[Contributors](#)

[Introduction](#)

1 [Antenatal diagnosis](#)

2 [Major neonatal conditions](#)

[Ventral Abdominal Wall Defects](#)

[Exstrophy](#)

[Prune Belly Syndrome](#)

[Anorectal Malformations](#)

[Ambiguous Genitalia \(Disorders of Sexual Development \[DSD\]\)](#)

[Congenital Diaphragmatic Hernia](#)

[Oesophageal Atresia](#)

[Intestinal Atresias](#)

[Meconium Ileus](#)

[Hirschsprung Disease](#)

[Neonatal Necrotising Enterocolitis](#)

[Neural Tube Defects](#)

[Conjoined Twins](#)

[Sacrococcygeal Teratoma](#)

3 [Head and neck](#)

[The Skull](#)

[Hydrocephalus](#)

[Craniosynostosis](#)

[Encephalocele](#)

- External Angular Dermoid
- The Ear
- Superficial Infection
- Parotid Region
- The Lip
- The Tongue
- Mouth, Gums and Pharynx
- Choanal Atresia
- Larynx and Trachea
- Midline Cervical Swelling
- Lateral Neck Lumps
- The Eye
 - Nystagmus
 - Strabismus
 - The white pupil (leukocoria)
 - Ptosis
- Specific Syndromes

4 The thorax

- Chest Wall Deformities
 - Primary chest wall deformities
 - Secondary or acquired chest wall deformities
- The Lungs
 - Congenital lobar emphysema
 - Congenital pulmonary airway malformation
 - Pulmonary sequestration
 - Bronchogenic cyst
 - Pulmonary interstitial emphysema
 - Miscellaneous pulmonary conditions
- The Pleural Cavities
- The Mediastinum
- The Oesophagus
- The Diaphragm
- The Breast

5 The abdomen

- Pyloric Stenosis
- Intussusception
- Appendicitis
- Meckel Diverticulum
- Other Causes of the Acute Abdomen
- Constipation
- Gastro-Oesophageal Reflux
- Intra-Abdominal Tumours
- Inflammatory Bowel Disease
- The Anus and Perineum
- Rectal Bleeding
- Rectal Prolapse
- Jaundice
- Portal Hypertension
- Cholelithiasis
- The Spleen
- The Pancreas

6 The abdominal wall and inguinoscrotal conditions

- The Umbilicus
- The Penis
 - Phimosis
 - Paraphimosis
 - Hypospadias
 - Miscellaneous conditions of the penis
- The 'Acutely Painful Scrotum'
- Hernias and Hydroceles
- Undescended Testis
- Varicocele
- Sacrococcygeal Teratoma

7 The urinary tract

- Investigations
- Wilms Tumour
- Pelviureteric Obstruction
- Vesicoureteric Obstruction

Vesicoureteric Reflux
Ureterocele
Double Kidneys and Ureters
Urinary Tract Stones
Posterior Urethral Valve
Rare Urethral Anomalies

8 Gynaecological conditions

Female Genitalia and Gynaecological Conditions
Perineal Masses

9 The limbs and soft tissues

Hips
Perthes Disease
Slipped Upper Femoral Epiphysis
Legs
Feet
Hands and Fingers
Scoliosis
Osteomyelitis
Septic Arthritis
Semimembranosus Bursa
Ganglion
Miscellaneous Deformities
Neoplasms
Superficial Infection
Vascular Anomalies
 Vascular tumours
 Vascular malformations
Vascular Obstruction
Melanocytic Naevi
Epidermal Naevi

10 Trauma

Abdominal and Thoracic Injuries
Urological Injuries
Soft Tissue Injuries

Fractures

 Upper limb fractures

 Lower limb fractures

Non-Accidental Injury (Child Abuse)

Burns

 Inhalation injury

Caustic Ingestion

Foreign Bodies

Ocular Injuries

Head Injuries
