Foreword					xx
Preface					xxi
Acknowledgments					xxii
Contributors					xxiii
Section I Introduction					
1 Ptosis Classification					2
<i>Michael A. Burnstine</i>					
1.1 Introduction	2	1.6 Clinical Decision-Making			11
1.2 Ptosis Classification	2	1.7 Photographing the Patient			11
1.3 Preoperative Assessment	2	1.8 Informed Consent			12
1.3.1 History of Present Illness.....	2	1.9 Principles of Surgical Correction			12
1.3.2 Physical Examination.....	3	1.10 When Not to Operate			12
1.4 Upper Eyelid Ptosis Classification	5	1.11 Postoperative Complications			12
1.4.1 Aponeurotic Ptosis.....	5	1.12 Aesthetic Concerns for Upper Eyelid and Eyebrow Rejuvenation			12
1.4.2 Myogenic Ptosis.....	6	References			12
1.4.3 Mechanical Ptosis.....	9				
1.4.4 Neurogenic Ptosis.....	10				
1.4.5 Pseudoptosis.....	10				
1.5 Eyebrow Ptosis Classification	10				
2 Aesthetic Anatomy of the Upper Face					13
<i>Mica Y. Bergman, Margaret L. Pfeiffer</i>					
2.1 Introduction	13	2.8.1 Sensory			18
2.2 Skin	13	2.8.2 Motor			20
2.3 Subcutaneous Tissue and Fat Compartments	14	2.9 Blood Supply			20
2.4 Superficial Musculoaponeurotic System	15	2.9.1 Forehead.....			20
2.5 Retaining Ligaments, Canthal Tendons, and Orbital Septum	15	2.9.2 Eyelid.....			21
2.6 Mimetic Muscles and Eyelid Retractors	16	2.10 Lymphatic Drainage			21
2.7 Deep Fat Compartments	18	2.10.1 Forehead.....			21
2.8 Nervous Innervation to the Upper Eyelid and Forehead	18	2.10.2 Eyelid.....			21
		2.11 Unique Considerations for the Upper Facial Surgeon: Facial Danger Zones			22
		2.12 Unique Anatomical Considerations for the Eyelid Surgeon			22

6.5	Benefits of the Procedure	44	6.8.3	The Operative Technique	44
6.6	Informed Consent	44	6.8.4	Expert Tips/Pearls/Suggestions	46
6.7	Contraindications	44	6.8.5	Postoperative Care Checklist	46
6.8	The Procedure	44	6.9	Complications and Their Management	47
6.8.1	Instruments Needed	44	6.10	Alternative Approaches to Double Eyelid Surgery	47
6.8.2	Preoperative Checklist	44		References	53
7	A Guide to Eyebrow Contouring Options	49			
	<i>David B. Samimi</i>				
7.1	Introduction	49	7.4	Risks of Surgery	51
7.2	Evolving Trends in Brow Beauty	49	7.5	Choosing the Best Procedure/Physician Decision-Making	51
7.2.1	History of Eyebrow Aesthetics	49	7.6	Expert Tips/Pearls/Suggestions	52
7.2.2	Volume and Facial Aging	49	7.6.1	Upper Eyelid Considerations	52
7.2.3	Eyebrow Height and Proportions	49	7.6.2	The Role of Nonsurgical Adjuncts	52
7.3	Patient Assessment	50	7.6.3	Managing Asymmetry	52
7.3.1	History	50	7.6.4	Minimizing Hair Loss	52
7.3.2	Physical Exam Checklist	51			
8	Direct Eyebrow Elevation	54			
	<i>Nathan W. Blessing, Wendy W. Lee</i>				
8.1	Introduction	54	8.8	Procedure	57
8.2	Relevant Anatomy	54	8.8.1	Instrumentation	57
8.3	Goals of Intervention, Indications, and Benefits of the Procedure	55	8.8.2	Preoperative Checklist	57
8.4	Risks of the Procedure	55	8.8.3	Operative Technique	57
8.5	Preoperative Considerations and Patient Selection	56	8.8.4	Expert Tips/Pearls/Suggestions	58
8.6	Informed Consent	56	8.8.5	Postoperative Care	58
8.7	Relative Contraindications	56	8.9	Complications and Their Management	58
9	Internal Eyebrow Lift	59		References	58
	<i>Ana F. Duarte, Alice V. Pereira, Juan A. Delgado, Martín H. Devoto</i>				
9.1	Introduction	59	9.6	Informed Consent	60
9.2	Anatomic Considerations of the Upper Facial Continuum	59	9.7	Indications	60
9.3	Goals of Intervention	59	9.8	Contraindications	60
9.4	Risks	59	9.9	Patient Assessment	60
9.5	Benefits	60	9.9.1	Medical History	60
			9.9.2	Ophthalmic History	60

