<i>List of contributors</i>	xiii
<i>List of abbreviations</i>	xv
<i>Quick reference to the procedure guidelines</i>	xvii
<i>How to use your manual</i>	xix
<i>Introduction</i>	xxi
Chapter 1 Diagnostic investigations	1
Chapter 2 Haematological procedures	57
Chapter 3 Cancer pain assessment and management	91
Chapter 4 Administration of systemic anticancer therapies	131
Chapter 5 Radionuclide therapy	201
Chapter 6 Wound management	227
Chapter 7 Acute oncology	253
Chapter 8 Living with and beyond cancer	311
Chapter 9 End of life care	403
<i>Index</i>	419

Detailed table of contents

<i>Foreword</i>	xi	Pentamidine isetionate administration	84
<i>Acknowledgements</i>	xii	<i>Websites</i>	87
<i>List of contributors</i>	xiii	<i>References</i>	87
<i>List of abbreviations</i>	xv	Procedure guidelines for Chapter 2	
<i>Quick reference to the procedure guidelines</i>	xvii	2.1 Bone marrow aspiration and trephine biopsy	64
<i>How to use your manual</i>	xix	2.2 Bone marrow harvest	68
<i>Introduction</i>	xxi	2.3 Apheresis	76
		2.4 Ribavirin administration	82
		2.5 Pentamidine isetionate administration	85
1 Diagnostic investigations	1		
<i>Overview</i>	2		
Diagnostic tests and investigations	2	3 Cancer pain assessment and management	91
Tumour markers	4	<i>Overview</i>	92
Cervical uterine smear	8	Cancer pain assessment and management	95
Diagnostic radioisotope procedures (nuclear medicine)	12	Pain management	97
Transrectal ultrasound (TRUS) prostate biopsy	18	Acupuncture	104
Flexible cystoscopy	24	Interventional techniques for managing complex cancer-related pain	107
Breast diagnostics	36	Single nerve blocks and injections	108
Clinical breast examination	38	Regional peripheral and plexus nerve blocks and infusions	108
Core biopsy	40	Neuraxial (spinal) blocks: epidural and intrathecal analgesia	109
Breast fine-needle aspiration (FNA)	43	Entonox (nitrous oxide) administration	120
Breast punch biopsy	45	<i>References</i>	125
Nipple discharge smear	47		
Genetic testing	48	Procedure guidelines for Chapter 3	
<i>Websites</i>	52	3.1 Acupuncture: preparation and administration	106
<i>References</i>	52	3.2 Epidural/intrathecal sensory blockade: assessment	114
Procedure guidelines for Chapter 1		3.3 Epidural/intrathecal exit site dressing change	115
1.1 Cervical uterine smear using liquid-based cytology	9	3.4 Epidural/intrathecal catheter removal	115
1.2 Unsealed radioactive sources for diagnostic investigations	16	3.5 Entonox administration	123
1.3 Transrectal ultrasound (TRUS) prostate biopsy	21		
1.4 Flexible cystoscopy	27	4 Administration of systemic anticancer therapies	131
1.5 Flexible cystoscopy with stent removal	30	<i>Overview</i>	132
1.6 Flexible cystoscopy with bladder biopsy	32	Systemic anticancer treatment	132
1.7 Flexible cystoscopy with argon plasma coagulation (APC)/cystodiathermy	35	Safe handling of hazardous drugs	133
1.8 Clinical breast examination	38	Administration of cytotoxic medications by nurses	137
1.9 Core breast biopsy	41	Intravenous administration of systemic anticancer therapy	138
1.10 Breast fine-needle aspiration (FNA)	43	Extravasation	142
1.11 Breast punch biopsy	45	Oral administration of systemic anticancer therapy	156
1.12 Nipple discharge smear	47	Intramuscular and subcutaneous administration of cytotoxic drugs	162
		Topical application of cytotoxic drugs	164
2 Haematological procedures	57	Intrathecal administration of cytotoxic drugs	165
<i>Overview</i>	58	Intrapleural instillation of cytotoxic drugs	168
Bone marrow procedures	58		
Aspiration and trephine biopsy	58		
Bone marrow harvest	67		
Apheresis	72		
Ribavirin administration	80		

