Foreword	xx
Preface	xxi
Acknowledgments	xxii
Contributors	xxiii

Part 1: The Basics

1 Basics of Immunology	2
<i>Christine B. Franzese</i>	
1.1 Introduction.....	2
1.2 Hypersensitivity Reactions.....	2
1.3 Adaptive Immunity.....	2
1.4 Adaptive Immune Responses.....	2
1.5 The Major Players.....	3
1.6 Tolerance and Immune System Bias.....	4
1.7 A Word on the Simplification of the Immune System.....	4
Bibliography.....	5
2 Allergic Rhinitis: Definition and Classifications	6
<i>Christine B. Franzese</i>	
2.1 The Keys to Success.....	6
2.2 The Definition.....	6
2.3 The Not-So-Perfect Classification System.....	6
2.4 Severity.....	8
Bibliography.....	8
3 Sensitization versus Allergy	9
<i>Christine B. Franzese</i>	
3.1 A Most Interesting Conundrum.....	9
3.2 Serious Stuff.....	9
3.3 Mischief Management.....	11
3.4 One Last Frustration.....	11
Bibliography.....	12

Contents

4	Unified Airway Concept	13
	<i>Christine B. Franzese</i>	
4.1	What It Is	13
4.2	How Might This Work?	13
4.3	What About Postnasal Drip? Can That Cause Lung Inflammation?	13
4.4	Why It Is Important	14
	Bibliography	14
5	Inhalant Allergens: Grasses	15
	<i>Steven M. Houser, Sarah K. Wise</i>	
5.1	When Summer Isn't Something to Look Forward to	15
5.2	Serious Stuff	15
5.2.1	Quick Review... What Is an Antigen? And What Is an Allergen?	15
5.2.2	Tell Me a Bit More About Allergens... Please?	15
5.2.3	What Are Standardized and Nonstandardized Allergen Extracts?	16
5.2.4	What Is Cross-Reactivity?	16
5.2.5	What Are Thommen's Postulates?	17
5.2.6	What Exactly Is Pollen?	18
5.2.7	What Types of Plants Produce Allergenic Pollens?	18
5.2.8	What Are Some Highlights About Grass Allergens?	18
5.2.9	When Do Grasses Pollinate?	19
5.2.10	What Are Some Common Allergenic Grasses?	20
	Bibliography	21
6	Inhalant Allergens: Trees	22
	<i>Steven M. Houser, Sarah K. Wise</i>	
6.1	Springtime Tree Troubles	22
6.2	Serious Stuff	22
6.2.1	What Are the Common Types of Allergenic Trees in North America?	22
6.2.2	When Do Trees Pollinate?	23
6.2.3	What Are Some Common Allergenic Trees?	23
6.2.4	Which Trees Have Major Allergens That Are Known?	25
6.2.5	Which Trees Have Standard Allergen Extracts Available?	25
	Bibliography	25
7	Inhalant Allergens: Molds	26
	<i>Steven M. Houser, Sarah K. Wise</i>	
7.1	Spores Can Get You Down	26
7.2	Serious Stuff	26
7.2.1	What Do I Need to Know About Mold Allergy?	26
7.2.2	What Are Some Common Allergenic Molds?	27
7.2.3	Which Molds Have Major Allergens That Are Known?	27
7.2.4	Which Molds Have Standard Allergen Extracts Available?	28
	Bibliography	28

8	Inhalant Allergens: Epidermals and Danders	29
	<i>Steven M. Houser, Sarah K. Wise</i>	
8.1	Dust and Danders	29
8.2	Serious Stuff	29
8.2.1	What Potential Allergens Do We Encounter Year-Round?	29
8.2.2	Information About Dust Mites... Lay It On Me!	29
8.2.3	What About Pet Dander?	30
8.2.4	Which Epidermals and Danders Have Major Allergens That Are Known?	30
8.2.5	Which Epidermals and Danders Have Standard Allergen Extracts Available?	31
	Bibliography	31
9	Inhalant Allergens: Weeds	32
	<i>Steven M. Houser, Sarah K. Wise</i>	
9.1	When Weeds Are the Worst	32
9.2	Serious Stuff	32
9.2.1	What Are the Common Types of Allergenic Weeds in North America?	32
9.2.2	What About Minor Weed Families, or Locally Important Weeds?	34
9.2.3	What Else Should I Know About Weeds... or Weed "Imposters"?	34
9.2.4	When Do Weeds Pollinate?	34
9.2.5	What Are Some Common Allergenic Weeds?	34
9.2.6	Which Weeds Have Major Allergens That Are Known?	36
9.2.7	Which Weeds Have Standard Allergen Extracts Available?	36
	Bibliography	36
 Part 2: Diagnosis of Allergy		
10	History	38
	<i>Christine B. Franzese</i>	
10.1	History of Present Illness	38
10.2	Past Medical History	39
10.3	Past Surgical History	39
10.4	Medications	39
10.5	Family/Social History	40
10.6	Review of Systems	40
	Bibliography	40
11	Patient Surveys and Questionnaires	41
	<i>Christine B. Franzese</i>	
11.1	To Use or Not to Use	41
11.2	The Basics	41
11.3	My Humble Suggestions	42
	Bibliography	43