Contents

9.9.3	Ophthalmic Examination	61	9.14	Complications and Their management	63
9.9.4	Anatomic Evaluation: The Eyelid and Eyebrow Subunits	61	9.14.1	Bleeding	63
9.10	Preoperative Checklist	61	9.14.2	Infection	63
9.11	The Procedure	61	9.14.3	Nerve Damage	63
9.11.1	Instrumentation Needed	61	9.14.4	Postoperative Lagophthalmos and Dry Eye	63
9.11.2	Sutures	61	9.14.5	Residual Aesthetic Deformity	63
9.11.3	Operative Technique	61	9.14.6	Skin Dimpling	64
9.12	Expert Tips/Pearls/Suggestions	63	9.15	Summary	64
9.13	Postoperative Care Checklist	63		References	64
10	Midforehead Browlift Technique	65			
	<i>Krishnapriya Kalyam, John B. Holds</i>				
10.1	Introduction	65	10.8.1	Instruments Needed	65
10.2	Goals of Intervention/Indications	65	10.8.2	Operative Technique	66
10.3	Risks of the Procedure	65	10.9	Expert Tips/Pearls/Suggestions	67
10.4	Benefits of the Procedure	65	10.10	Postoperative Care Checklist	67
10.5	Informed Consent	65	10.11	Complications and Their Management	69
10.6	Contraindications	65	10.12	Conclusion	69
10.7	Preoperative Assessment	65		References	69
10.8	The Procedure	65			
11	Open Coronal Pretrichial Browlift Surgery	70			
	<i>Wesley L. Brundridge, Hans B. Heymann, Christopher M. DeBacker, David E. E. Holck</i>				
11.1	Introduction	70	11.6	Benefits of the Procedure	72
11.2	Unique Anatomical Considerations in Coronal Brow Lifting	70	11.7	Contraindications	72
11.2.1	The Eyebrow	70	11.8	Informed Consent	72
11.2.2	The Anatomic Layers	70	11.9	The Procedure	72
11.2.3	The Muscles of Elevation and Depression	70	11.9.1	Instruments Needed	72
11.2.4	The Sensory Supply	70	11.9.2	Sutures Used	72
11.2.5	The Facial Nerve	71	11.9.3	Preoperative Checklist	73
11.2.6	The Vascular Supply	71	11.9.4	The Operative Technique	73
11.3	Patient Evaluation	71	11.10	Expert Tips/Pearls/Suggestions	78
11.3.1	Forehead Length and Contour	71	11.11	Postoperative Care Checklist	78
11.3.2	Eyebrow Shape and Contour	71	11.12	Complications and Their Management	79
11.3.3	Forehead Rhytids	71	11.12.1	Expanding Hematoma	79
11.3.4	Nasal Root	71	11.12.2	Scarring	79
11.4	Goals of Intervention/Indications	71	11.12.3	Postoperative Brow Asymmetry	79
11.5	Risks of the Procedure	71			

11.12.4	Facial Nerve Damage	79	References	80
11.12.5	Scalp and Forehead Numbness	79	Bibliography	80
11.12.6	Alopecia	79		
11.13	Alternative Approaches to the Open Browlift	79		
12	Pretrichial Temporal Browlift	81		
	<i>John J. Martin, Jr.</i>			
12.1	Introduction	81	12.8.3	Surgical Technique
12.2	Goals of Intervention/Indications	81	12.9	Expert Tips/Pearls/Suggestions
12.3	Risks of Procedure	81	12.10	Postoperative Care Checklist
12.4	Benefits of Procedure	81	12.11	Complications
12.5	Contraindications	81	12.11.1	Scarring
12.6	Informed Consent	81	12.11.2	Suture Granuloma
12.7	Preoperative Evaluation	81	12.11.3	Undercorrection
12.8	The Procedure	82	12.11.4	Overcorrection
12.8.1	Instrumentation	82	12.12	Conclusion
12.8.2	Preoperative Checklist	82	References	83
13	Minimally Invasive Su-Por-Suture Temporal Brow Suspension: The Lift and Fill Technique	84		
	<i>Michael A. Burnstine</i>			
13.1	Introduction	84	13.4.2	Preoperative Checklist
13.2	Goals of Intervention/Indications	84	13.4.3	Operative Technique
13.2.1	Risks of the Procedure	84	13.5	Expert Tips/Pearls/Suggestions
13.2.2	Benefits of the Procedure	84	13.6	Postoperative Care Checklist
13.2.3	Informed Consent	84	13.7	Complications and Their Management
13.3	Contraindications	84	References	88
13.4	The Procedure	84		
13.4.1	Instruments Needed	84		
14	Endoscopic Upper Face and Eyebrow Lifting	89		
	<i>Francesco P. Bernardini, Alessandro Gennai, David B. Samimi</i>			
14.1	Introduction	89	14.6	Contraindications
14.2	Goals of Intervention	89	14.7	The Procedure
14.3	Risks	90	14.7.1	Preoperative Checklist
14.4	Informed Consent	90	14.7.2	Instruments Needed
14.5	Indications	90	14.7.3	Closure
			14.7.4	Local Anesthetic
			14.7.5	Fat Grafting
			14.7.6	Incision Placement

Contents

14.7.7	Operative Technique	92	14.11	Conclusions	96