Intravesical instillation of cytotoxic drugs	169	5.4	Radiation protection: cardiac arrest of a patient who has received unsealed radioactive source therapy	205
Intraperitoneal instillation of cytotoxic drugs	172	5.5	Radiation protection: evacuation due to fire of patients who have received unsealed radioactive source therapy	206
Intra-arterial administration of cytotoxic drugs	173	5.6	Unsealed source therapy: entering and leaving the room of a patient who has received an unsealed radioactive source	208
Side-effects of chemotherapy	175	5.7	Unsealed source therapy: iodine-131 (oral capsule/liquid): administration	209
Haematological side-effects	176	5.8	Unsealed source therapy: iodine-131 mIBG treatment: patient care	209
Fatigue	176	5.9	Sealed source therapy: caesium sources (manual or afterloading): patient care	216
Gastrointestinal side-effects	176	5.10	Sealed source therapy: low dose-rate Selectron treatment	217
Adverse drug reactions	177	5.11	Sealed source therapy: Selectron applicator removal	218
Neurotoxicity	177	5.12	Sealed source therapy: insertion of sealed radioactive sources into the oral cavity	221
Mucositis/stomatitis	177			
Nephrotoxicity/haemorrhagic cystitis	178			
Cardiotoxicity	178			
Pulmonary toxicity	178			
Hepatotoxicity	178			
Skin toxicities	178			
Alopecia	178			
Clinical research	184			
<i>References</i>	193			
Procedure guidelines for Chapter 4		6 Wound management		227
4.1 Cytotoxic spillage management	135	<i>Overview</i>		228
4.2 Cytotoxic therapy: intravenous administration of cytotoxic drugs	141	Malignant fungating wounds		228
4.3 Extravasation management: peripheral cannula	150	Wound assessment		230
4.4 Extravasation: performing flush-out following an extravasation	152	Treatment options		232
4.5 Cytotoxic therapy: education for patients on oral cytotoxic drugs	161	Principles of the management of dressings for a malignant fungating wound		235
4.6 Cytotoxic therapy: intramuscular administration of cytotoxic drugs (Z-track)	163	Local wound management		235
4.7 Cytotoxic therapy: topical application of cytotoxic drugs	166	Graft-versus-host disease wounds		244
4.8 Cytotoxic therapy: intraventricular administration of cytotoxic drugs via an intraventricular access device (Ommaya reservoir)	168	Definition		244
4.9 Cytotoxic therapy: intrapleural instillation of cytotoxic drugs	170	Skin care following radiotherapy		245
4.10 Cytotoxic therapy: intravesical instillation of cytotoxic drugs	172	<i>Websites and useful addresses</i>		249
4.11 Cytotoxic therapy: intraperitoneal instillation of cytotoxic drugs	174	<i>References</i>		249
4.12 Intra-arterial administration of cytotoxic drugs	182	Procedure guidelines for Chapter 6		
4.13 Scalp cooling		6.1 Assessing a malignant fungating wound		231
		6.2 Dressing a malignant fungating wound		243
5 Radionuclide therapy		7 Acute oncology		253
<i>Overview</i>	201	<i>Overview</i>		254
Radiation	202	Haematological emergencies		255
Radiation protection	202	Central venous access device complications		255
Unsealed source therapy	207	Thrombosis (catheter related)		259
Sealed source therapy	211	Sepsis		260
Sealed source iodine-125 seeds used in prostate malignancies	220	Major artery rupture		261
Intraoral sealed sources	220	Superior vena cava obstruction		262
<i>Websites</i>	223	Metabolic emergencies		264
<i>References</i>	223	Hypercalcaemia of malignancy		264
Procedure guidelines for Chapter 5		Hypomagnesaemia		267
5.1 Radiation protection: major spillage of radioactive body fluids through incontinence and/or vomiting	204	Side-effects from chemotherapy agents		268
5.2 Radiation protection: contamination of bare hands by radioactive body fluids	205	Diarrhoea (chemotherapy and radiotherapy induced)		268
