	Menu of Accompanying Videos	ix
	Foreword	xi
	Preface	xiii
	Contributors	xv
1	Anatomy of the Orbit and Paranasal Sinuses <i>George A. Scangas, Benjamin S. Bleier, and Lora R. Dagi-Glass</i>	1
2	Anatomy, Physiology, and Treatment of the Tearing Adult <i>Natalie Wolkow and Michael K. Yoon</i>	10
3	Radiologic Assessment of the Orbit and Lacrimal System <i>Katherine L. Reinsbogen and Hugh Curtin</i>	19
4	Evaluation and Management of Congenital Lacrimal Obstruction <i>Jonathan C. P. Roos and Suzanne K. Freitag</i>	32
5	Evaluation and Management of Acquired Lacrimal Obstruction <i>Catherine Banks, Raymond Sacks, and Geoffrey Wilcek</i>	39
6	Pathogenesis of Thyroid Eye Disease <i>Catherine J. Choi and Nahyoung Grace Lee</i>	49
7	Indications and Techniques for Orbital Decompression <i>Benjamin S. Bleier and Suzanne K. Freitag</i>	54
8	Complications of Orbital Decompression and Management <i>Jordan T. Glicksman, James N. Palmer, and Nithin D. Adappa</i>	60
9	Strabismus and Eyelid Surgery in Thyroid Eye Disease <i>Bo Young Chun, Suzanne K. Freitag, and Dean M. Cestari</i>	65
10	Orbital Trauma Management, Reconstruction, and External Approaches to the Orbit <i>Daniel R. Lefebvre</i>	74
11	Optic Nerve Decompression <i>Adam P. Campbell and Ralph B. Metson</i>	86
12	Primary Neoplasms of the Orbit <i>Sophie D. Liao and Vijay R. Ramakrishnan</i>	89
13	Open Management of Primary Orbital Neoplasms <i>Susan Tonya Stefko, Paul A. Gardner, and Carl Snyderman</i>	98
14	Endoscopic Management of Primary Orbital Neoplasms <i>Benjamin S. Bleier</i>	105

Contents

15	Endoscopic Management of Skull Base Neoplasms with Orbital Involvement	112
	<i>Raewyn G. Campbell and Richard J. Harvey</i>	
16	Transorbital Approaches to the Sinuses, Skull Base, and Intracranial Space	118
	<i>Darlene E. Lubbe and Kris S. Moe</i>	
17	Orbital Complications of Sinusitis and Management	129
	<i>Rodney J. Schlosser, Elliott Mappus, and Zachary M. Soler</i>	
18	Management of Iatrogenic Orbital Injury	137
	<i>Joanne Rimmer, Valerie J. Lund, and Geoffrey E. Rose</i>	
19	Anesthetic Technique for Endoscopic Orbital Surgery	144
	<i>Henry P. Barham and Raymond Sacks</i>	
20	Postoperative Care and Complications Following Open and Endoscopic Orbital Surgery	149
	<i>Saul N. Rajak, Richard G. Douglas, and Alkis J. Psaltis</i>	
	Index	155

Menu of Accompanying Videos

- 7.1 Endoscopic Left Orbital Decompression with Preservation of Inferomedial Strut.
- 11.1 Endoscopic Left Optic Nerve Decompression.
- 14.1 Endoscopic Resection of Left Zone C Intraconal Cavernous Hemangioma.
- 14.2 Endoscopic Resection of Left Extraconal Cavernous Hemangioma with Extension into the Pterygopalatine Fossa and Superior Orbital Fissure.
- 14.3 Combined Transcaruncular and Endoscopic Resection of Right Zone A/B Orbital Schwannoma.
- 16.1 Examples of Transorbital Neuroendoscopic (TONES) Approaches for a Range of Pathologies.
