

Preface

Acknowledgments

Editors

Contributors

SECTION I: BASIC EP LABORATORY SETUP AND EQUIPMENT

1. Device Lab Set-Up

John Lopez and Mina K. Chung

2. Organization of The Arrhythmia Lab

Roy Chung and Oussama M. Wazni

3. Holter and Event Monitor Laboratory Setup

Roy Chung, Daniel Cantillon, and Mina K. Chung

SECTION II: BRADYARRHYTHMIA

4. Bradycardia

Shiv Bagga and Mandeep Bhargava

5. Indications for Permanent Pacing and Cardiac Resynchronization Therapy

Shiv Bagga, J. David Burkhardt, and Mandeep Bhargava

SECTION III: SUPRAVENTRICULAR TACHYARRHYTHMIA

6. Atrial Flutter

Ayman A. Hussein and Oussama M. Wazni

7. Atrial Fibrillation

Rong Bai, Mohamed Salim, Luigi Di Biase, Robert Schweikert, and Walid Saliba

SECTION IV: VENTRICULAR TACHYARRHYTHMIA

8. Genetically Determined Ventricular Arrhythmias

Houman Khakpour and Jason S. Bradfield

9. Idiopathic Ventricular Tachycardia

Jackson J. Liang and David S. Frankel

SECTION V: SYNCOPE

10. Syncope Events, Definitions, Causes, and Features

Subramanya Prasad, Oussama M. Wazni, Mina K. Chung, Kenneth Mayuga, and Robert Schweikert

11. Syncope Management Facilities

Subramanya Prasad, Robert Schweikert, Mina K. Chung, Kenneth Mayuga, and Oussama M. Wazni

12. Syncope Management and Diagnostic Testing

Subramanya Prasad, Oussama M. Wazni, Robert Schweikert, Kenneth Mayuga, and Mina K. Chung

SECTION VI: DEVICE PROCEDURES

13. Implantation of Pacemakers and ICDs

Kushwin Rajamani, Michael P. Brunner, Oussama M. Wazni, and Bruce L. Wilkoff

14. Left Ventricular Lead Implantation for Cardiac Resynchronization Therapy

Kushwin Rajamani, Michael P. Brunner, Oussama M. Wazni, and Bruce L. Wilkoff

15. Extraction of Devices

Oussama M. Wazni and Bruce L. Wilkoff

SECTION VII: PERFORMING BASIC EP STUDIES

16. Venous and Arterial Access, EP Catheters, Positioning of Catheters

Ching Chi Keong, J. David Burkhardt, Thomas Dresing, and Andrea Natale

17. Basic Intracardiac Intervals

Duc H. Do and Noel G. Boyle

18. Basics of Electrophysiology Study

Jonathan R. Hoffman and Marmar Vaseghi

19. Head-Up Tilt (HUT) Table Testing

Subramanya Prasad, Amer Kadri, J. David Burkhardt, Thomas Dresing, and Kenneth Mayuga

SECTION VIII: CATHETER ABLATION TECHNIQUES

20. Ablation of SVT (AVNRT and AVRT)

Kushwin Rajamani and Patrick Tchou

21. Management and Ablation of Atrial Flutter

Carola Gianni, Amin Al-Ahmad, and Andrea Natale

22. Radiofrequency Ablation of Atrial Fibrillation

Jorge Romero, Carola Gianni, Sanghamitra Mohanty, Chintan Trivedi, Domenico G. Della Rocca, Andrea Natale, and Luigi Di Biase

23. Ventricular Arrhythmias in the Structurally Normal Heart

Andres Enriquez and Fermin Garcia

24. Catheter Ablation of Ventricular Fibrillation and Polymorphic Ventricular Tachycardia

Amin Al-Ahmad, Carola Gianni, and Andrea Natale

25. Mapping and Catheter Ablation of Postmyocardial Infarction Ventricular Tachycardia (VT): A Substrate-Based Approach

Zaid Aziz and Roderick Tung

26. Arrhythmogenic Right Ventricular Cardiomyopathy

Daniele Muser and Pasquale Santangeli

27. Non-Ischemic Cardiomyopathy And Ventricular Arrhythmias

Matthew C. Hyman and Gregory E. Supple

28. Ultrasound in the Electrophysiology Lab

Carola Gianni, Javier E. Sanchez, Domenico G. Della Rocca, Amin Al-Ahmad, and Andrea Natale

29. Left Atrial Appendage Closure

Rodney P. Horton, Carola Gianni, and Andrea Natale

30. ECG Features of Normal Heart PVCs

Robert D. Schaller

31. Epicardial Access and Indications

Jason S. Bradfield and Kalyanam Shivkumar

32. Ecg-Based Origin of Atrial Flutter

Decebal Gabriel Lațcu, Nadir Saoudi, and Francis E. Marchlinski
