Preface	xv	Acanthomas, Non-Viral	19
Acknowledgments	xvii	Solar Lentigo	19
1 EPIDERMIS	1	Callus, Factitial Acanthoma	20
Nevi	2	Knuckle Pads (Chewing Pads)	21
Epidermal Nevus	2	Pale (Clear) Cell Acanthoma	22
Variant: Inflammatory Linear		Large Cell Acanthoma	23
Verrucous Epidermal Nevus (ILVEN)	3	Differential Diagnosis:	
Keratoses	4	Epidermolytic Acanthoma	24
Seborrheic Keratosis (SK) and Variants	4	Differential Diagnosis: Congenital	
Variant: Acanthotic Seborrheic		Ichthyosiform Erythroderma	25
Keratosis	4	Acantholytic Acanthoma	26
Variant: Reticulated, Pigmented		Warty Dyskeratoma	27
Seborrheic Keratosis	6	Porokeratoma (Porokeratosis Mibelli)	30
Variant: Flat Seborrheic Keratosis	6	Acanthomas, Viral	31
Variant: Papillomatous Seborrheic		Verruca Vulgaris	31
Keratosis	7	Variant: Verruca Plana	33
Variant: Activated (Irritated)		Variant: Condyloma Acuminatum	34
Seborrheic Keratosis	7	Bowenoid Papulosis	35
Variant: Dermatitis Papulosa Nigra	7	Acrokeratosis Verruciformis (Hopf)	37
Variant: Melanoacanthoma		Molluscum Contagiosum	38
(Pigmented Seborrheic Keratosis)	8	“Pseudocarcinomas” and Neoplasms	
Variant: Clonal (Intraepidermal)		with Intermediate Malignant	
Seborrheic Keratosis (Borst–		Potential	40
Jadassohn)	9	Keratoacanthoma (KA)	40
Variant: Seborrheic Keratosis		Epithelioma Cuniculatum	
with Monster Cells (Bowenoid)	10	(Verrucous Carcinoma) (EC/VC)	44
Variant: Hyperkeratotic Seborrheic		Papillomatosis Cutis Carcinoides	45
Keratosis (Stucco Keratosis)	11	Florid Papillomatosis of the Oral	
Confluent and Reticulate Papillomatosis		Cavity (Oral Verrucous Carcinoma)	46
(Gougerot and Carteaud)	12	Buschke–Löwenstein Tumor (Giant	
Reticulate Pigmented Anomaly of		Condyloma)	47
the Flexures (Dowling–Degos Disease)	13	Malignant Epidermal Neoplasms	48
Acanthosis Nigricans	14	Bowen’s Disease (Carcinoma <i>in situ</i>)	48
Solar (Actinic) Keratosis	15	Variant: Clear Cell Bowen’s Disease	50
Variant: Acantholytic Solar		Variant: Cutaneous Horn (Cornu	
Keratosis	16	Cutaneum) on Bowen’s Disease	51
Variant: Atrophic Solar Keratosis	16	Variant: Pigmented (Anogenital)	
Variant: Lichen Planus-Like Solar		and Clonal Bowen’s Disease	52
Keratosis	17	Variant: Erythroplasia of Queyrat	
Variant: Hypertrophic (Bowenoid)		and Vulvar Intraepithelial Neoplasia	53
Solar Keratosis	18	Basal Cell Carcinoma (BCC)	54
Cornu Cutaneum	18	Variant: Nodular BCC	54

Variant: Infundibulocystic BCC	56	Hair Follicle Differentiation	119
Variants of BCC With Ductal, Matrical or Sebaceous Differentiation	57	Nevi, Hyperplasia, and Hamartomas	119
Variant: Superficial BCC	60	Hair Follicle Nevus	119
Variant: Pigmented BCC	61	Conical Infundibular Acanthoma (Giant Dilated Pore of Winer)	120
Variant: Adenoid-Cystic BCC	62	Benign Neoplasms	121
Variant: Sclerodermiform (Morpheaform) BCC	64	Pilar Sheath Acanthoma	121
