

I SEVERE TRAUMATIC BRAIN INJURY

- 1 History, Overview and Human Anatomical Pathology of Traumatic Brain Injury
Kentaro Shimoda, Shoji Yokobori, and Ross Bullock
- 2 Severe TBI in Military - Medical and Surgical Interventions, Geoff Ling
- 3 Pediatric Severe Traumatic Brain Injury Management
Kendra Woods and Michael Bell
- 4 Treatment of Severe Traumatic Brain Injury in the Scandinavian Countries, with Special Emphasis on the Lund Concept, Magnus Olivecrona
- 5 Abusive Head Trauma, Rachel Berger
- 6 Traumatic Cerebral Vascular Injury, Ramon Diaz-Arrastia
- 7 Disorders of Consciousness: Common Findings in Brain Injury, Calixto Machado

II MILD TRAUMATIC BRAIN INJURY AND CONCUSSIONS

- 8 The TRACK-TBI Approach: Redefining Severity and Outcome Assessments
John Yue, Geoff Manley
- 9 Acute Assessment of Mild Traumatic Brain Injury, Linda Papa
- 10 Current Knowledge of Blast Traumatic Brain Injury Mechanisms
Elizabeth Fievisohn and Pamela VandeVord
- 11 Adult and Pediatric Mild and Moderate Head Injury Management in Scandinavian Countries
Johan Undén
- 12 Challenges in Neurotrauma Management in India and Rapidly Growing Developing Countries
VD Sinha, GK Prusty
- 13 Chronic TBI in Veterans and Service Members: Clinical Assessment, Interventions, and Differentiation from PTSD, Harvey Levin
- 14 Chemosensory Impairment after TBI, Nathan Zasler
- 15 Return to Play, School or Work after Concussion, Charles H. Tator
- 16 The Link Between Traumatic Brain Injury and Neurodegenerative Diseases, R. Rubenstein

III NEUROIMAGING AND BIOMARKER ASSESSMENTS IN TBI

- 17 Neuroimaging and Its Application in the Diagnosis for Early Prognostication of TBI
Lijun Ba
- 18 The Potential of Brain-Specific Blood Biomarkers for TBI Patient Management, Diagnosis and Clinical Research, Glushakova and Ronald L. Hayes
- 19 The Role of Inflammation in Traumatic Brain Injury, Cristina Morganti-Kossmann
- 20 Glutamate Receptor Peptides in Acute Neurotrauma, Svetlana Dambinova and Galina Izykenova
- 21 Serum Markers of Subclinical Brain Damage in Low Grade Chronic Concussion and Asymptomatic Cerebral Small Vessel Disease, Sergio González-García
- 22 MicroRNA Biomarkers in Traumatic Brain Injury, Manish Bhomia

IV TRANSLATIONAL ANIMAL STUDIES OF TBI

- 23 Translational Mild Traumatic Brain Injury Research: Bridging the Gap Between Models and Clinical Uncertainty, Eugene Park and Andrew Baker
- 24 Military-relevant Rodent Models of Blast-induced Traumatic Brain Injuries, Ibolja Cernak
- 25 Pediatric TBI Models: Lessons Learned, Ramesh Raghupathi

26 Proteomics-based Strategies to Define Brain Tissue Biomarkers of Closed Head, Mild Traumatic Brain Injury in Translational Rodent Models, Angela Boutte and D. Shear

V CURRENT AND FUTURE TREATMENTS OF TBI

27 Neuroprotection in TBI, Dafin Muresanu

28 Bioengineering in Brain Trauma Research, Michelle LaPlaca

29 Neuroregenerative Medicine in TBI, Jinhui Chen

30 Stem Cell Studies in Traumatic Brain Injury, Sun Dong

VI SPINAL CORD INJURY

31 Spinal Cord Injury: Intensive Care Unit Neurointensive Care and Surgical Intervention
Michael Y. Wang

32 Animal Models of Spinal Cord Injury, Candace Floyd

33 Why Do We Not Have a Drug to Treat Acute Spinal Cord Injury?, James Geddes

34 Recent Development of Regenerative Strategies to Treat Spinal Cord Injuries, Riyi Shi

35 Stem Cell Therapy for Spinal Cord Injury, Ping Wu

VII COMMON THEMES BETWEEN TRAUMATIC BRAIN AND SPINAL CORD INJURY

36 Therapeutic Hypothermia and Targeted Temperature Management in the Treatment of Traumatic Brain and Spinal Cord Injury, Dalton Dietrich

37 Autoimmunity Responses in Traumatic Brain Injury and Spinal Cord Injury
Zihui Yang and F. Kobeissy, K. Wang
