Preface	<i>xiii</i>
About the Companion Website	<i>xv</i>
Introduction	<i>1</i>
References	3
Part I Initial Evaluation	5
References	7
1 Patient Interview	9
Summary	25
References	25
2 Review of the “Initial Patient Questionnaire”	29
3 Clinical Examination	35
3.1 Range of Motion	36
3.2 TMJ Noise	39
3.3 TMD Palpations	40
3.4 Intraoral Examination	57
3.4.1 Occlusal Changes	57
3.4.2 Temporomandibular Disorder Pain Caused by a Tooth	58
3.4.3 Tooth Pain Without Local Pathology	61
3.5 Additional Evaluations	63
References	65
4 Imaging	69
4.1 Plain Radiographs	70
4.2 Panoramic Radiograph	70
4.3 Axially Corrected Sagittal Tomography	71
4.4 CT	71
4.5 CBCT	72
4.6 MRI	72
4.7 Arthrography	72
4.8 Ultrasound	72
4.9 Imaging Strategies	73
4.10 Imaging Recommendations	73
References	76

5	TMD Diagnostic Categories	79
5.1	TMJ Disorders	80
5.1.1	Joint Pain	80
5.1.1.1	Arthralgia	80
5.1.1.2	Arthritis	80
5.1.2	Joint Disorders	80
5.1.2.1	Disc–Condyle Complex Disorders	80
5.1.2.2	Other Hypomobility Disorders	85
5.1.2.3	Hypermobility Disorders	86
5.1.3	Joint Diseases	87
5.1.3.1	Degenerative Joint Disease	87
5.1.3.2	Condylolysis/Idiopathic Condylar Resorption	87
5.1.3.3	Osteochondritis Dissecans	87
5.1.3.4	Osteonecrosis	87
5.1.3.5	Systemic Arthritides	87
5.1.3.6	Neoplasm	88
5.1.3.7	Synovial Chondromatosis	88
5.1.4	Fractures	88
5.1.5	Congenital/Developmental Disorders	88
5.1.5.1	Aplasia	88
5.1.5.2	Hypoplasia	88
5.1.5.3	Hyperplasia	88
5.2	Masticatory Muscle Disorders	88
5.2.1	Muscle Pain Limited to the Orofacial Region	88
5.2.1.1	Myalgia	88
5.2.1.2	Tendonitis	89
5.2.1.3	Myositis	89
5.2.1.4	Spasm	90
5.2.2	Contracture	90
5.2.3	Hypertrophy	91
5.2.4	Neoplasm	91
5.2.5	Movement Disorders	91
5.2.5.1	Orofacial Dyskinesia	91
5.2.5.2	Oromandibular Dystonia	91
5.2.6	Masticatory Muscle Pain Attributed to Systemic/Central Disorders	91
5.2.6.1	Fibromyalgia	91
5.3	Headache Disorders	91
5.3.1	Headache Attributed to TMD	91
5.4	Associated Structures	91
5.4.1	Coronoid Hyperplasia	91
	References	92
6	Contributing Factors	95
	References	99
	Part II Common Acute TMD Conditions and Therapies	101
7	TMD Secondary to Trauma	103
	References	106

- 8 TMD Secondary to Dental Treatment 107**
- 8.1 Preventing Aggravation from Dental Treatment 110
- 8.2 Medial Pterygoid Muscle Pain 112
- 8.3 Inability to Close into MI 114
- 8.4 Occlusal Interference Sequelae 116
- 8.5 OSA Appliances 118
- References 119

- 9 Lateral Pterygoid Spasm 123**
- References 127

- 10 Intermittent and Continuous Forms of TMJ Disc Displacement Without Reduction with Limited Opening 129**
- 10.1 Intermittent Disorder (Disc Displacement with Reduction with Intermittent Locking) 131
- 10.2 Continuous Disorder (Disc Displacement Without Reduction with Limited Opening, Also Known as Closed Lock) 134
- References 140

- 11 TMJ Subluxation and Luxation 145**
- References 148

- Part III Occlusal Appliance Therapy 149**
- References 151

- 12 Stabilization Appliance 153**
- 12.1 Mandibular Positions and Interocclusal Record 155
- 12.2 Physical Variables 159
- 12.2.1 Full or Partial Coverage 159
- 12.2.2 Maxillary or Mandibular 160
- 12.2.3 Hard, Intermediate, or Soft Material 162
- 12.2.4 Thick or Thin 168
- 12.2.5 Appliance or Clasp Retention 169
- 12.2.6 Summary of Physical Variables 170
- 12.3 Appliance Adjustments 171
- 12.3.1 Internal Adjustments 171
- 12.3.2 Internal Reline 174
- 12.3.3 External Adjustments 176
- 12.3.4 External Reline 182
- 12.3.5 Appliance Repair 185
- 12.4 Appliance Examples 188
- 12.4.1 Pressure-Cured Mandibular Acrylic Stabilization Appliance 188
- 12.4.2 Maxillary Acrylic Stabilization Appliance 191
- 12.4.3 Hard Thermomolded Stabilization Appliance 192
- 12.4.4 Impak Stabilization Appliance 195
- 12.4.5 Dual Laminate Thermomolded Stabilization Appliance 196
- 12.4.6 Soft Thermomolded Stabilization Appliance 197
- 12.5 Appliance Management 200
- References 205