Clinical Variants: Ulcerating BCCs	66	Trichilemmoma (Tricholemmoma)	122
Histological Variants: Metatypic BCC with Squamoid Differentiation	67	Tumor of the Follicular Infundibulum (Infundibuloma)	124
Syndromatic BCC (Basal Cell Nevus Syndrome, Gorlin–Goltz)	69	Trichoepithelioma (Superficial Trichoblastoma)	125
Fibroepithelioma of Pinkus	70	Trichoblastoma (Trichoblastic Fibroma; Immature Trichoepithelioma)	127
Squamous Cell Carcinoma (SCC)	72	Trichoepithelioma (Sclerosing Epithelial Hamartoma)	131
Variant: Well-Differentiated SCC	72	Trichofolliculoma (Folliculosebaceous Cystic Hamartoma)	133
Variant: Acantholytic SCC (Epithelioma Spinocellulare Segregans of Delacretaz)	74	Trichoadenoma (Nikolowski)	136
Variant: Myxoid SCC	76	Pilomatricoma (Calcifying Epithelioma Malherbe)	137
Variant: Follicular (Infundibular) SCC	77	Proliferating Trichilemmal (Pilar) Tumor (PTT) (Proliferating Trichilemmal Cyst)	138
Variant: Spindle Cell (Fusicellular) SCC	78	Malignant Neoplasms	140
Squamous Cell Carcinomas in Special Sites	79	Malignant Pilomatricoma (Pilomatrical Carcinoma)	140
2 ADNEXAL	85	Trichilemmal Carcinoma	141
Sweat Gland Differentiation	86	Trichoblastic Carcinoma	142
Nevi, Hyperplasias, and Benign Adnexal Neoplasms (BAN)	86	Pilosebaceous Mesenchyme	143
Eccrine Differentiation	86	Benign Neoplasm	143
Apocrine Differentiation	93	Trichodiscoma (Follicular Fibroma, Fibrofolliculoma, Perifollicular Fibroma)	143
Malignant Adnexal Neoplasms	105	3 PAGET'S DISEASE	145
Eccrine Differentiation	105	Mammary Paget's Disease	146
Apocrine Differentiation	109	Extramammary Paget's Disease	146
Sebaceous Differentiation	110	4 MELANOCYTES	149
Hyperplasias and Hamartomas	111	Non-Neoplastic Hyperpigmentations	150
Ectopic (Heterotopic) Sebaceous Glands (Fordyce Glands)	111	Ephelides (Genuine Freckles)	150
(Senile) Sebaceous Gland		PUVA (Psoralen UVA) Lentigo	150
Hyperplasia	112	"Nevus" Spilus (Speckled Lentiginous Nevus; Café-Au-Lait Spot)	151
Nevus Sebaceous (Jadassohn)	113	"Ink" Spot Lentigo (Reticulated Melanocytic Macule)	152
Variant: Pilo-Sebaceous Hamartoma	114	Senile Freckles (Solar [Actinic] Lentigo)	153
Benign Neoplasms	114		
Sebaceous Adenoma	114		
Muir–Torre Syndrome	115		
Sebaceous Epithelioma (Sebaceoma)	116		
Malignant Neoplasms	118		
Sebaceous Carcinoma	118		

Mucosal Lentiginous Spots (Lip, Buccal, and Genital Mucosa)	154	Malignant Melanocytic Neoplasms	188
Nevi	155	Lentigo Maligna Dubreuilh (Hutchinson's Freckle)	188
Common Acquired Melanocytic Nevi	155	Malignant Melanoma	189
Melanosis Neviformis (Pigmented Hairy Epidermal Nevus; Becker Nevus)	155	Variant: Superficial Spreading Melanoma (SSM)	190
Junctional Nevus	156	Variant: Lentigo Maligna Melanoma (LMM)	192
Compound Nevus	157	Variant: Nodular Melanoma (NM)	193
