About the Companion Website	<i>xxix</i>

1	Aggressive Periodontitis	<i>1</i>
1.1	Definition	<i>1</i>
1.1.1	Primary Features	<i>1</i>
1.1.2	Secondary Features	<i>1</i>
1.2	Classification	<i>1</i>
1.3	Prevalence	<i>1</i>
1.4	Aetiology and Pathogenesis	<i>1</i>
1.4.1	Bacteria	<i>2</i>
1.4.2	Genetic Susceptibility	<i>2</i>
1.4.3	Smoking	<i>2</i>
1.5	Screening	<i>2</i>
1.6	Diagnosis	<i>2</i>
1.7	Prognosis	<i>2</i>
1.8	Treatment	<i>2</i>
1.8.1	Systemic Antibiotics	<i>3</i>
1.8.2	Local Antimicrobials	<i>3</i>
	References	<i>8</i>
2	Amelogenesis Imperfecta	<i>11</i>
2.1	Definition	<i>11</i>
2.2	Aetiology	<i>11</i>
2.3	Epidemiology	<i>11</i>
2.4	Classification	<i>11</i>
2.5	Diagnostic Clinical Features	<i>11</i>
2.5.1	Hypoplastic Type	<i>11</i>
2.5.2	Hypocalcified Type	<i>11</i>
2.5.3	Hypomaturation Type	<i>11</i>
2.6	Relevant History	<i>12</i>
2.7	Relevant Investigations	<i>12</i>
2.8	Prognosis	<i>12</i>
2.9	Treatment Considerations	<i>12</i>
2.9.1	Management of Children	<i>12</i>
2.9.2	Mixed Dentition	<i>13</i>
2.9.3	Permanent Dentition	<i>13</i>
2.9.4	Adulthood	<i>13</i>
2.10	Survival of Restorations	<i>13</i>
	References	<i>18</i>

3	Apical Periodontitis	19
3.1	Definitions and Classification	19
3.2	Relevant Anatomy	19
3.3	Immunopathology	19
3.4	Aetiology	20
3.5	Microbiology	20
3.6	Radiology	21
3.7	Diagnosis	21
3.8	Epidemiology	23
3.9	Endodontic Treatment Considerations	23
3.9.1	Local Anaesthesia	23
3.9.2	Isolation and Disinfection	23
3.9.3	Access Cavity Preparation	23
3.9.4	Magnification	23
3.9.5	Working Length Determination	23
3.9.6	Root Canal Preparation Techniques	24
3.9.7	Irrigation and Debridement	24
3.9.8	Interappointment Medication	24
3.9.9	Obturation Techniques	24
3.9.10	Coronal Restoration	25
3.9.11	Review	25
3.9.12	Exacerbation	25
3.10	Endodontic Retreatment	25
3.11	Prognosis and Outcome of Non-Surgical Endodontic Treatment	26
3.11.1	Preoperative Factors	26
3.11.2	Intraoperative Factors	26
3.11.3	Post-Treatment Factors	26
3.12	Surgical Endodontic Treatment	26
3.12.1	Indications	26
3.12.2	Contraindications	26
3.12.3	Flap Design	27
3.12.4	Specific Anatomy	27
3.12.5	Bone Removal	27
3.12.6	Root End Preparation	27
3.12.7	Root End Filling	27
3.12.8	Prognosis and Outcomes	27
3.12.8.1	Preoperative Factors	28
3.12.8.2	Intraoperative Factors	28
	References	29
4	Bisphosphonates and Medication-Related Osteonecrosis of the Jaw	33
4.1	Definition and Staging	33
4.2	Pathogenesis	33
4.3	Prevalence	33
4.4	Prevention	34
4.5	Assessment and Investigations	34
4.6	Treatment Considerations	34
	References	36
5	Caries	37
5.1	Definition and Aetiology	37
5.2	Pathogenesis	37
5.3	Epidemiology	37
5.4	Classification	37

5.5	Relevant History	38
5.6	Clinical Examination of Caries	38
5.7	Differential Diagnosis	38
5.8	Prevention	38
5.8.1	Tooth Brushing and Mechanical Plaque Control	38
5.8.2	Diet	38
5.8.3	Fluoride	38
5.8.4	Fissure Sealing	39
5.9	Treatment Considerations	39
5.9.1	Primary Teeth	39
5.9.2	Permanent Teeth	39
5.9.2.1	Minimally Invasive Techniques	39
5.9.2.2	Treatment of Exposed Pulp in Permanent Teeth	40
	References	41
6	Chronic Periodontitis	45
6.1	Definition and Classification	45
6.2	Clinical Features and Characteristics	45
6.3	Periodontal Indices	45
6.4	Epidemiology	47
6.5	Risk Factors	47
6.5.1	Local Risk Factors	47
6.5.2	Systemic Risk Factors	47
6.5.2.1	Smoking Tobacco	47
6.5.2.2	Diabetes	47
6.5.2.3	Genetics	48
6.5.2.4	Osteoporosis	48
6.5.2.5	Psychosocial Factors	48
6.5.2.6	Other Considerations	48
6.6	Microbiology	48
6.7	Pathogenesis	49
6.8	Role of Occlusal Trauma	49
6.9	Treatment	50
6.9.1	Treatment Goals	50
6.9.2	Treatment Phases	50
6.9.2.1	Systemic Phase	50
6.9.2.2	Initial Hygiene Phase	50
6.9.2.2.1	Mechanical Supragingival Plaque Control	50
6.9.2.2.2	Chemical Supragingival Plaque Control	51
6.9.2.3	Non-Surgical Therapy	51
6.9.2.3.1	Management of Tooth Mobility	52
6.9.2.4	Corrective Phase (Additional Therapy)	52
6.9.2.4.1	Periodontal Surgery	52
6.9.2.4.2	Outcome of Periodontal Surgery	53
6.9.2.4.3	Treatment of Teeth with Furcation Involvement	53
6.9.2.4.4	Periodontal Regeneration	54
6.9.2.5	Maintenance Phase	55
	References	58
7	Cleft Lip and Palate	63
7.1	Introduction	63
7.2	Complications	63
7.3	Dental Abnormalities	63
7.4	Management of Patients with CLP	63