13	Anterior Positioning Appliance	209
13.1	Mandibular Position and Interocclusal Record	211
13.2	Design and Adjustments	212
13.3	Appliance Management	213
	References	216
	Part IV Multidisciplinary Management Approach	219
	References	221
14	Self-Management Therapy	223
14.1	Self-Management Instructions	224
14.2	Closure Muscle-Stretching Exercise	230
14.3	Lateral Pterygoid Muscle-Stretching Exercise	231
14.4	Posture Exercises	233
14.5	Controlling Awake Behaviors	234
	References	238
15	Physical Medicine	241
15.1	Muscle Massage	242
15.2	Yoga	242
15.3	Trigger-Point Compression	243
15.4	Trigger-Point Injection	243
15.5	Botulinum Toxin Injections	244
15.6	Physical Therapy	244
15.7	Acupuncture	248
15.8	Chiropractics	249
	References	250
16	Cognitive-Behavioral Intervention	255
16.1	Controlling Awake Behaviors	259
16.2	Relaxation	261
16.3	Hypnotherapy (Hypnosis)	262
16.4	Biofeedback-Assisted Relaxation	263
16.5	Stress Management	264
	References	265
17	Pharmacological Management	269
17.1	Analgesics	270
17.2	Anti-inflammatory Medications	271
17.2.1	Nonsteroidal Anti-inflammatory Drugs (Ingested Form)	271
17.2.2	Steroidal Anti-inflammatory Drugs	273
17.3	Muscle Relaxants	274
17.4	Anticonvulsant	275
17.5	Tricyclic Antidepressants	276
17.6	Topical Medications	278
17.6.1	OTC Topical Medications	278
17.6.2	Prescription Topical Medications	280
17.7	Nutritional Supplements	283
	References	285

18	Other Dental Procedures	291
18.1	Occlusal Equilibration	294
18.2	Orthodontic–Orthognathic Therapy	296
18.3	Prosthodontic Therapy	297
18.4	TMJ Surgery and Implants	299
	References	303
19	Integrating Multidisciplinary Therapies	309
19.1	Management Summaries and Clinical Implications	310
19.1.1	Self-Management Therapy	310
19.1.2	Massage and Trigger-Point Compression	310
19.1.3	Lateral Pterygoid Muscle-Stretching Exercise	310
19.1.4	Closure Muscle-Stretching Exercise	310
19.1.5	Posture Exercises	311
19.1.6	Occlusal Appliances	311
19.1.7	Physical Therapy	311
19.1.8	Yoga	312
19.1.9	Trigger-Point Injections	312
19.1.10	Acupuncture	312
19.1.11	Chiropractics	312
19.1.12	Controlling Awake Parafunctional, Muscle-Tightening, or Fatiguing Behaviors	313
19.1.13	Relaxation	313
19.1.14	Hypnotherapy (Hypnosis)	313
19.1.15	Biofeedback-Assisted Relaxation	314
19.1.16	Stress Management	314
19.1.17	Pharmacological Management	314
19.1.18	Occlusal Therapy	315
19.1.19	TMJ Surgery	315
19.2	Integrating Conservative Therapies	316
19.3	TMD Refractory to Initial Therapy	320
19.4	Long-Term Management	321
	References	322
	Part V Case Scenarios	327
V.1	Case 1: Symptomatic Irreversible Pulpitis Mimicking TMD Symptoms	329
V.2	Case 2: Tooth Pain: No TMD Pain	331
V.3	Case 3: Chronic Sinusitis	332
V.4	Case 4: Chronic Forehead Pain Referred from the Neck	333
V.5	Case 5: Myalgia Secondary to Sleep Parafunctional Behaviors	335
V.6	Case 6: Tooth Attrition: No Pain	336
V.7	Case 7: Myalgia Secondary to Awake Parafunctional Behaviors	337
V.8	Case 8: Medial Pterygoid Spasm	338
V.9	Case 9: Personal Stressors and Sleep Disturbances as Contributing Factors	339
V.10	Case 10: Fibromyalgia as a Contributing Factor	340
V.11	Case 11: TMJ Disc–Condyle Complex Disorders and When to Provide Therapy: no Pain	341
V.12	Case 12: TMJ Arthralgia	342
V.13	Case 13: TMJ Disc Displacement with Reduction with Intermittent Locking	343

- V.14 Case 14: TMJ Disc Displacement Without Reduction with Limited Opening: Unlocked 345
- V.15 Case 15: TMJ Disc Displacement Without Reduction with Limited Opening: Not Unlocked 346
- V.16 Case 16: Osteitis Causing Inability to Open Wide 348
- V.17 Case 17: Lateral Pterygoid Spasm 350
- V.18 Case 18: Acute Exacerbation of TMD 352
- V.19 Case 19: Multiple Forms of Head and Neck Pain After Crown Insertion 354
- V.20 Case 20: Appliance That Positioned Condyles into Their “Proper Position” 355
- References 357

Part VI Fundamentals of Clinical Studies 359

- VI.1 Prominent Clinical Study Designs 359
 - VI.1.1 Case Report 359
 - VI.1.2 Case Series Study 360
 - VI.1.3 Cross-Sectional Study 361
 - VI.1.4 Case-Control Study 362
 - VI.1.5 Cohort Study 362
 - VI.1.6 Nonrandomized Clinical Trial 363
 - VI.1.7 Randomized Controlled Trial (RCT) 365
- VI.2 Other Types of Publications 367
 - VI.2.1 Literature Reviews 367
 - VI.2.2 Systematic Reviews 367
 - VI.2.3 Meta-Analyses 367
 - VI.2.4 Clinical Practice Guidelines 368
- VI.3 Considerations in Assessing Clinical Trials 368
- VI.4 Conclusions 368
- References 369
