

Key Features:

- Provides up-to-date content informed by best practices and the perspectives of both interventional radiology and anesthesiology
- Discusses key topics such as multimodal opioid sparing techniques as adjuncts and alternatives to the use of opioids for acute pain management, as well as shared decision making in interventional radiology pain management
- Demonstrates the new fascial pain blocks as well as sympathetic nerve blocks for periprocedural analgesia during interventional procedures
- Covers adult and pediatric acute and chronic pain conditions
- Integrates neuroanatomy and the "why" of clinical procedures for a better understanding of the pathways and various options for therapeutic intervention
- Presents information consistently, using a highly templated format with bulleted text for quick, easy reference
- Begins each section with a discussion of neuroanatomy, followed by succinct chapters that provide "how-to" information on a clinically useful, imaging-guided interventional procedure for treating a specific acute or chronic pain condition
- Features procedural videos and clear, high-quality drawings for visual reinforcement, e.g., sequential illustrations that show where nerves are located through successive peeling of anatomic layers
- Includes an Expert Consult™ eBook version that allows you to search all text, figures, and references on a variety of devices

Περιεχόμενα:

Introduction

Pain Neuroanatomy

Periprocedural Pain Management

Opioid Reduction Strategies

Acute Pain Service: Overview

Management of Cancer Pain: Overview

Pediatric Pain

Shared Decision-Making in Analgesia

Acute Pain Treatment Modalities

Regional Blocks

Neuraxial Anesthesia

TENS

Chronic Pain Treatment Modalities

Blocks for Chronic Pain: Facet and Nerve

Heat-Based Ablations: RFA and MWA

Cryoablation

Ethanol Ablation

Nerve Stimulators

Imaging Modalities

Radiography

Ultrasound

Computed Tomography

MR

Radiation Safety

Contrast Agents

Head, Neck, and Upper Extremity

Neuroanatomy

Acute Pain Procedures

Cervical Epidural

Scalp Blocks

Facet Blocks

Brachial Plexus Blocks: Acute Pain/Diagnostic Procedures

Upper Extremity Blocks

Chronic Pain Procedures

Scalp Blocks (Migraines) and TMJ Injections

RFA Facet Joint

Medial Branch Blocks

Trigger Points

Stellate Ganglion Blocks

Thorax and Chest Wall

Neuroanatomy

Acute Pain Procedures

Thoracic Epidural

Erector Spinae Plane Block

Intercostal Block

Serratus Anterior Block

PECS 1 and PECS 2 Blocks

Chronic Pain Procedures

Cryoablation

Heat-Based Ablations

Facet Joint Injection

Scapulothoracic Bursa Injection

Abdomen and Abdominal Wall

Neuroanatomy

Acute Pain Procedures

Epidural

Paravertebral Block

TAP Block

Quadratus Lumborum Block

Ilioinguinal and Iliohypogastric Nerve Blocks

Chronic Pain Procedures

Celiac Neurolysis

Mesenteric Ganglion Block

Genitofemoral Nerve Block

Pelvis and Perineum

Neuroanatomy

Acute Pain Procedures

Sacroiliac Joint Injection

Pubic Symphysis Injection

Piriformis Injection

Ganglion of Impar

Sacral Nerve Root Block

Pudendal Nerve Block

Penile Nerve Block

Superior and Inferior Hypogastric Blocks

Chronic Pain Procedures

Superior and Inferior Hypogastric Blocks

Ganglion Impar Block

Spine

Neuroanatomy

Myelography, Discography, and Vertebral Biopsy

Epidural Steroid Injection

Vertebroplasty

Kyphoplasty

Sacroplasty

Osteocool

Lower Extremity

Neuroanatomy

Acute Pain Procedures

Femoral Nerve Block

Adductor Canal Block

Lateral Femoral Cutaneous Block

Fascia Iliaca Block

Sciatic Block

Interspace Between Popliteal Artery and Capsule of Posterior Knee (iPACK) Block

Genicular Nerve Block

Peroneal Nerve Block

Tibial Nerve Block

Saphenous Nerve Block

Ankle Block

Obturator Block

Chronic Pain Procedures

Lumbar Sympathetic Blockade and Neurolysis

Cryoablation of Selected Nerves
