Foreword *ix*

List of Contributors *xi*

About the Companion Website *xiii*

1 Apical Periodontitis: Microbial Infection and Host Responses 1

Dag Ørstavik

- 1.1 Introduction 1
- 1.2 Terminology 1
- 1.3 Pulp Infection and Periapical Inflammation 3
- 1.4 Biological and Clinical Significance of Apical Periodontitis 4
- 1.5 Concluding Remarks 7
- References 8

2 Dentin-Pulp and Periodontal Anatomy and Physiology 11

Leo Tjäderhane and Susanna Paju

- 2.1 Introduction 11
- 2.2 Dentin 11
- 2.3 Pulp Tissue and its Homeostasis 22
- 2.4 Pulp Inflammation 27
- 2.5 Pulp Nociception and Hypersensitivity 32
- 2.6 Age-related Changes in Dentin-pulp Complex 34
- 2.7 The Periodontium 39
- 2.8 The Periodontal Ligament (PDL) 39
- 2.9 Cementum 44
- 2.10 Alveolar Bone 46
- References 49

3 Etiology and Pathogenesis of Pulpitis and Apical Periodontitis 59

Ashraf F. Fouad and Asma A. Khan

- 3.1 Introduction 59
- 3.2 Etiology of Pulpitis and Apical Periodontitis 60
- 3.3 Inflammation Versus Infection of the Pulp and Periapical Tissues 61
- 3.4 The Dental Pulp 62

- 3.5 The Periapical Tissues 70
- 3.6 Concluding Remarks 79
- References 80

4 Microbiology of Apical Periodontitis 91

José F. Siqueira Jr and Isabela N. Rôças

- 4.1 Introduction 91
- 4.2 Microbial Causation of Apical Periodontitis 91
- 4.3 Endodontic Biofilms and the Community-as-Pathogen Concept 95
- 4.4 Mechanisms of Bacterial Pathogenicity 102
- 4.5 Microbial Ecology and the Root Canal Ecosystem 105
- 4.6 Types of Endodontic Infections 110
- 4.7 Identification of Endodontic Bacteria 111
- 4.8 Endodontic Biofilm Community Profiles 115
- 4.9 Microbiota in the Apical Root Canal 116
- 4.10 Symptomatic Infections 117
- 4.11 Persistent/Secondary Endodontic Infections 120
- 4.12 Extraradicular Infections 123
- 4.13 Other Microorganisms in Endodontic Infections 125
- References 127

5 Epidemiology, Treatment Outcome, and Risk Factors for Apical Periodontitis 143

Lise-Lotte Kirkevang and Michael Vaeth

- 5.1 Introduction 143
- 5.2 General Aspects of Epidemiology 144
- 5.3 Elements of an Epidemiologic Study 155
- 5.4 Evaluation of Epidemiologic Data 157
- 5.5 Factors and Conditions Associated with Treatment Outcome 160
- References 169

6 Radiology of Apical Periodontitis 179

Shanon Patel and Conor Durack

- 6.1 Introduction 179
- 6.2 Normal Apical Periodontium 180
- 6.3 Radiographic Appearance of Apical Periodontitis 190
- 6.4 Healing Characteristics 194
- 6.5 Conventional Radiography for Assessment of Apical Periodontitis 195
- 6.6 Advanced Radiographic Techniques for Endodontic Diagnosis 195
- 6.7 Differential Diagnosis 197
- 6.8 CBCT for Assessment of AP 202
- 6.9 Concluding Remarks 204
- References 204

7 Clinical Manifestations and Diagnosis 211

Asgeir Sigurdsson

- 7.1 Introduction 211
- 7.2 Pulpal Diagnostic Terms 212
- 7.3 Symptomatology of Pulpal Disease 213

- 7.4 Clinical Findings 216
- 7.5 Diagnostic Testing 217
- 7.6 Formulation of a Pulpal Diagnosis 223
- 7.7 Periapical Diagnosis 225
- 7.8 Symptomatology of Periapical Disease 226
- 7.9 Formulation of a Periapical Diagnosis 230
- 7.10 Future of Pulpal and Periapical Diagnosis 231
- References 231

8 Biological Basis for Endodontic Repair and Regeneration 237

Kerstin M. Galler

- 8.1 Principles of Regeneration and Repair 237
- 8.2 Vital Pulp Therapy 238
- 8.3 Cell Types Involved in Pulp Healing 239
- 8.4 The Role of Inflammation 242
- 8.5 Signaling Molecules in Dentine 243
- 8.6 Tissue Engineering Approaches to Dental Pulp Regeneration 245
- References 248

9 Prevention: Treatment of the Exposed Dentine Pulp Complex 253

Lars Bjørndal

- 9.1 Diagnostic Challenges of Deep Caries and Traumatic Pulp Exposure 253
- 9.2 Discerning Pulpal Diagnosis 254
- 9.3 The Pulp Biology Associated with Pulp Capping 257
- 9.4 Criteria for Assessing Success of Vital Pulp Therapies 259
- 9.5 Indirect Pulp Capping and Stepwise Excavation 259
- 9.6 Pulp Capping of the Uninflamed Pulp (Class I) 261
- 9.7 Pulp Capping of the Cariously Involved Pulp (Class II) 261
- 9.8 Partial Pulpotomy 261
- 9.9 Pulpotomy 262
- 9.10 Treatment Details for Pulp-preserving Techniques 263
- 9.11 The Available Evidence for Relative Merit of Treatment Procedures for Vital Pulps 264
- 9.12 Future Perspectives of More Advanced Biological Approaches 270
- References 270

10 Vital Pulp Extirpation 275

John Whitworth

- 10.1 Introduction 275
- 10.2 Pulpectomy – Definition and Rationale 275
- 10.3 The Challenge of Effective Local Anesthesia 277
- 10.4 Principles of Effective Pulpectomy 278
- 10.5 Canal Shaping 283
- 10.6 Canal Irrigation and Medication 294
- 10.7 Preserving the Aseptic Environment: Root Canal Filling and Coronal Restoration 299
- 10.8 Concluding Remarks 304
- References 304

11 Endodontic Treatment of Apical Periodontitis 313*Dag Ørstavik*

- 11.1 Introduction 313
- 11.2 Anatomic Location of the Microbes 314
- 11.3 Bacteriological Status During Treatment 316
- 11.4 Infection Control During Treatment 318
- 11.5 Root Filling Phase 323
- 11.6 Clinical Issues During Diagnosis and Treatment of Primary Apical Periodontitis 326
- 11.7 Treatment of Persistent or Recurrent Apical Periodontitis 327
- 11.8 Treatment of Immature Permanent Teeth with Apical Periodontitis 328
- 11.9 Monitoring Healing, Prognostication 329
- 11.10 Concluding Remarks 330
- References 331

12 Surgical Endodontics 345*Frank C. Setzer and Bekir Karabucak*

- 12.1 Introduction, Including History 345
- 12.2 Surgical Endodontic Procedures 346
- 12.3 Indications 346
- 12.4 Contraindications 348
- 12.5 General Preparations for Surgery 348
- 12.6 Anesthesia 349
- 12.7 Surgical Anatomy 351
- 12.8 Clinical Steps in Root-end Surgery 354
- 12.9 Perforation Repair 363
- 12.10 Replantation 363
- 12.11 Root Amputation, Hemisection 364
- 12.12 Guided Tissue Regeneration 366
- 12.13 Retreatment of Failed Surgical Cases 367
- 12.14 Modes of Healing 368
- 12.15 Outcome of Surgical Endodontics 368
- References 372