Contents

12	Physical Examination	44
	<i>Christine B. Franzese</i>	
12.1	Not All That Sniffles Is Allergic	44
12.2	The Physical	44
	Bibliography	47
13	Differential Diagnosis	48
	<i>Christine B. Franzese</i>	
13.1	The Mimics and Imposters	48
	Bibliography	50
 Part 3: Testing Methods		
14	Conditions That Can Impact Skin Testing	52
	<i>Christine B. Franzese</i>	
14.1	Setting the Stage for Success	52
14.2	Medical Conditions	52
14.3	Medications	53
14.4	Author's Experience	54
14.5	A Special Word About Beta-Blockers	55
	Bibliography	55
15	Skin Testing: Prick	56
	<i>Christine B. Franzese</i>	
15.1	Most Interesting Information	56
15.2	Serious Stuff	56
15.2.1	Who's a Good Candidate for Skin Testing?	56
15.2.2	What Does This Test Tell Me?	56
15.2.3	How Long Does This Test Take? When Can I Read This Test?	56
15.2.4	What Is a Positive Test? What Does It Tell Me?	56
15.2.5	What Is a Negative Test? What Does It Tell Me?	57
15.2.6	What's This Negative Control and What's a Wheal?	57
15.2.7	And the Wheal?	57
15.2.8	Do You Need a Positive and Negative Control? Why?	57
15.2.9	What's the Positive Control?	57
15.2.10	What Antigens Do I Test for?	57
15.2.11	Where Do I Test?	57
15.2.12	No, I Mean, Where on the Patient Do I Place These Tests?	58
15.2.13	Could Anaphylaxis Really Happen During Skin-Prick Testing?	58
15.2.14	Tools of the Trade (What You'll Need)	58
15.3	Shocking Information (How To Actually Do This!)	59
15.4	Single Prick Device Technique	59
15.4.1	Step 1	59
15.4.2	Step 2	60

15.4.3	Step 3	60
15.4.4	Step 4	63
15.4.5	Step 5	63
15.4.6	Step 6	63
15.4.7	Step 7	64
15.5	Multi-Prick Device Technique	64
15.5.1	Step 1	64
15.5.2	Step 2	64
15.5.3	Step 3	64
15.5.4	Step 4	66
15.5.5	Step 5	66
15.5.6	Step 6	66
15.5.7	Step 7	67
	Bibliography.....	68
16	Skin Testing: Intradermal	69
	<i>Christine B. Franzese</i>	
16.1	Getting into (not under) Someone's skin	69
16.2	Serious Stuff.....	69
16.3	Tools of the Trade (What Are Needed).....	71
16.4	Shocking Information (How to Actually Do This!)	71
16.4.1	Preparation of Dilutions for the Testing/Treatment Board.....	71
16.4.2	Preparation of Controls	77
16.4.3	Single Intradermal Testing Technique	78
16.4.4	Intradermal Dilutional Testing Technique	81
	Bibliography.....	83
17	Skin Testing: Blended Techniques.....	84
	<i>Christine B. Franzese</i>	
17.1	Most Interesting Information	84
17.2	Serious Stuff.....	84
17.3	Shocking Information (How to Actually Do This!)	85
17.3.1	Modified Quantitative Testing Protocol.....	85
	Bibliography.....	87
18	Specific Immunoglobulin E Testing for Inhalant Allergy	88
	<i>James W. Mims, Matthew W. Ryan, Cecelia C. Damask</i>	
18.1	Getting Serious About Serum	88
18.2	Technique for Measuring sIgE.....	88
18.2.1	Step 1: Incubation	88
18.2.2	Step 2: First rinse	89
18.2.3	Step 3: Labeling	89
18.2.4	Step 4: Second rinse	90
18.2.5	Step 5: Measurement	90

