## 2 Joint and soft tissue corticosteroid injection: what is the evidence?

Introduction

Upper limb

Shoulder

Elbow

Hand

Lower limb

Hip

Hip/knee

Foot

What should we inject?

How often do we inject?

Is it safe to inject in the diabetic patient?

What is the role of image-guided injection?

References

## 3 Medico-legal issues, complications and consent

Introduction

Technique of the procedure

Untoward complications of steroid injection

Lipodystrophy

Loss of skin pigment

Hyperglycaemia

Infection

Pain after injection

Potential complications from injection

Informed consent

‘Prudent doctor/prudent patient’

Implied consent

Express consent

Injection procedures

Written consent

Documentation of consent

#### **4 The challenge of recognising and managing inflammatory arthritis**

Introduction

Background: the burden of inflammatory disease

Challenges to diagnosis

How to diagnose

Clinical findings

Special investigations

Management

Injecting in inflammatory arthritis

Conclusion

References

## 5 The shoulder

Introduction

Presentation and diagnosis

Pitfalls in diagnosis

- Referred pain to the tip of the shoulder

- Pain referred to the deltoid insertion

Functional anatomy

- The acromioclavicular joint

Examination of the shoulder

What the pain means

- Pain on resisted abduction

- Resisted external rotation

- Resisted internal rotation

- Resisted supination and flexion of the forearm

Injection technique

- Anterior approach

- Lateral (subacromial) approach

- Posterior approach

Bicipital tendinosis

- Injection technique

Acromioclavicular joint arthritis

Injection technique

Physiotherapy: the shoulder

Summary

Shoulder impingement

'Frozen' shoulder/shoulder capsulitis

Acromioclavicular joint arthritis

References

## 6 The wrist and hand

Incidence

Common problems treated with steroid injections

The first carpometacarpal joint

Presentation and diagnosis

Functional anatomy

Injection technique

Metacarpal and interphalangeal joints

Functional anatomy

Injection technique

Carpal tunnel syndrome

Presentation and diagnosis

Tinel's test

Phelan's test

Functional anatomy

Injection technique

De Quervain's tenosynovitis

Presentation and diagnosis

Functional anatomy

Injection technique

Post-injection advice

Trigger finger

Presentation and diagnosis

Functional anatomy

Injection technique

Physiotherapy: wrist and hand

First carpometacarpal, metacarpal and interphalangeal joint osteoarthritis

Carpal tunnel syndrome

De Quervain's tenosynovitis

Trigger finger

References

## 7 The elbow

Introduction

Tennis elbow

Presentation and diagnosis

Functional anatomy

Injection technique

Golfer's elbow

- Presentation and diagnosis
- Functional anatomy
- Injection technique
- Post-injection advice
- Lipodystrophy
- Physiotherapy: tennis and golfer's elbow
- Olecranon bursitis
- Elbow joint
  - Presentation
  - Functional anatomy
  - Injection technique
- Physiotherapy: elbow joint

## **8 Conditions around the hip and thigh**

- The hip
- Trochanteric bursitis
  - Injection technique
- Ischiogluteal bursitis (hamstring tendinopathy)
  - Injection technique
- Meralgia paraesthetica
  - Injection technique
- Iliotibial band friction syndrome
  - Presentation and diagnosis
  - Functional anatomy

Injection technique

Physiotherapy: conditions around the hip and thigh

Trochanteric bursitis

Ischiogluteal bursitis

Meralgia paraesthetica

Iliotibial band friction syndrome

Reference

## 9 The knee joint

Introduction

Presentation and diagnosis

Functional anatomy

Aspiration and injection therapy

Technique of aspiration and injection

Aspiration

Injection

Physiotherapy: the knee

References

Further reading

## 10 The ankle and foot

Introduction

Functional anatomy

Presentation of some common problems

Injection technique
