Preface	xv
Acknowledgments	xvi
Contributors	xvii
 Part I Retinal Diagnostics	
1 Optical Coherence Tomography	2
<i>Rachel C. Chen and Peter K. Kaiser</i>	
2 Fluorescein Angiography	6
<i>Jeremy A. Lavine and Justis P. Ehlers</i>	
3 Indocyanine Green Angiography	9
<i>Daniel R. Agarwal and Sumit Sharma</i>	
4 Optical Coherence Tomography Angiography	13
<i>Malvika Arya and Nadia K. Waheed</i>	
5 Intraoperative Optical Coherence Tomography	18
<i>Atsuro Uchida and Justis P. Ehlers</i>	
6 Fundus Autofluorescence	22
<i>Srinivas Sadda and Enrico Borrelli</i>	
 Part II Macular and Peripheral Vitreoretinal Interface Disorders	
7 Posterior Vitreous Detachment	28
<i>Natalia Albuquerque Lucena Figueiredo and Justis P. Ehlers</i>	
8 Epiretinal Membrane	31
<i>Ramin Tadayoni</i>	
9 Macular Holes	35
<i>Philip P. Storey and Carl D. Regillo</i>	
10 Vitreomacular Traction	39
<i>Almyr S. Sabrosa, Daniela Ferrara, and Jay S. Duker</i>	
11 Retinal Tears and Holes	43
<i>Vishal S. Parikh, Anjali Shah, and Gaurav K. Shah</i>	
12 Primary Rhegmatogenous Retinal Detachment	46
<i>Priya Sharma and Chirag Shah</i>	
13 Giant Retinal Tear	52
<i>Daniel Su and Allen Ho</i>	
14 Retinal Dialysis	55
<i>Maxwell S. Stem and Jeremy D. Wolfe</i>	

Contents

15 Proliferative Vitreoretinopathy	59
<i>Jeremy A. Lavine and Justis P. Ehlers</i>	
16 Retinoschisis	63
<i>Yuji Itoh</i>	
17 Lattice Degeneration	66
<i>Jennifer C.W. Hu and Justis P. Ehlers</i>	
 Part III Retinal Vascular Disease	
18 Diabetic Retinopathy and Diabetic Macular Edema	70
<i>Natalia Albuquerque Lucena Figueiredo and Justis P. Ehlers</i>	
19 Retinal Vein Occlusion	77
<i>Sharon Fekrat and Mohsin H. Ali</i>	
20 Retinal Artery Occlusion	82
<i>Rishi P. Singh and Ang Li</i>	
21 Ocular Ischemic Syndrome	86
<i>Talia R. Kaden and Yasha S. Modi</i>	
22 Retinal Arterial Macroaneurysm	89
<i>Kevin Wang and Justis P. Ehlers</i>	
23 Radiation Retinopathy	92
<i>Peter H. Tang and Prithvi Mruthyunjaya</i>	
24 Sickle Cell Retinopathy	96
<i>Paul E. Israelsen and Andrew W. Browne</i>	
25 Hypertensive Retinopathy	100
<i>Marisa K. Lau and Paula Eem Pecen</i>	
 Part IV Retinal Degenerations and Dystrophies	
26 Dry Age-Related Macular Degeneration	106
<i>Sruthi Arepalli and Andrew P. Schachat</i>	
27 Wet Age-Related Macular Degeneration	110
<i>Jennifer C.W. Hu and Justis P. Ehlers</i>	
28 Polypoidal Choroidal Vasculopathy	116
<i>Keiko Kataoka and Hiroko Terasaki</i>	
29 Age-Related Choroidal Atrophy	121
<i>Richard F. Spaide</i>	
30 Myopic Degeneration and Myopic Foveoschisis	125
<i>Makoto Inoue and Yuji Itoh</i>	
31 Angioid Streaks	130
<i>Robert J. Courtney</i>	

Contents

32 Best Disease	134
<i>Daniel R. Agarwal and Elias I. Traboulsi</i>	
33 Adult Vitelliform Macular Dystrophy	139
<i>Matthew R. Starr and Sophie J. Bakri</i>	
34 Pattern Dystrophy	142
<i>Amy S. Babiuch and Elias I. Traboulsi</i>	
35 Macular Telangiectasia	147
<i>S. Amal Hussain and Yasha S. Modi</i>	
36 Retinitis Pigmentosa	151
<i>Meghan J. DeBenedictis and Aleksandra Rachitskaya</i>	
37 Cone Dystrophy	157
<i>Huber Martins Vasconcelos, Jr. and Paul Yang</i>	
38 Paraneoplastic Retinopathies	162
<i>Omar S. Punjabi and Dilraj Grewal</i>	
39 Congenital Stationary Night Blindness	166
<i>Laryssa A. Hurn, Brett G. Jeffrey, and Catherine A. Cukras</i>	
40 Albinism	169
<i>Atalie C. Thompson and Lejla Vajzovic</i>	
41 Gyrate Atrophy	173
<i>Matteo Scaramuzzi and Elias I. Traboulsi</i>	
42 Choroideremia	179
<i>Ruben Jauregui and Stephen H. Tsang</i>	
43 Stargardt Disease	182
<i>Sruthi Arepalli and Justis P. Ehlers</i>	
44 Cobblestone Degeneration	186
<i>Kevin Wang and Justis P. Ehlers</i>	
Part V Other Macular Disorders	
45 Central Serous Chorioretinopathy and Pachychoroid Disease	190
<i>Belinda C.S. Leong and K. Bailey Freund</i>	
46 Hypotony Maculopathy	196
<i>Nathan E. Cutler and Justis P. Ehlers</i>	
47 Cystoid Macular Edema	199
<i>Nandini Venkateswaran and Jayanth Sridhar</i>	
48 Choroidal Folds	202
<i>Jaya B. Kumar and Justis P. Ehlers</i>	