Dermal Nevus	158	Variant: Acral Lentiginous Melanoma (ALM)	194
Variant: Miescher's Nevus (Dermal Nevus)	160	Variant: Melanoma in Large Congenital Melanocytic Nevus (LCMN)	196
Variant: Balloon Cell Nevus	161	Variant: Cutaneous Metastasis of Melanoma	197
Variant: "Activated" Acral (Lentiginous) Melanocytic Nevus	161	Special Localisations of Malignant Melanoma	204
Variant: (Atypical) Genital Melanocytic Nevus	162	Tumor Thickness and Levels	205
Variant: Halo Nevus (Leukoderma Centrifugum Acquisitum; Sutton Nevus)	163	Common Clinical Differential Diagnoses of Malignant Melanoma	205
Variant: Eczematoid Melanocytic (Meyerson's) Nevus	165	5 CONNECTIVE TISSUE	207
Variant: Osteo-Nevus of Nanta	166	Nevi	208
Variant: Combined Epithelioid Spitzoid Nevus, "Wiesner Nevus" (BAP-1 Deficient Epithelioid Melanocytic Tumor)	167	Connective Tissue Nevus (Shagreen Patch; Cobblestone Nevus; Nevus Collagenicus)	208
Variant: Recurrent (Persistent) Melanocytic Nevus (Pseudomelanoma)	167	Fibrous Neoplasms	209
Variant: Nevus in Pregnancy	168	Soft Fibroma (Skin Tag; Acrochordon)	209
Variant: Ancient Nevus	170	Perifollicular Fibroma (Fibrofolliculoma; Trichodiscoma)	210
Blue Nevi	171	Variant: Sclerotic Fibroma (Plywood Fibroma; Storiform Collagenoma)	211
Common Blue Nevus	171	Variant: Fibrous Papule of the Nose	212
Common Blue Nevus	172	Variant: Pleomorphic Sclerosing Fibroma with Multinucleated Cells	212
Dermal Melanocytosis	177	Keloid	213
Nevus Fuscoceruleus (Ota; Ito; Mongolian Spot)	177	Infantile Digital Fibromatosis (Inclusion Body Fibromatosis; Recurring Digital Fibrous Tumor of Children; Reye's Tumor)	214
Spindle and/or Epithelioid Cell Nevus	178	Malformations with Supernumerary Tissue Elements	216
Common Nevus of Spitz	178	Supernumerary Digit (Rudimentary Digit; Rudimentary Polydactyly)	216
Variants of Spindle and Epithelioid Cell Nevus	179	Differential Diagnosis: Acral Acquired Fibrokeratoma	216
Variant: Pigmented Spindle Cell Nevus (Reed)	182	Accessory Tragus (Preauricular Tag)	217
Benign Melanocytic Lesions with Peculiar Structural Features	183	Accessory Nipple (Ectopic Breast; Polythelia)	218
Melanocytic Nevus with Clonal Proliferation	183		
Atypical (Dysplastic) Melanocytic (Clark's) Nevus (B-K Mole Syndrome)	185		
Congenital Nevi, Small and Medium-Sized (1.5–20 cm)	186		

Fibrohistiocytic Neoplasms	218	Targetoid Hemosiderotic (Hobnail) Hemangioma	261
Dermatofibroma (Benign Fibrous Histiocytoma; Fibroma Durum; Sclerosing Hemangioma)	218	Progressive Lymphangioma (Benign Lymphangioendothelioma)	262
Dermatofibrosarcoma Protuberans	227	Lymphangiomatosis	263
Variant: Pigmented Dermatofibrosarcoma Protuberans (Bednar's Tumor)	230	Angiokeratomas	264
Variant: Giant Cell Fibroblastoma	231	Verrucous Hemangioma (Venous Malformation)	265