7.4.1	Infancy and Primary Dentition Stage	64
7.4.2	Mixed Dentition	64
7.4.3	Permanent Dentition	64
7.4.3.1	Orthodontic Treatment	64
7.4.3.2	Orthognathic Surgery	64
7.4.3.3	Distraction Osteogenesis (DO)	64
7.4.3.4	Restorative Treatment	65
	References	67
8	Combination Syndrome	69
8.1	Defining Features	69
8.2	Pathogenesis	69
8.3	Clinical Assessment	69
8.4	Prevention	70
8.5	Treatment Considerations	70
8.6	Management of Flabby Ridge	70
8.7	Management of Denture-Induced Stomatitis	71
	References	72
9	Complete Edentulism	75
9.1	Introduction	75
9.2	Treatment Stages	75
9.3	Denture Support	75
9.4	Challenging Conditions	75
9.5	Complete Denture Occlusion	76
9.5.1	Measuring Occlusal Vertical Dimension (OVD)	76
9.5.2	Registration of Centric Relation (CR)	76
9.5.3	Complete Denture Occlusal Schemes	76
9.5.3.1	Bilateral Balanced Occlusion	76
9.5.3.2	Monoplane Scheme of Occlusion	77
9.5.3.3	Linear Occlusion Scheme	77
9.5.4	Occlusal Adjustment	77
9.6	Setting Up the Teeth in Complete Denture	77
9.7	Tooth Size and Shape	78
9.8	Soft Liners and Tissue Conditioners	78
9.9	Copy Denture	78
9.10	Complete Denture Troubleshooting	79
	References	81
10	Deep Overbite	83
10.1	Definition and Prevalence	83
10.2	Aetiology	83
10.3	Classification	83
10.4	Treatment Options	83
10.4.1	Orthodontic Treatment	83
10.4.2	Orthognathic Surgery	84
10.4.3	Prosthodontic and Restorative Treatment	84
	References	86
11	Dens Invaginatus	87
11.1	Definition and Terminology	87
11.2	Aetiology and Prevalence	87
11.3	Classification	87
11.4	Clinical Examination and Investigations	87

11.5	Treatment Considerations	88
	References	90
12	Dentine Hypersensitivity	93
12.1	Definition	93
12.2	Prevalence	93
12.3	Aetiology and Pathogenesis	93
12.4	History and Examination	93
12.5	Management	94
12.5.1	Management of DHS in Patients with Gingival Recession and/or Periodontal Disease	94
12.5.2	Management of DHS in Patients with Tooth Surface Loss	94
	References	96
13	Dentinogenesis Imperfecta and Dentine Dysplasia	99
13.1	Definition	99
13.2	Classification and Clinical Features	99
13.3	Aetiology and Pathogenesis	99
13.4	Epidemiology	100
13.5	Differential Diagnoses	100
13.6	Relevant History and Special Investigations	100
13.7	Treatment Considerations	100
13.7.1	Primary Dentition	100
13.7.2	Permanent Dentition	101
	References	104
14	Dentoalveolar Trauma	105
14.1	Introduction	105
14.2	Displaced and Malpositioned Teeth	105
14.3	Loss of Vitality and Discolouration	105
14.4	Ankylosis and Root Resorption	106
14.5	Lost Teeth	106
14.5.1	Exodontia Considerations	106
14.5.2	Role of Orthodontists	106
14.5.3	Autotransplantation	106
14.5.4	Prosthetic Tooth Replacement	107
	References	113
15	Discolouration	115
15.1	Introduction	115
15.2	Intrinsic Discolouration	115
15.2.1	Alkaptonuria	115
15.2.2	Congenital Hyperbilirubinaemia	115
15.2.3	Congenital Erythropoietic Porphyria	115
15.2.4	Tetracycline Staining	115
15.2.5	Pulpal Disease	115
15.2.6	Root Resorption	116
15.2.7	Amelogenesis Imperfecta (AI)	116
15.2.8	Dentinogenesis Imperfecta (DI)	116
15.2.9	Fluorosis	116
15.2.10	Ageing	116
15.2.11	Other Conditions Associated with Enamel Defects	116
15.3	Extrinsic Discolouration	116
15.4	Treatment Options	116

- 15.5 Tooth Bleaching 117
 - 15.5.1 Bleaching Techniques 117
 - 15.5.1.1 Vital Bleaching (External Bleaching) 117
 - 15.5.1.2 Non-Vital Bleaching (Internal Bleaching) 117
 - 15.5.1.3 Inside/Outside Bleaching 117
 - 15.5.2 Bleaching Products 117
