

1.Introduction

2.Part I: Endoscopic or Video-assisted Breast Surgery

Section 1: Endoscopic Breast Surgery with No Reconstruction

Chapter 1: Endoscopic Breast Conserving Surgery

Description of technique

Case discussion 1 and 2

Discussion

References

Chapter 2: Endoscopic Mastectomy

Description of technique

Case discussion 3 and 4

Discussion

References

Section 2: Endoscopic Breast Conserving Surgery with Immediate Reconstruction

Chapter 3: Endoscopic Breast Conserving Surgery with Immediate Omental Flap Reconstruction

Description of technique

Case discussion 5 and 6

Discussion

References

Chapter 4: Endoscopic Breast Conserving Surgery with Immediate Local Advancement/Perforator Flap Reconstruction

Description of technique

Case discussion 7

Discussion

References

Section 3: Endoscopic Mastectomy with Immediate Reconstruction

Chapter 5: Endoscopic Mastectomy with Immediate Implant Reconstruction

Description of technique

Case discussion 8, 9, 10 and 11

Discussion

References

Chapter 6: Endoscopic Mastectomy with Immediate Transversus Rectus Abdominis Flap Reconstruction

Description of technique

Case discussion 12

Discussion

References

Chapter 7: Endoscopic Mastectomy with Immediate Latissimus Dorsi Flap Reconstruction

Description of technique

Case discussion 13

Discussion

References

Part II: Robotic Breast Surgery

Section 1: Robotic Breast Surgery with No Reconstruction

Chapter 8: Robotic Mastectomy

Description of technique

Case discussion 14

Discussion

References

Section 2: Robotic Breast Surgery with Reconstruction

Chapter 9: Robotic Breast Conserving Surgery with Immediate Pedicled Latissimus Dorsi (LD) Flap Reconstruction

Description of technique

Case discussion 15

Discussion

References

Chapter 10: Robotic Mastectomy with Immediate Implant Reconstruction

Description of technique

Case discussion 16 and 17

Discussion

References

Chapter 11: Robotic Mastectomy with Immediate Latissimus Dorsi Flap Reconstruction

Description of technique

Case discussion 18

Discussion

References

Chapter 12: Endoscopic Breast Conserving Surgery with Robot-assisted Immediate Pedicled Omental Flap Reconstruction

Description of technique

Case discussion 19

Discussion