Pleomorphic Dermal Sarcoma (PDS)	231	Variant: Solitary Angiokeratoma	268
Miscellaneous Tumors	234	Variant: Angiokeratoma	
Epithelioid Sarcoma	234	Circumscriptum Naeviformis	269
Dermatomyofibroma	236	Variant: Fordyce Angiokeratoma	269
		Variant: Angiokeratoma	
6 VESSELS	239	Acroasphycticum Digitorum (Mibelli)	269
Hamartomas, Nevi, and Malformations	240	Variant: Multiple "Pinpoint" Angiokeratomas (Angiokeratoma Corporis Diffusum; Fabry's Disease)	269
Phacomatosis Pigmentovascularis	240	Variant: Acral Pseudolymphomatous Angiokeratoma of Children (APACHE)	269
Eccrine Angiomatous Hamartoma	241	Hyperplasias	270
Nevus Anemicus	242	Granuloma Pyogenicum (Lobular Capillary Hemangioma; Botryomykoma)	270
Capillary Malformations	242	Differential Diagnosis: Pyogenic Granuloma-Like Granulation Tissue	272
Nevus Flammeus (Port-Wine Stain)	242	Bacillary Angiomatosis	273
Nevus Araneus (Spider Angioma)	244	Verruga Peruana	274
Cutis Marmorata Telangiectatica (van Lohuizen) (Nevus Vascularis Reticularis)	245	Intravascular Papillary Endothelial Hyperplasia (Masson)	275
Congenital Telangiectatic Erythema (Bloom's Syndrome)	247	Acroangiodermatitis Mali (Pseudo-Kaposi's Sarcoma)	276
Venous Malformations	248	Benign Vascular Neoplasms	278
Blue Rubber Bleb Nevus Syndrome (Familial Venous Malformation)	248	Epithelioid Hemangioma (Angiolymphoid Hyperplasia with Eosinophilia, ALHE)	278
Hereditary Hemorrhagic Telangiectasia (Osler-Weber-Rendu)	249	Endothelial Differentiation	280
Angioma Serpiginosum	250	Infantile Capillary and Congenital Hemangioma	280
Venular Aneurysm (Venous Lake)	251	Cherry Angioma (Senile Hemangioma)	281
Cavernous Hemangioma (in Maffucci Syndrome)	252	Microvenular (Microcapillary) Hemangioma	282
Sinusoidal Hemangioma	253	Tufted Angioma	283
Spindle Cell Hemangioma (Formerly Spindle Cell Hemangioendothelioma)	254	Kaposiform Hemangioendothelioma	285
Arteriovenous Malformations	256	Glomeruloid Hemangioma in POEMS Syndrome	287
Acral Arteriovenous Hemangioma (Cirroid Aneurysm)	256	Pericytic Differentiation	288
Glomuvenular Malformation ("Glomangioma")	257	Imitator: Solitary Fibrous Tumor of the Skin (SFT)	289
Lymphatic Malformations	259		
Superficial Lymphatic Malformation (Superficial Lymphangioma)	259		
Cystic Lymphatic Malformation (Cystic Hygroma)	260		

Myopericytoma (Infantile Myofibromatosis; Perivascular Myoma (incl. Myofibroma))	290		
Glomoid and Myoid Differentiation	292		
Glomus Tumor	292		
Angioleiomyoma (Angiomyoma; Vascular Leiomyoma)	294		
Recently Described Benign Vascular Tumors	296		
Symplastic Hemangioma	296		
Papillary Hemangioma	297		
Vascular Neoplasms of Intermediate Malignant Potential	298		
Kaposi's Sarcoma (KS)	298		
Retiform Hemangioendothelioma	305		
Composite Hemangioendothelioma	306		
