## Section 1: Background to Obesity, Epidemiology and Anthropology

1. **The Obesity Problem and its Relationship to Healthcare** 1  
Harry Rutter
2. **Drivers of Obesity, Nutrition and Dietary Considerations** 6  
David Haslam
3. **Body Morphology and Fat Distribution** 10  
Henna Tirmizi and Roman Schumann
4. **Reports and Guidelines Related to the Morbidly Obese Patient** 16  
Kanchan Patil
5. **Education and Training in Peri-operative Care** 21  
Chris Carey

## Section 2: Pathophysiology of Obesity

6. **Cardiovascular System Pathophysiology in Obesity** 29  
Peter Gregory
7. **The Respiratory System and Airway Pathophysiology in Obesity** 36  
Nathan Ware and Christopher Bouch
8. **The Pathophysiology of Sleep Disordered Breathing in the Morbidly Obese** 40  
Pei Kee Poh and Andrew Hall
9. **Drug Compartments and Body Systems** 45  
Christopher Hebbes and Jonathan Thompson

10. **Diabetes Mellitus and the Metabolic Syndrome** 53  
Hsiu L. Yap and Harvinder Chahal

---

## Section 3: Pre-operative Assessment and Preparation

11. **Airway Assessment in Obesity** 59  
Naveen Eipe and Adele S. Budiansky
12. **Respiratory Assessment in Obesity** 63  
Nick Reynolds and Christopher Bouch
13. **Cardiovascular Assessment in Obesity** 68  
Neil Ruparelia and Iqbal S. Malik
14. **Sleep Disordered Breathing: Assessment and Management in Obesity** 73  
Brian Kent and Joerg Steier
15. **Risk Assessment and Stratification for Obesity** 80  
Andrew Chamberlain and Jonathan Redman
16. **Peri-operative Anaesthetic Implications in the Obese Child** 88  
Helen Smith and Liam Brennan
17. **Ward and Operating Room Equipment for the Obese** 94  
Paul Ayrton and Andrew Lewitt

## Section 4: Intra-operative Management

18. **Patient and Operating Room Preparation for the Obese** 103  
Rhodri Birtchnell and Nick Kennedy