Contents

18.3	Comparisons Between IgE Testing and Skin Testing.....	90
18.4	Sensitivity and Specificity.....	91
18.5	Other Advantages and Disadvantages.....	92
18.6	Interpretation of sIgE Testing.....	92
18.7	Future of sIgE Testing.....	93
18.7.1	“Component” Testing.....	93
	Bibliography.....	95

Part 4: Treatment

19 Environmental Avoidance..... 98

Sarah K. Wise

19.1	A Word About Avoidance.....	98
19.2	Serious Stuff.....	98
19.2.1	Do Dust Mite Environmental Control Measures Work?.....	98
19.2.2	Little Johnny Has a Cat Allergy. He has to Get Rid of Fluffy the Cat. Right?.....	99
19.2.3	Cockroaches. Disgusting! Can We Control Cockroaches to Alleviate Allergic Symptoms?.....	99
19.2.4	It’s Spring Time and the Pollen Is Everywhere. There’s No Way to Control This, Is There?.....	100
	Bibliography.....	101

20 Pharmacotherapy: Decongestants..... 102

Christine B. Franzese

20.1	A Word of Caution.....	102
20.2	What Is This Class of Medication?.....	102
20.3	What Symptoms Are Good for Treating?.....	102
20.4	Examples of This Class.....	102
20.5	Why and When to Use.....	103
20.6	Risks and Side Effects.....	103
20.7	A Special Word on Antihistamine–Decongestant Combinations (Oral, Ocular Preparations).....	104
	Bibliography.....	104

21 Anticholinergics..... 105

Christine B. Franzese

21.1	When the Nose Runs Like a Faucet.....	105
21.2	What Is This Class of Medication?.....	105
21.3	What Symptoms Are Good for Treating?.....	105
21.4	Examples of This Class.....	105
21.5	Why and When to Use.....	105
21.6	Risks and Side Effects.....	106
	Bibliography.....	106

22	Antihistamines	107
	<i>Christine B. Franzese</i>	
22.1	One of the Workhorses of Allergy Medications.....	107
22.2	What is This Class of Medication?.....	107
22.3	What Symptoms Are Good for Treating?	107
22.4	Examples of This Class	108
22.5	Why and When to Use	108
22.6	Risks and Side Effects	109
22.7	Ages for Use	109
	Bibliography.....	110
23	Corticosteroids	111
	<i>Christine B. Franzese</i>	
23.1	Another Major Workhorse	111
23.2	What Is This Class of Medication?.....	111
23.3	What Symptoms Are Good for Treating?	111
23.4	Examples of This Class	111
23.5	Why and When to Use	112
23.6	Risks and Side Effects	112
23.7	A Word of Caution About Injectable Corticosteroid Preparations....	113
23.8	Age for FDA On-Label Use	113
	Bibliography.....	114
24	Leukotriene Receptor Antagonists	115
	<i>Sarah K. Wise</i>	
24.1	Most Interesting Information	115
24.2	Serious Stuff.....	115
24.2.1	What Are Leukotrienes? (i.e. back to biochemistry class....).....	115
24.2.2	Now That the Science Is Over, Why Do We Care About Leukotrienes in Allergy?	115
24.2.3	What Are Leukotriene Receptor Antagonists?	116
24.2.4	For Completeness Sake... What Is a "Synthesis Inhibitor?"	116
24.2.5	What Allergic Conditions Can Leukotriene Receptor Antagonists Treat?.....	116
24.2.6	How Do Leukotriene Receptor Antagonists Compare to Other Allergic Rhinitis Medications?	117
24.2.7	What Is the Best Way to Use Leukotriene Receptor Antagonists?	117
24.2.8	Buyer (and Medical Provider) Beware! What Are the Adverse Effects of Leukotriene Receptor Antagonists?	117
	Bibliography.....	118
25	Mast Cell Stabilizers	119
	<i>Sarah K. Wise</i>	
25.1	Preventing Degranulation.....	119
25.2	Serious Stuff.....	119