Papillary Intralymphatic Angioendothelioma (PILA) (Malignant Endovascular Papillary Angioendothelioma (Dabska Tumor); Endovascular Papillary Hemangioendothelioma)	306		
Radiation-Induced Atypical Vascular Lesion (AVL) (Benign Lymphangiomatous Papule (BLAP))	308		
Vascular Neoplasms with High Malignant Potential	309		
Cutaneous Angiosarcoma	309		
Radiation-Induced (Postradiation) Angiosarcoma	312		
Epithelioid Hemangioendothelioma	312		
Epithelioid Angiosarcoma	315		
Differential Diagnosis: Acantholytic (Angiosarcoma-Like) Squamous Cell Carcinoma	316		
Glomangiosarcoma (Malignant Glomus Tumor)	317		
Other Neoplasms with Significant Vascular Component	318		
Multinucleate Angiohistiocyte	318		
Angiofibroma (Adenoma Sebaceum Associated with Pringle–Bourneville Disease)	319		
Angiolipoma	321		
Angiolipoleiomyoma (Angiomyolipoma)	322		
Angiomyxoma	322		
Intralymphatic Histiocytosis	324		
Kimura's Disease	325		
7 FAT	327		
Nevus (Hamartoma)	328		
Nevus Lipomatosus Superficialis	328		
Hoffmann Zurhelle	328		
Neoplasms of Fat Tissue	329		
Benign Neoplasms	329		
Common Lipoma and Lipomatosis	329		
Angiolipoma (see Vessels, Chapter 6)	330		
Angiomyolipoma (see Vessels, Chapter 6)	330		
Spindle Cell Lipoma	330		
Pleomorphic Lipoma (see Pleomorphic Liposarcoma)	332		
Hibernoma	332		
Malignant Neoplasms	333		
Cutaneous Liposarcoma	333		
8 MUSCLE	337		
Benign Neoplasms	338		
Pileoleiomyoma (Pilar Leiomyoma)	338		
Angioleiomyoma (see Vessels, Chapter 6)	340		
Rhabdomyoma, Adult Type	340		
Malignant Neoplasms	341		
Rhabdomyosarcoma	341		
Superficial Leiomyosarcoma	342		
9 NERVES	345		
Benign Neoplasms	346		
Schwannoma (Neurilemmoma)	349		
Solitary Neuroma ("Palisaded Encapsulated Neuroma")	352		
Variant: Traumatic Neuroma	353		
Granular Cell Tumor (Abrikossoff)	354		
Dermal Nerve Sheath Myxoma (Myxoid Neurothekeoma)	356		
Variant: Cellular Neurothekeoma	357		
Pacinian Neurofibroma (Pacinoma)	358		
Malignant Neoplasms	358		
Malignant Peripheral Nerve Sheath Tumor (Malignant Schwannoma)	358		
Malignant Granular Cell Tumor	360		
Neuroendocrine Neoplasm	360		
Primary Neuroendocrine (Merkel Cell, Trabecular) Carcinoma of the Skin	360		

10 MAST CELLS	363	Necrobiotic Xanthogranuloma (with Paraproteinemia)	385
Solitary Cutaneous Mast Cell		Hereditary Progressive Mucinous Histiocytosis	386
Proliferation	364	Hemophagocytic	387
Cutaneous Mastocytoma	364	Familial Hemophagocytic	
Diffuse Cutaneous Mast Cell		Lymphohistiocytosis	387
Proliferations	365	Histiocytic Cytophagic Panniculitis	388
Urticaria Pigmentosa (Juvenile			
Maculopapular Mastocytosis)	365		
Telangiectasia Macularis Eruptiva			
Perstans (Adults)	365		
Systemic Mast Cell Proliferation	367		
Involvement of Skin and Bone			
Marrow	367		
11 HISTIOCYTES	369	12 HEMATOPOIETIC DISORDERS	389
Langerhans Cell Histiocytoses		Lymphoid Skin Infiltrates	389
