS, *Frank Behrens, Michaela Koehm, and Michael J. Pamham*

29: Biologic DMARDS (TNFi), *Arthur Kavanaugh and Tristan Boyd*

30: Non-TNF Biologic DMARDS, *Philip Mease*

31: Treatment algorithm and treat to target, *Laura Coates, Arthur Kavanaugh, and Christopher Ritchlin*

Future directions

32: Future directions, *Dafna Gladman and Oliver FitzGerald*
