Foreword	xi
Preface	xii
Contributors	xiv
Part I Introduction to Navigation and Robotics	
1 Principles of Navigated Pedicle Screw Placement	2
<i>Yusef I. Mosley and Srinivas K. Prasad</i>	
2 Three-Dimensional Computer-Assisted Navigation Platforms	7
<i>Barrett S. Boody</i>	
3 Intraoperative Ultrasound in Spine Surgery: A Versatile and Useful Adjunct	11
<i>Ralph T. Schär, Howard J. Ginsberg, and Jefferson R. Wilson</i>	
4 Magnetic Resonance Imaging–Based Navigation	18
<i>Jonathan G. Seavey and Langston T. Holly</i>	
5 Shared Control Robotics	24
<i>Elvis L. Francois and Arjun S. Sebastian</i>	
6 Telesurgical Robots	28
<i>Kyle W. Mombell and Patrick B. Morrissey</i>	
7 Supervisory-Controlled Robotics	32
<i>Sohrab Pahlavan and Nathan H. Lebowitz</i>	
8 Radiation Exposure and Navigated Spinal Surgery	34
<i>Scott C. Wagner</i>	
Part II Techniques for Navigation-Assisted Spine Surgery	
9 Outcomes in Navigated Spinal Surgery	38
<i>Brian T. Sullivan, Alex A. Johnson, Nicholas Theodore, Jeff Jacobson, and A. Jay Khanna</i>	
10 Navigated Subaxial Cervical Spine Pedicle Screw Instrumentation	45
<i>John A. Buza III and Peter G. Passias</i>	
11 Navigated Anterior Transoral Surgery for C1 and C2 Pathologies	51
<i>Christine L. Hammer and James J. Evans</i>	
12 Navigated Posterior Correction of Pediatric Scoliosis	59
<i>Justin C. Paul, Arya Varthi, and Raj J. Gala</i>	
13 Navigated Posterior Instrumentation of the Arthrodesed Spine	68
<i>Erika A. Dillard, James S. Harrop, and I. David Kaye</i>	
14 Navigated Minimally Invasive Transforaminal Lumbar Interbody Fusion	76
<i>Bradley C. Johnson and Thomas J. Errico</i>	

Contents

15	Robotic Instrumentation for Lumbosacral Spondylolisthesis	82
	<i>Michael R. Conti Mica, Michael P. Silverstein, R. Alden Milam IV, and Eric B. Laxer</i>	
16	The Role of Navigation in the Resection of Primary Spinal Tumor	87
	<i>Taolin Fang, Jian Dong, and Stefano Boriani</i>	
17	Surgical Management of Thoracolumbar Spinal Metastases Using Navigation	96
	<i>Zach Pennington, A. Karim Ahmed, Camilo A. Molina, and Daniel M. Sciubba</i>	
18	Navigated Pelvic Fixation	111
	<i>Haruki Funao, Brian J. Neuman, and Khaled M. Kebaish</i>	
19	Navigated Sacroiliac Joint Fusion	116
	<i>Wesley H. Bronson and Joshua E. Heller</i>	
20	Navigation Balloon Kyphoplasty	122
	<i>Richard M. McEntee, Kaitlyn Votta, and I. David Kaye</i>	
Part III Techniques for Robotic-Assisted Spine Surgery		
21	Outcomes in Robotic Spinal Surgery	128
	<i>Glenn S. Russo, Christopher M. Bono, and James D. Kang</i>	
22	Robotic Subaxial Cervical Spine Pedicle Screw Instrumentation	131
	<i>Wei Tian, Mingxing Fan, Jingwei Zhao, and Yajun Liu</i>	
23	Navigated and Robotic Anterior Odontoid Peg Fracture Fixation	135
	<i>Kartik Shenoy and Ali Bydon</i>	
24	Navigated and Robotic Posterior Atlantoaxial Fusion	140
	<i>Andrew H. Milby and James M. Schuster</i>	
25	Robotic Posterior Thoracic Pedicle Screw Placement	148
	<i>Marco C. Mendoza, R. Alden Milam IV, and Eric B. Laxer</i>	
26	Robotic Minimally Invasive Transforaminal Lumbar Interbody Fusion	153
	<i>Alfred J. Pisano and Donald F. Colantonio III</i>	
27	Robotic Anterior Lumbar Interbody Fusion	160
	<i>Patricia Zadnik Sullivan, Tristan Blase Fried, and William C. Welch</i>	
Part IV Techniques Using Alternative Modalities for Complex Spine Pathology		
28	Intraoperative Ultrasound-Guided Intradural Tumor Resection	164
	<i>Yamaan S. Saadeh, Jay K. Nathan, and Mark E. Oppenlander</i>	
29	Stereotactic Radiosurgery for Treatment of Primary and Metastatic Spinal Tumors	170
	<i>Ori Barzilai, Adam M. Schmitt, Mark H. Bilsky, and Ilya Laufer</i>	
Part V Easing the Transition to Technological Adoption		
30	Operating Room Design and Efficiency	178
	<i>James Dowdell, Christopher M. Mikhail, and Andrew C. Hecht</i>	

Contents

31	Mounting the Learning Curve with New Technologies	185
	<i>John E. Ziewacz</i>	
Part VI Future Directions		
32	Artificial Intelligence	190
	<i>Jaykar R. Panchmatia and Trishan Panch</i>	
33	What We Can Learn from Other Industries	195
	<i>Nikola Kocovic and I. David Kaye</i>	
34	Future Growth in Navigated and Robotic Spinal Surgery	203
	<i>Darian R. Esfahani, Prateek Kumar, Kimberly Hu, Zachary Tan, Brandon L. Neisewander, and Ankit I. Mehta</i>	
	Index	209