(LCH)	370	Cytomorphology, Major Cell Types	390
Precursors of Langerhans Cell		T-Cells	390
Histiocytoses	370	B-Cells	391
Congenital Self-healing		Pattern of Small Cell Lymphocytic	
Reticulohistiocytosis		Infiltrates	392
(Hashimoto–Pritzker)	370	T-Cell Pattern	392
Indeterminate Cell		B-Cell Pattern	392
Histiocytosis	371	Pseudolymphoma (PL)	393
Langerhans Cell Histiocytoses		Nodular B-Cell PL	393
(Histiocytosis X)	371	Lymphadenosis Cutis Benigna	
Congenital Langerhans Cell		(Lymphocytoma Cutis)	393
Histiocytosis (Letterer–Siwe		Differentiation between	
Disease)	372	B-Pseudolymphoma (PL) and	
Hand–Schüller–Christian Adult		Cutaneous B-Cell Lymphoma	
LHC Histiocytosis	374	(CBCL)	395
Solitary Langerhans Cell Tumor		Nodular T-Cell PL	396
(Eosinophilic Granuloma)	375	CD30+ Pseudolymphoma in Scabies	396
Non-Langerhans Cell Histiocytoses	376	Papular (Secondary) Syphilis	398
Proliferative	376	Pseudo-Mycosis Fungoides	
Proliferative Histiocytoma		(Mycosis Fungoides Simulators)	399
(Progressive Nodular		Lymphomatoid Contact Dermatitis	399
Histiocytosis, PNH)	376	Lichen Planus	399
Benign Cephalic Histiocytosis	377	Drug Reactions	400
Multicentric Reticulohistiocytosis		Early Vitiligo	400
(Lipoid Dermatoarthritis)		Lichen Sclerosus et Atrophicus	400
(Solitary Reticulohistiocytoma)	378	Pityriasis Lichenoides Chronica	401
Sinus Histiocytosis With Massive		Graft Versus Host Reaction (Acute)	401
Lymphadenopathy	379	Pityriasis Lichenoides et	
Granulomatous Storing	380	Varioliformis Acuta (PLEVA)	402
Juvenile Xanthogranuloma		Pigmented Purpuric Dermatitis	
(Nevoxanthoendothelioma;		(Lichen Aureus)	403
Xanthoma Multiplex; Juvenile		Lymphocytic Infiltration	
Giant Cell Granuloma)	380	Jessner–Kanof	404
Xanthelasma Palpebrarum	383	Cutaneous Mature T-Cell Lymphoid	
Verruciform Xanthoma	384	Neoplasms (CTCL)	405
		Mycosis Fungoides, Classic	
		Alibert–Bazin Type	405
		Mycosis Fungoides Patch Stage I	405
		Mycosis Fungoides Plaque	
		Stage II (CD4+; CD8–)	407

Variant: CD8+ Mycosis Fungoides	409	Differential Diagnosis: Febrile	
Mycosis Fungoides Tumor Stage III	409	Ulceronecrotic PLEVA	
Large Cell Transformation	410	(Mucha–Habermann Disease)	437
Simulators and Variants of Mycosis		Extranodal NK/T-Cell Lymphoma,	
Fungoides: “Parapsoriasis”	411	Nasal Type (Subcutaneous)	439
Simulator: Small Plaque Parapsoriasis		Hydroa Vacciniforme-Like	
(SPP) (Brocq’s Disease, Digitate		Lymphoma	440
Dermatosis)	411	Angioimmunoblastic T-Cell	
Large Plaque Parapsoriasis (LPP)	412	Lymphoma	441
Pigmented Purpuric Mycosis		Cutaneous Mature B-Cell Lymphoid	
Fungoides	412	Neoplasms (CBCL)	443
Erythrodermic Mycosis Fungoides	412	Cutaneous Marginal Zone B-Cell	
Folliculotropic (Pilotropic)		Lymphoma (MZL; MALT Type)	444
Mycosis Fungoides	413	Variant: Immunocytoma	447
