

Part One: Standards & Guidelines for Perioperative Care of the Bariatric Patient

Part Two: Perioperative Complications

I Prevention and Management of Complications - Preoperative

- Chapter 1. Preoperative Medical Evaluation
- Chapter 2. Preoperative Psychological Evaluation
- Chapter 3. Evaluating Surgical Risk Using Risk Scoring Systems
- Chapter 4. Application of Statistical Methods in Bariatric Surgery
- Chapter 5. Online Preoperative Risk Assessment Tools

II Prevention and Management of Complications - Operating Room

- Chapter 6: Operating Room Set Up
- Chapter 7: Anesthesia and Recovery
- Chapter 8: Intra-operative Events

III Prevention and Management of Complications - Postoperative

- Chapter 9: Overview of Postoperative Medical Complications
- Chapter 10: Infectious Complications
- Chapter 11: Thromboembolic Complications
- Chapter 12: Biliary Complications
- Chapter 13: Nutritional Deficiencies
- Chapter 14: Endocrine Complications
- Chapter 15: Reducing Post-operative Readmissions

IV Prevention and Management of Complications - High Risk Comorbidities

- Chapter 16: Super Morbidly Obese
- Chapter 17: Obstructive Sleep Apnea
- Chapter 18: Cardiovascular Disease
- Chapter 19: Chronic Kidney Disease
- Chapter 20: Chronic Liver Disease
- Chapter 21: Elderly

V Prevention and Management of Complications - General Considerations

- Chapter 22: Management of Intestinal Failure after Bariatric Surgery
- Chapter 23: Revisional Surgery
- Chapter 24: Weight Regain after Bariatric Surgery
- Chapter 25: Endoscopic Management of Complications
- Chapter 26: Radiologic Assessment and Management of Complications

Part Three - Procedure Specific Complications

VI Roux-en Y Gastric Bypass

- Chapter 27: Leaks, Ulcers, Strictures, & Fistulas
- Chapter 28: Intestinal & Rare Complications Helling,

VII Sleeve Gastrectomy

- Chapter 29: Leak
- Chapter 30: Narrowing and Stenosis
- Chapter 31: Reflux, Esophagitis, Chronic Nausea

VIII Gastric Band

- Chapter 32: Gastric Band Complications

IX Malabsorptive Procedures

Chapter 33: Biliopancreatic Diversion and Duodenal Switch

X Historic and New Procedures

Chapter 34: Jejunio-ileal Bypass

Chapter 35: Vertical Banded Gastroplasty

Chapter 36: Gastric Plication

Chapter 37: Gastric Balloon

Chapter 38: Single Anastomosis Malabsorptive Procedures

Part Four: Economic and Legal Considerations of Complications

Chapter 39: Medico-Legal Considerations

Chapter 40: Economic Costs of Complications