Contents

49 Optic Pit-Related Maculopathy	206
<i>Shangjun (Collier) Jiang and Netan Choudhry</i>	
Part VI Chorioretinal Infectious and Inflammatory Disorders	
50 Bacterial Endophthalmitis	211
<i>Edmund Tsui, Nitish Mehta, and Yasha S. Modi</i>	
51 Fungal Endophthalmitis	216
<i>Durga S. Borkar and Sunir J. Garg</i>	
52 Toxoplasmosis	219
<i>Akshay S. Thomas and Dilraj Grewal</i>	
53 Toxocariasis	223
<i>Thuy K. Le and Justis P. Ehlers</i>	
54 Acute Retinal Necrosis	225
<i>Jawad I. Arshad and Sunil K. Srivastava</i>	
55 Syphilitic Uveitis	228
<i>Angela J. Verkade and Christina Y. Weng</i>	
56 Ocular Tuberculosis	232
<i>Andrea Elizabeth Arriola-López and Thomas A. Albini</i>	
57 Cytomegalovirus Retinitis	236
<i>Heather M. Tamez and Stephen J. Kim</i>	
58 Human Immunodeficiency Virus Retinopathy	239
<i>Waseem H. Ansari and Justis P. Ehlers</i>	
59 West Nile Retinopathy	242
<i>Ijeoma S. Chinwuba and Yasha S. Modi</i>	
60 Ebola Virus	246
<i>Jessica G. Shantha and Steven Yeh</i>	
61 Zika Virus and the Retina	249
<i>Peter H. Tang and Darius M. Moshfeghi</i>	
62 Presumed Ocular Histoplasmosis Syndrome	251
<i>Joseph Daniel Boss and Justis P. Ehlers</i>	
63 Diffuse Unilateral Subacute Neuroretinitis	254
<i>Sruthi Arepalli, Arthi Venkat, and Sunil K. Srivastava</i>	
64 Multifocal Choroiditis and Panuveitis	256
<i>Rajinder S. Nirwan and Angela P. Bessette</i>	
65 Ocular Sarcoidosis	260
<i>Sruthi Arepalli and Careen Lowder</i>	

Contents

66 Serpiginous Choroiditis	265
<i>Sarina Amin and Ashleigh Levison</i>	
67 Birdshot Retinochoroiditis	268
<i>Akshay S. Thomas and Glenn Jaffe</i>	
68 Multiple Evanescent White Dot Syndrome	272
<i>Geraldine R. Slean and Rahul N. Khurana</i>	
69 Acute Posterior Multifocal Placoid Pigment Epitheliopathy	275
<i>David Xu and David Sarraf</i>	
70 Behçet Disease	279
<i>Sarina Amin and Ashleigh Levison</i>	
71 Pars Planitis	282
<i>Aniruddha Agarwal, Peter H. Tang, Kanika Aggarwal, and Quan Dong Nguyen</i>	
72 Vogt-Koyanagi-Harada Syndrome	287
<i>Nima Justin Bencohen, Benjamin Kambiz Ghiam, and Pouya Nachshon Dayani</i>	
73 Sympathetic Ophthalmia	293
<i>Rahul Kapoor and Jayanth Sridhar</i>	
74 Susac Syndrome	297
<i>Jawad I. Arshad and Sunil K. Srivastava</i>	
 Part VII Retinal Trauma and Other Conditions	
75 Traumatic Macular Hole	302
<i>Robert B. Garoon and Jorge Fortun</i>	
76 Commotio Retinae	306
<i>Alexander C. Barnes and Justis P. Ehlers</i>	
77 Choroidal Rupture	308
<i>Lucy T. Xu and Alex Yuan</i>	
78 Chorioretinitis Sclopetaria	312
<i>Nitish Mehta and Yasha S. Modi</i>	
79 Dislocated Lens	314
<i>Katherine E. Talcott and Omesh P. Gupta</i>	
80 Intraocular Foreign Body	319
<i>Rahul Kapoor and Jayanth Sridhar</i>	
81 Terson Syndrome	323
<i>Atsuro Uchida and Justis P. Ehlers</i>	
82 Purtscher and Purtscher-Like Retinopathy	327
<i>Charles C. Wykoff and Harris Sultan</i>	