Syringotropic Mycosis Fungoides		Differential Diagnoses: Multiple	
(Syringolymphoid Hyperplasia		Myeloma/Plasmacytoma	448
with Alopecia)	414	Primary Cutaneous Follicle Center	
Granulomatous Mycosis Fungoides	415	Lymphoma (FCL)	449
Granulomatous Slack Skin	415	Diffuse Large B-Cell Lymphoma	
Pagetoid Reticulosis (PR),		(DLBCL)	451
Unilesional (Woringer–Kolopp)	417	Variant: Cutaneous Diffuse Large	
Sézary Syndrome (SS)	418	B-Cell Lymphoma (Leg Type)	451
Variant: Sézary Syndrome,		Variant: T-Cell-Rich B-Cell	
Large Cell Transformation	420	Lymphoma (DLBCL)	454
CD30-Positive Lymphoproliferative		Cutaneous Spindle B-Cell Lymphoma	455
Disorders (LPD) of the Skin	423	Extracutaneous B-Cell Lymphoma	
Anaplastic Large Cell Lymphoma		(BCL) with Frequent Skin	
(ALCL)	424	Involvement	457
Neutrophil-Rich (Pyogenic)		Mantle Cell Lymphoma	457
Anaplastic Large Cell Lymphoma	426	Burkitt’s Lymphoma (BL)	458
Lymphomatoid Papulosis	427	Lymphomatoid Granulomatosis	
Differential Diagnosis: Hodgkin’s		(Liebow) (LYG)	460
Lymphoma, Lymphocyte		Intravascular Lymphomas	461
Predominance	429	Intravascular Large B-Cell	
Subcutaneous Panniculitis-Like		Lymphoma (IV-LBCL) (Systemic	
Lymphoma	431	Angioendotheliomatosis)	461
Subcutaneous (Panniculitis-Like;		Intravascular T Cell Lymphoma	462
Alpha/Beta) T-Cell Lymphoma	431	Secondary Skin Involvement in	
Differential Diagnosis:		Leukemias/Lymphomas	463
Subcutaneous (Panniculitis-Like)		Chronic Lymphocytic Leukemia	
Gamma/Delta lymphoma	432	(CLL)	463
Differential Diagnosis: Lupus		Myeloid and Monocytic Leukemias	464
Panniculitis (Lupus Profundus)	433	T-Zone Lymphoma	466
Primary Cutaneous Peripheral		Adult T-Cell Leukemia/	
Lymphoma (PTL), Unspecified (NOS)	434	Lymphoma (ATLL)	467
Primary Cutaneous CD4-positive		Immature Hematopoietic	
(Acral) Small/Medium-Sized T-Cell		Malignancies	468
Lymphoproliferative Disorder	435	Blastic Plasmacytoid Dendritic Cell	
Cutaneous Aggressive		Neoplasm	468
Epidermotropic CD8-positive		Precursor Lymphoblastic	
T-Cell Lymphoma (Berti)	436	Leukemia/Lymphoma	470

13 CUTANEOUS CYSTS	471	Dermoid Cyst	482
Cysts with Epithelial Lining	472	Pilonidal Sinus (Pilonidal Cyst)	484
Stratified Squamous Epithelium	472	Non-Stratified Squamous Epithelium	485
Epidermal (Infundibular) Cysts	472	Cutaneous Ciliated Cyst of the Lower Limb	485
Variant: Epidermal Proliferating Cyst	473	Median Raphe Cyst	486
Variant: Epidermal Cyst with Pigment and Vellus Hairs	473	Cysts without Epithelial Lining (Pseudocysts)	487
Vellus Hair Cyst	474	Oral Mucous Cyst and Superficial Mucocele of the Lip	487
Trichilemmal (Isthmus-Catagen) Cyst	475	Digital Myxoid Cyst	488
Milia	476	Synovial Cyst (Ganglion)	490
Follicular Hybrid Cyst	477	Index	491
Hidrocystoma (Cystadenoma)	478		
Steatocystoma, Multiplex and Simplex	481
