Foreword xi
Preface xiii
Glossary and Commonly Used Abbreviations xv

Section 1 – Basic Principles

1 **What Is Optimal Fetal Growth?** 1
Blanka Vasak and Gerard H. A. Visser

2 **Definition of Fetal Growth Restriction and Uteroplacental Insufficiency** 6
J. W. Ganzevoort and Basky Thilaganathan

3 **Differential Diagnosis of Fetal Growth Restriction** 14
Sana Usman, Anna Lawin-O’Brien, and Christoph Lees

4 **Fetal Growth Restriction and Hypertensive Diseases of Pregnancy** 31
Christopher W. G. Redman and Anne Cathrine Staff

5 **Assisted Reproduction Techniques (ART) and Fetal Growth** 44
Christoph Brezinka and Shirin Khanjani

6 **Fetal Growth Restriction Study Design and Outcomes** 48
Hans Wolf and J. W. Ganzevoort

7 **Analysis of National and International Guidelines on Placental–Fetal Growth Restriction** 54
Gemma Malin, Lesley McCowan, K. E. Boers, and Jim G. Thornton

Section 2 – Maternal Cardiovascular Characteristics and the Placenta

8 **Maternal Cardiovascular Function and Fetal Growth Restriction** 65
Rosemary Townsend and Asma Khalil

9 **Placental Histopathology Findings in Fetal Growth Restriction** 74
Neil Sebire and William Mifsud

10 **Maternal Volume Homeostasis in Fetal Growth Restriction** 85
Johannes J. Duvekot

Section 3 – Screening for Placental–Fetal Growth Restriction

11 **First Trimester Combined Screening Algorithms for Fetal Growth Restriction** 95
Rosemary Townsend and Asma Khalil

12 **Second Trimester and Late-Pregnancy Screening for Fetal Growth Restriction** 105
Raffaele Napolitano and Pasquale Martinelli

Section 4 – Prophylaxis and Treatment

13 **Prophylaxis for Fetal Growth Restriction: Aspirin and Low-Molecular-Weight Heparins** 121
Tiziana Frusca and Federico Prefumo

Contents

- 14 **Prophylaxis for Fetal Growth Restriction: Nitric Oxide Donors and Sildenafil** 128
Dietmar Schlembach
- 15 **Prevention and Treatment of Fetal Growth Restriction by Influencing Maternal Hemodynamics and Blood Volume** 134
Herbert Valensise, Barbara Vasapollo, and Gian Paolo Novelli
- 16 **Gene Therapy in Fetal Growth Restriction** 141
Rebecca N. Spencer, David J. Carr, and Anna L. David

Section 5 – Characteristics of Fetal Growth Restriction

- 17 **Blood Flow Volume in Umbilical Vein in Fetal Growth Restriction** 155
Enrico Ferrazzi, Daniela Di Martino, and Tamara Stampalija
- 18 **Fetal Cardiac Function in Fetal Growth Restriction** 164
Fàtima Crispi and Eduard Gratacós
- 19 **Heart Rate Changes and Autonomic Nervous System in Fetal Growth Restriction** 178
Silvia M. Lobmaier, Karl-Theo M. Schneider, and Gerard H. A. Visser
- 20 **The Fetal Arterial and Venous Circulation in Fetal Growth Restriction** 183
Kurt Hecher and Werner Diehl
- 21 **Hematological and Biochemical Findings in Fetal Growth Restriction and Relationship to Hypoxia** 192
Irene Cetin and Chiara Mandò

Section 6 – Management of Fetal Growth Restriction

- 22 **Management of Early-Onset Fetal Growth Restriction (Less than 34 Weeks)** 201
Tullia Todros and Giovanna Oggé
- 23 **Late-Onset Fetal Growth Restriction** 209
C. M. Bilardo and Francesc Figueras
- 24 **Severe Fetal Growth Restriction: Pregnancy Management at the Limits of Viability** 219
Aris T. Papageorghiou and J. W. Ganzevoort
- 25 **Fetal Growth Restriction in Twin Pregnancies** 224
Isabel Couck, Kurt Hecher, and Liesbeth Lewi

Section 7 – Postnatal Aspects of Fetal Growth Restriction

- 26 **Fetal Growth Restriction and Neonatal Outcomes** 237
Rashmi Gandhi and Neil Marlow
- 27 **Fetal Growth Restriction and Later Disease in the Mother and the Offspring** 246
Birgit Arabin and Petra Arck
- 28 **Fetal Growth Restriction: Recurrence Risks and Counseling** 263
Jan Derks and Steven Koenen

Index 269