Contents

83 Laser Maculopathy	329
<i>Dilsher S. Dhoot and John D. Pitcher, III</i>	
84 Solar Retinopathy	332
<i>Alexander R. Bottini, Michael A. Klufas, and Yasha S. Modi</i>	
85 Choroidal Detachments	335
<i>Ankur Mehra and Nathan Steinle</i>	
 Part VIII Toxic and Drug-Related Retinopathies	
86 Hydroxychloroquine Retinopathy	340
<i>Vishal S. Parikh and Rishi P. Singh</i>	
87 Ocriplasmin Retinopathy	344
<i>Merina Thomas and Mark W. Johnson</i>	
88 Hemorrhagic Occlusive Retinal Vasculitis Secondary to Drug Exposure	348
<i>Michael N. Cohen and Andre J. Witkin</i>	
89 Talc Retinopathy	351
<i>Sai Chavala</i>	
90 Tamoxifen Retinopathy	353
<i>Daniel G. Cherfan and Justis P. Ehlers</i>	
91 Retinopathy Secondary to Targeted Cancer Therapies	356
<i>Priya Patel, Edmund Tsui, and Yasha S. Modi</i>	
 Part IX Posterior Segment Tumors	
92 Choroidal Nevus	360
<i>Carol L. Shields and Jerry A. Shields</i>	
93 Choroidal Melanoma	366
<i>Claudine Bellerive and Arun D. Singh</i>	
94 Choroidal and Retinal Metastasis	371
<i>Carol L. Shields and Jerry A. Shields</i>	
95 Intraocular Lymphoma	378
<i>Manuel Alejandro Paez-Escamilla, Michael T. Andreoli, and James William Harbour</i>	
96 Retinal Vascular Tumors	381
<i>Jerry A. Shields and Carol L. Shields</i>	
97 Retinoblastoma	388
<i>Victor M. Villegas and Timothy G. Murray</i>	
98 Hamartomas of the Retina: Astrocytic and Retina/Retinal Pigment Epithelium	393
<i>Mary E. Aronow and Arun D. Singh</i>	

Part X Pediatric Vitreoretinal Disease

99 Coats Disease	400
<i>Audina M. Berrocal and Linda A. Cernichiaro-Espinosa</i>	
100 Retinopathy of Prematurity	404
<i>Avery E. Sears and Jonathan E. Sears</i>	
101 Familial Exudative Vitreoretinopathy	409
<i>Edward H. Wood, Prethy Rao, and Kimberly A. Drenser</i>	
102 Persistent Fetal Vasculature	412
<i>Suruchi Bhardwaj Bhui, Vaidehi S. Dedania, and Yasha S. Modi</i>	
Index	416

Preface

For the last 15 years, I have been immersed in the world of ophthalmology and retinal disease. My journey began at Washington University in St. Louis where I found my passion for ophthalmology during medical school. My residency training took me to the Wills Eye Hospital where I developed a tremendous network of mentors and friends. At Wills, I had the unique privilege of serving under two inspirational leaders, Dr. William Tasman and Dr. Julia Haller. Through their generosity, I had my first opportunity to serve as one of the Co-Chief Editors for the *Wills Eye Manual, 5th Edition*. This project showed me the critical importance of a team-based approach to these comprehensive ophthalmic texts. After my time at Wills, I spent the next 2 years at the Duke Eye Center completing my vitreoretinal surgical fellowship. I was incredibly fortunate to work with an incredible group of mentors under the retina service leadership of Dr. Brooks McCuen and Dr. Glenn Jaffe. My journey then brought me to the Cole Eye Institute at the Cleveland Clinic where I have continued to develop knowledge in patient care, fellow/resident education, and research. Under the leadership of Dr. Dan Martin, our retina service had grown significantly over the last 10 years and I am surrounded by a wonderful team of partners and friends. It is through these amazing experiences that *The Retina Illustrated* emerges.

I hope that *The Retina Illustrated* will provide a rapid-fire yet thorough approach to the highly visual world of retinal disease. This book brings together authors from around the world to highlight the most common and critical retinal disorders encountered in eye care. My desire with this book is to provide a quick-reference guide that will provide easy

access to key diagnostic imaging findings for the major retinal disorders that we manage as eye care providers.

This text includes over 100 chapters surveying a wide range of topics. Chapters in the book range from traditional common retinal diseases, such as age-related macular degeneration and diabetic retinopathy, to emerging retinal conditions, such as Zika and Ebola-related complications. In addition, *The Retina Illustrated* includes extensive examples of cutting-edge imaging technology, such as ultra-widefield angiography, intraoperative optical coherence tomography, and OCT angiography.

I believe that this text can be a critical reference for those providers serving on the front lines for presenting retinal disease, such as primary care physicians, emergency medicine physicians, optometrists, and comprehensive ophthalmologists. My hope is that this will provide an important educational tool for residents and fellows in the midst of their training. Finally, our team of authors were sure to make this text comprehensive enough to serve as an important quick reference for the retina specialist to be able to identify key imaging findings in a disorder of interest. Thank you for your interest in *The Retina Illustrated*.

Justis P. Ehlers, MD
The Norman C. and Donna L. Harbert Endowed Chair
for Ophthalmic Research
Director, The Tony and Leona Campana Center for Excellence
in Image-Guided Surgery and Advanced Imaging Research
