[Introduction](#)

[Acknowledgements](#)

[Glossary of terms](#)

1 [Problems with puberty and its onset](#)

[Overview](#)

[Definitions](#)

[Numbers](#)

[Conclusion](#)

[1.1 How does puberty happen?](#)

[1.2 Precocious puberty](#)

[1.3 Delayed puberty](#)

[1.4 Disorders of puberty causing reproductive problems](#)

[1.5 Summary](#)

[References](#)

2 [Understanding infertility](#)

[Overview](#)

[Definitions](#)

[Prevalence/Incidence](#)

[2.1 Factors affecting the ability to conceive](#)

[2.2 Diagnostic categories](#)

[2.3 Barriers to seeking advice?](#)

[2.4 Is infertility on the rise?](#)

[2.5 Summary](#)

[References](#)

3 [Investigations in infertility](#)

[Overview](#)

[3.1 Consultations](#)

[3.2 The first appointment](#)

[3.3 Initial investigations: For the woman](#)

[3.4 Initial investigations: For the man](#)

[3.5 Further consultation and investigations](#)

[3.6 Consultation to decide diagnosis and discuss treatment](#)

[3.7 Treatment options in outline \(more details in Chapters 4–7\)](#)

[3.8 Counselling](#)

[3.9 Case study with a commentary](#)

[3.10 Summary](#)

[References](#)

4 [Influencing the sperm count](#)

[Overview](#)

[4.1 Semen analysis: Descriptors and methods of comparison](#)

- 4.2 Causes of low values on semen analysis
- 4.3 Hormonal stimuli leading to sperm production
- 4.4 Sperm transport and conditions where it is impaired
- 4.5 Chemical inhibitors and lifestyle choices: Effect on sperm production
- 4.6 Treatments
- 4.7 Overcoming male reluctance/refusal to have a sperm count
- 4.8 Case presentations and commentary
- 4.9 Summary
- References

5 Helping women to ovulate

Overview

- 5.1 Women whose periods are absent or very infrequent
- 5.2 What are the categories of ovulation disorders?
- 5.3 What are the approaches to treatment?
- 5.4 How effective are the different treatments?
- 5.5 How they all work together
- 5.6 Clinical conditions which can affect ovulation
- 5.7 Case studies
- 5.8 Summary

Appendix: Physiology of ovulation

- 5A.1 Follicular recruitment and development
- 5A.2 Working towards ovulation
- 5A.3 Summary

References

6 Damage to the uterus, the fallopian tubes and the ovaries

Overview

- 6.1 The uterus
- 6.2 Uterine fibroids
- 6.3 Intrauterine adhesions and polyps
- 6.4 Proximal and distal inner tubal damage
- 6.5 Adhesions around the tube and ovary
- 6.6 Case history
- 6.7 Summary

References

7 What to do if nothing wrong can be found and how to answer when a couple asks 'what can we do to improve our fertility?'

Overview

- 7.1 Making the diagnosis of unexplained infertility
- 7.2 Management and treatment of unexplained infertility
- 7.3 Role of alternative and complementary therapies
- 7.4 Stress and its impact on fertility
- 7.5 Lifestyle choices which affect fertility
- 7.6 Case study
- 7.7 Summary

References

8 Assisted conception

Overview

- 8.1 Introduction

- 8.2 *In vitro* fertilisation: It's complex!
- 8.3 What is appropriate when?
- 8.4 The range of treatment options
- 8.5 Additional elements to the process of *in vitro* fertilisation and embryo transfer
- 8.6 At what cost?
- 8.7 Risks and complications
- 8.8 Case study
- 8.9 Summary
- References
- 9** Preserving fertility
 - Overview
 - 9.1 Medical indications for preserving fertility
 - 9.2 Women, men, adolescents
 - 9.3 Pregnancy after cancer treatment
 - 9.4 Social indications for fertility preservation: What happens to fertility with increasing age?
 - 9.5 Summary
 - References
- 10** Global perspectives on reproductive medicine
 - Overview
 - 10.1 What do we know about infertility across the globe?
 - 10.2 Attitudes of the major world religions towards infertility and assisted conception
 - 10.3 Planning care with couples to incorporate their values and cultural background
 - 10.4 Reproductive medicine in different environments
 - 10.5 Personal experience
 - 10.6 Conclusion
 - References
- 11** Reproductive biology in one other great ape (the gorilla)
 - Overview
 - 11.1 Grappling with physiology
 - 11.2 Summary
 - References
- 12** Research questions still unanswered – And further reading
 - Questions arising from the text of this book that have not been fully addressed (not exclusive)
 - Further reading