5.3 Radiation protection: death of a patient who has received unsealed radioactive source therapy	205	Nausea and vomiting		271
		Neutropenic sepsis		277
		Pneumonitis		280
		Structural		281
		Ascites (malignant)		281
		Bowel obstruction (malignant)		287
		Metastatic spinal cord compression		289
		Pericardial effusion (malignant)		301
		Raised intracranial pressure due to malignant disease		302
		<i>References</i>		303

Procedure guidelines for Chapter 7	
7.1 Carotid artery rupture (CAR)	262
7.2 Abdominal paracentesis	284
7.3 Log rolling for suspected/confirmed cervical spinal instability	292
7.4 Positioning for suspected/confirmed cervical spinal instability: pelvic twist to right	295
7.5 Log rolling for suspected/confirmed thoracolumbar spinal instability	297
7.6 Early mobilization of the patient in bed	298
 8 Living with and beyond cancer	311
<i>Overview</i>	312
Section 8.1 Introduction	312
The experience of living with or beyond cancer	312
Section 8.2 Welfare advice	315
<i>Overview</i>	315
<i>Websites</i>	326
<i>Useful addresses</i>	326
Section 8.3 Supporting individuals with sexual concerns as a consequence of cancer	326
Women's sexual concerns following cancer	329
Interventions	331
Men's sexual concerns following cancer	332
Interventions	333
<i>Websites</i>	334
Section 8.4 Nutritional status	334
<i>Websites</i>	339
Section 8.5 Compression therapy in the management of lymphoedema	339
Lymphoedema	339
Assessment of the patient with lymphoedema and calculation of limb volume	341
Compression bandaging	348
Compression garments	357
Adjustable wrap compression systems	361
<i>Websites</i>	365
Section 8.6 Non-pharmacological management of breathlessness	366
Non-pharmacological support	367
<i>Websites</i>	371
Section 8.7 Physical activity for people with cancer	371
<i>Websites</i>	377
Section 8.8 Cancer-related fatigue and sleep	377
Cancer-related fatigue	377
Sleep	380
Section 8.9 Communication for a patient with a laryngectomy	383
<i>Websites and useful addresses</i>	389
Section 8.10 Nipple tattooing	390
References	396
 Procedure guidelines for Chapter 8	
8.1 Conducting a holistic needs assessment (HNA)	314
8.1a Developing and actioning a care plan	315
8.1b Closure and follow-up	315
8.2 How a patient should make a claim for Personal Independence Payment	322
8.3 How a patient should make a claim for Attendance Allowance	323
8.4 How a patient should make a claim for Carer's Allowance	324
8.5 How a patient should make a claim for Employment and Support Allowance	325
8.6 Assessing a patient's sexual health concerns	327
8.7 Measuring the weight, height and waist circumference of the patient	336
8.8 Compression therapy limb volume calculation: lower limb	346
8.9 Compression therapy limb volume calculation: upper limb	346
8.10 Compression bandaging (multilayer short-stretch): bandaging arm and the fingers	350
8.11 Compression bandaging (multilayer short-stretch): bandaging a leg and the toes	354
8.12 Elastic compression garments: application to the leg	359
8.13 Elastic compression garments: application to the arm	360
8.14 Adjustable wrap compression system: application to the lower leg	363
8.15 Adjustable wrap compression system: application to the arm	364
8.16 Breathlessness management: using a handheld fan	368
8.17 Breathlessness management: essential oil administration via aroma stick inhaler	370
8.18 Supporting physical activity	375
8.19 Fatigue management	378
8.20 Relaxation and anxiety management	382
8.21 HME placement	387
8.22 Voice prosthesis: cleaning <i>in situ</i>	388
8.23 Nipple tattooing	394
 9 End of life care	403
<i>Overview</i>	404
Last Offices	408
