

**Preface, vi**  
**Biography, vii**  
**Video Contents, xv**  
**Contributors, xvi**

**PART 1: Perspectives and Evolution in Techniques, 1**

1 Endoscopic Orbital Surgery: The Rhinologist's Perspective, 2  
2 Endoscopic Orbital Surgery: The Ophthalmologists' Perspective: Formation of the Ophthalmology-Otolaryngology Team, 6  
3 Endoscopic Orbital Surgery: The Neurosurgeon's Perspective, 10

**PART 2: Evaluation, Anatomy, and Imaging, 17**

4 Surgical Anatomy of the Orbit, Including the Intraconal Space, 18  
5 Surgical Anatomy of the Nose, Septum, and Sinuses, 28  
6 Rhinologic Evaluation in Orbital and Lacrimal Disease, 36  
7 Ophthalmologic Evaluation in Orbital and Lacrimal Disease, 41  
8 Neuro-Ophthalmologic Evaluation and Testing, 49  
9 Radiologic Evaluation of the Orbit: Computed Tomography and Magnetic Resonance Imaging, 68  
10 Optimizing Visualization and Localization During Endoscopic Orbital Surgery, 79

**PART 3: Nasolacrimal Duct Obstruction and Endoscopic-DCR, 82**

11 Evaluation and Management of Congenital Nasolacrimal Duct Obstruction, 83  
12 Evaluation and Management of Acquired Nasolacrimal Duct Obstruction, 89  
13 Endoscopic Dacryocystorhinostomy, 94  
14 Endonasal Dacryocystorhinostomy With Mucosal Flaps, 99  
15 Revision Endoscopic Dacryocystorhinostomy and Conjunctivodacryocystorhinostomy, 105  
16 Endoscopic Management of Pediatric Nasolacrimal Obstruction, 113  
17 Outcomes of Endoscopic Dacryocystorhinostomy Enhancing the Patency of the Rhinostomy, 118

**PART 4: Endoscopic Orbital and Optic Nerve Decompression, 121**

- 18 Thyroid Eye Disease, 122
- 19 Surgical Indications and Outcomes of Orbital Decompression Surgery, 132
- 20 Endoscopic Orbital Decompression, 135
- 21 Endoscopic Optic Nerve Decompression: Intracanalicular Portion, 141
- 22 Complications in Endoscopic Orbital Surgery, 149
- 23 Postoperative Care of the Endoscopic Orbital Decompression Patient, 153

**Part 5: Endoscopic Intraorbital Surgery and Tumor Resection, 156**

- 24 Endoscopic Endonasal Approaches to the Orbit and Skull Base in the Coronal Plane, 157
- 25 Intraorbital Pathology (Tumors) and Management Strategies, 164
- 26 Orbital Apex Surgery and Tumor Removal, 175
- 27 Management of Intraconal Hemangioma: Techniques and Outcomes, 184
- 28 Fibro-Osseous Lesions of the Orbit and Optic Canal, 189
- 29 Endoscopic Orbital Exenteration, 201

**PART 6: Transorbital Techniques, 207**

- 30 Endoscopic Subperiosteal Abscess Drainage, 208
- 31 Transorbital Techniques to Frontal Sinus Diseases, 212
- 32 Endoscopic Management of Mucoceles With Significant Orbital Involvement, 216
- 33 Endoscopic Orbital Fracture Repair, 221

**PART 7: Intracranial/Skull Base Surgery and the Optic Apparatus, 227**

- 34 Surgical Anatomy of the Optic Nerves and Chiasm, 228
- 35 Transcranial Approaches to the Optic Apparatus, 233
- 36 Endoscopic Endonasal Approaches to the Optic Apparatus: Technique and Pathology, 249
- 37 Reconstructive Techniques in Endoscopic Skull Base and Orbital Surgery, 259
- 38 Transorbital Endoscopic and Neuroendoscopic Surgery, 267
- 39 Complications in Endoscopic Skull Base Surgery, 276
- 40 Neuromonitoring in Endoscopic Skull Base

Surgery, 281  
**Index, 288**