Contents

25.2.1	What Is Cromolyn?	119
25.2.2	What Allergic Conditions Can Mast Cell Stabilizers Treat?	120
25.2.3	What Is the Best Way to Use Cromolyn Products?	120
25.2.4	What's So Great About Mast Cell Stabilizers?	120
25.2.5	What Is <i>Not</i> So Great About Mast Cell Stabilizers?	120
	Bibliography	121
26	Combination Therapies	122
	<i>Sarah K. Wise</i>	
26.1	Working Together	122
26.2	Serious Stuff	122
26.2.1	What Are Combination Therapies?	122
26.2.2	Lay It out for Me. Give Me the High Points. Just the Facts, Ma'am. What Do I Really Need to Know?	122
	Bibliography	125
27	Biologics	126
	<i>Cecelia C. Damask</i>	
27.1	Introduction to Biologics	126
27.2	Immunoglobulin E	126
27.2.1	Omalizumab	126
27.2.2	Interleukin-5	131
27.2.3	Mepolizumab	131
27.2.4	Reslizumab	131
27.2.5	Benralizumab	131
27.2.6	Interleukin-4 and Interleukin-13	132
27.2.7	Dupilumab	132
27.2.8	Librikizumab and Tralokinumab	132
27.2.9	Thymic Stromal Lymphopoietin	132
27.2.10	Tezepelumab	133
27.3	Interleukin-31	133
27.3.1	Nemolizumab	133
27.3.2	What Do We Still Not Know?	133
	Bibliography	134
28	Alternative Remedies	135
	<i>Christine B. Franzese</i>	
28.1	The Mind Is a Powerful Thing	135
28.2	Honey/Local Honey/Raw Honey	135
28.3	Risks/Side Effects	136
28.4	Acupuncture	136
28.5	Risks/Side Effects	136
28.6	Herbal Therapies	136
28.7	Risks/Side Effects	137
	Bibliography	138

29	Immunotherapy: Subcutaneous Immunotherapy	139
	<i>Cecelia C. Damask, Christine B. Franzese</i>	
29.1	The Basics of Subcutaneous Immunotherapy	139
29.2	To Endpoint or Not to Endpoint	139
29.3	Can You Say That Again?	140
29.4	A Few Words About Preservatives	140
29.5	Recipe Examples	141
29.6	Serious Stuff: Vial Mixing	141
29.7	Tools of the Trade (What All Are Needed)	141
29.8	Shocking Information (How to Actually Do This!)	143
29.9	The Next Recipe	144
29.10	Recipe Examples for Mixing the Next Patient Vial	144
29.11	Shot Administration	146
29.12	Injection Escalation Protocols	147
29.13	How Much Concentration to Use? What's Considered Therapeutic? ...	147
29.14	What Is the Volume of the Maintenance Injection?	149
29.15	How Long Does a Patient Stay on SCIT? When Do They Stop? Should They Be Retested?	149
	Bibliography	149
30	Immunotherapy: Sublingual Immunotherapy	150
	<i>Bryan Leatherman, Sarah K. Wise, Christine B. Franzese</i>	
30.1	Desperately Seeking a Non-Shot Alternative	150
30.2	Serious Stuff	150
30.2.1	Why Immunotherapy? Why Sublingual Immunotherapy?	150
30.2.2	How Does SLIT Work?	151
30.2.3	What evidence Do We Have for SLIT Efficacy?	151
30.2.4	SLIT Safer Than SCIT. True or False?	152
30.2.5	What Is the Best Dose of SLIT to Give to Patients?	153
30.2.6	Now Let's Get Practical. How to Do This?	153
30.2.7	How to Mix an Aqueous SLIT Vial?	154
30.2.8	How Long Do These Maintenance Vials Last? Do They Need to Be Refrigerated?	158
30.2.9	What Don't We Know About SLIT?	158
	Bibliography	159
31	Sublingual Tablets	160
	<i>Christine B. Franzese</i>	
31.1	Looking for Unicorns	160
31.2	Who Is a Candidate for Sublingual Immunotherapy Tablet?	160
31.3	The Practical Applications of Tablets	160
31.4	SLIT Tablets (Available in the United States)	161
31.4.1	Timothy Grass	161

