

Front matter

Foreword	V
Preface	VI
Acknowledgments	VII
Contributors	VIII
Abbreviations	X
Online book content	XI

Part I Surgical approach

1	Approaches	3
1.1	Palmar approach to the scaphoid	5
1.2	Dorsal approach to the scaphoid	13
1.3	Combined approach to the lunate and perilunate injuries	21
1.4	Radiopalmar approach to the thumb base	31
1.5	Dorsoradial approach to the distal radius	37
1.6	Modified Henry palmar approach to the distal radius	41
1.7	Ulnar palmar approach to the distal radius	49
1.8	Dorsal approach to the distal radius	55
1.9	Extended dorsal approach to the distal radius	65
1.10	Ulnar approach to the distal ulna	77

Part II

Cases

2 Carpals **83**

2.1	Scaphoid—nondisplaced fracture treated percutaneously with a headless compression screw	85
2.2	Scaphoid—displaced fracture treated with a headless compression screw	95
2.3	Scaphoid—multifragmentary fracture treated with a headless compression screw and lag screw	103
2.4	Scaphoid, proximal pole—fracture treated with a headless compression screw	111
2.5	Scaphoid, proximal pole—nonunion treated with a headless compression screw and bone graft	123
2.6	Scaphoid, waist—nonunion with deformity treated with a headless compression screw and bone graft	131
2.7	Scaphoid, proximal pole—nonunion treated with a vascularized bone graft	141
2.8	Perilunate dislocation treated with K-wires	157
2.9	Transscaphoid perilunate fracture dislocation treated with K-wires and a headless screw	173
2.10	Transtriquetral transscaphoid perilunate fracture dislocation treated with screws	193
2.11	Multiple carpal perilunate fracture dislocation and scaphocapitate syndrome treated with screws	203
2.12	Trapezium—displaced fracture treated with lag screws	213

3 Ulna **219**

3.1	Ulnar styloid—fracture treated with tension band wiring	221
3.2	Ulna, head and neck—multifragmentary fracture treated with a hook plate	231

4 Radius **239**

4.1	Radial styloid—fracture treated with a radial column plate	241
4.2	Distal radius—dorsally displaced extraarticular fracture treated with a palmar plate	257
4.3	Distal radius—lunate facet fracture treated with a buttress plate	265
4.4	Distal radius—shearing fracture treated with a buttress plate	273
4.5	Distal radius—dorsally displaced intraarticular fracture treated with double plating	287
4.6	Distal radius—multifragmentary intraarticular fracture treated with a palmar plate	299
4.7	Distal radius—multifragmentary intraarticular fracture with defect treated with a palmar plate	309
4.8	Distal radius—multifragmentary intraarticular fracture treated with triple plating	319
4.9	Distal radius—multifragmentary intraarticular fracture with associated scaphoid fracture treated with triple plating and screw	329
4.10	Distal radius—displaced intraarticular fracture treated with a bridge plate	339
4.11	Distal radius—radiocarpal fracture dislocation treated with double plating	355