Contents

31.4.2	Ragweed.....	162
31.4.3	House Dust Mite.....	162
31.4.4	Common to All SLIT Tablets	162
31.5	Tablet Cannibalism and Bringing in New Patients to the Practice....	164
	Bibliography.....	164
32	Oral Mucosal Immunotherapy.....	165
	<i>Christine B. Franzese</i>	
32.1	Becoming Part of the Routine.....	165
32.2	Allergy Toothpaste—Say What?.....	165
32.3	A Word Before We Start	165
32.4	Who Is a Candidate for OMIT?	166
32.5	How to Mix Oral Mucosal Immunotherapy	166
32.6	How to Use Oral Mucosal Immunotherapy	167
32.7	A Word Before We End.....	168
	Bibliography.....	169
33	Treatment: Monosensitization Versus Polysensitization	170
	<i>Christine B. Franzese</i>	
33.1	The Eternal Question	170
33.2	Treating the Monosensitized/Monoallergic and the Paucisensitized/Pauciallergic Patient	170
33.3	Treating the Polysensitized/Polyallergic Patient: Mono/Pauci Therapy.....	171
33.4	Treating the Polysensitized/Polyallergic Patient: Polytherapy.....	172
33.5	Financial Implications	172
	Bibliography.....	173
 Part 5: Allergy Emergencies		
34	Anaphylaxis	176
	<i>Christine B. Franzese</i>	
34.1	Keep Calm and Give Epinephrine.....	176
34.2	An Ounce of Prevention	176
34.3	Prepare for the Worst.....	177
34.4	When Anaphylaxis Strikes	180
34.5	A Word About Epinephrine	182
34.6	Hope for the Best	182
	Bibliography.....	183

35	Other Urgencies and Emergencies	184
	<i>Christine B. Franzese</i>	
35.1	A Horse with Stripes	184
35.2	Local Reactions	184
35.3	Vasovagal Reaction	185
35.4	Asthma Exacerbation	185
35.5	Isolated Urticaria	186
35.6	Chest Pain/Hypoglycemia/Other Symptoms Not Related to Anaphylaxis	186
	Bibliography	186
 Part 6: Associated Atopic Disorders		
36	Penicillin Allergy	188
	<i>Christine B. Franzese</i>	
36.1	Fear and Labelling	188
36.2	Serious Stuff	188
36.3	History	189
36.4	Diagnosis and Testing	189
36.5	Shocking Information—How to Actually Do This!	189
	Bibliography	193
37	Asthma	194
	<i>Christine B. Franzese</i>	
37.1	More Than Just Wheezing	194
37.2	How Bad It Can Get	194
37.3	Control	195
37.4	The Undiagnosed	198
37.5	The Future Understanding of Asthma	198
	Bibliography	199
38	Food Allergy	200
	<i>Elizabeth J. Mahoney Davis, Matthew W. Ryan, Cecelia C. Damask</i>	
38.1	Food Allergy in a Nutshell	200
38.2	Definitions and Classification of Food Allergy	201
38.3	Treatment	203
	Bibliography	204
39	Eosinophilic Esophagitis (EoE)	205
	<i>Cecelia C. Damask, Michael J. Parker</i>	
39.1	Most Interesting Information	205
39.2	What Do We Know?	205

Contents

39.3	What Is Still Unknown at This Time?	205
39.4	Prevalence	206
39.5	Clinical Presentation	206
39.6	Endoscopic Findings	207
39.7	Management	207
	Bibliography	209
40	Atopic Dermatitis	210
	<i>Cecelia C. Damask</i>	
40.1	More than Skin Deep	210
40.2	Skin Barrier Care and Repair Are Paramount	211
40.3	Future of Atopic Dermatitis Treatment	212
	Bibliography	213
 Part 7: Practice Makes Perfect		
41	Worksheets on Allergy Testing with Answers	216
	<i>Christine B. Franzese</i>	
42	Worksheets on Vial Mixing/Preparation with Answers	227
	<i>Christine B. Franzese</i>	
 Part 8: Adding Allergy to Your Practice		
43	USP <797> and Compounding	248
	<i>Cecelia C. Damask, Christine B. Franzese</i>	
43.1	What Is USP Chapter <797>?	248
43.2	What Is Next Iteration of the USP Chapter <797> Draft?	248
43.3	Who Does the Mixing?	248
43.4	Where Does the Mixing Occur?	249
43.5	What Is Aseptic Compounding Technique?	249
43.6	How Is Aseptic Compounding Technique Measured?	250
43.7	What Is Gloved Fingertip and Thumb Testing and Why Is That Needed or Being Added?	250
	Bibliography	251
44	Office Set-up	252
	<i>William R. Reisacher, Matthew W. Ryan, Cecelia C. Damask</i>	
44.1	Why Add Allergy to an Existing Practice?	252
44.2	What Exactly Does It Mean to “Add Allergy” to the Office?	252
44.3	Factors to Consider	253

- 45 Patient Selection
- 46 Nurse Selection and Training
- 47 Coding/Billing
