

1. Effectiveness of Histocompatibility Matching in High-Risk Corneal Transplantation
2. Topical Corticosteroids for Herpes Simplex Stromal Keratitis
3. Topical Corticosteroids for Bacterial Keratitis
4. Topical Natamycin versus Voriconazole for Fungal Corneal Ulcer
5. Prevalence of Age-Related Lens Opacities in a Population
6. Risk Factors for Cataract
7. High-Dose Supplementation with Vitamins C and E and Beta Carotene for Age-Related Cataract and Vision Loss
8. Routine Preoperative Medical Testing Before Cataract Surgery.
9. Prophylaxis of Postoperative Endophthalmitis Following Cataract Surgery
10. The Relationship Between Optic Disc Area and Open-Angle Glaucoma
11. Is argon laser trabeculoplasty equivalent to topical medication as an initial treatment for primary open-angle glaucoma?
12. Intraocular Pressure Reduction in the Treatment of Normal-Tension Glaucoma
13. The Relationship Between Control of Intraocular Pressure after Surgical Intervention for Glaucoma and Visual Field Deterioration
14. Reduction of intraocular pressure and glaucoma progression
15. Topical ocular hypotensive medication to delay or prevent the onset of primary open-angle glaucoma
16. Intraocular Pressure Control and Long-Term Visual Field Loss in Open-Angle Glaucoma
17. Latanoprost for Open-Angle Glaucoma
18. Tube Shunt Surgery Versus Trabeculectomy in Eyes with Prior Ocular Surgery and Uncontrolled Glaucoma
19. Pooled Data Analysis of the Ahmed Baerveldt Comparison Study and the Ahmed Versus Baerveldt Study
20. Risk Factors for Branch and Central Retinal Vein Occlusion
21. Argon Laser Photocoagulation for Macular Edema in Branch Vein Occlusion
22. Intraocular Injections of Ranibizumab in Patients With Macular Edema Following Branch Retinal Vein Occlusion
23. Grid Pattern Photocoagulation for Macular Edema in Central Vein Occlusion
24. Steroids in the Treatment of Central Retinal Vein Occlusion
25. Cryotherapy for Retinopathy of Prematurity
26. Supplemental Therapeutic Oxygen for Pre-Threshold Retinopathy of Prematurity
27. Early Treatment of Prethreshold Retinopathy of Prematurity
28. Intravitreal Bevacizumab for Stage 3+ Retinopathy of Prematurity
29. Photocoagulation for Diabetic Macular Edema
30. Early Photocoagulation for Diabetic Retinopathy
31. Does Pars Plana Vitrectomy Improve Visual Outcomes in Patients with Complications of Proliferative Diabetic Retinopathy
32. Intensive Diabetes Management to Reduce the Risk of Retinopathy Developing or Progressing
33. Progression of retinopathy and vision loss related to tight blood pressure control in type 2 diabetes mellitus
34. Immediate Vitrectomy and Intravenous Antibiotics for the Treatment of Postoperative Bacterial Endophthalmitis

35. Prevalence of Age-Related Maculopathy
36. Does high-dose supplementation with vitamins C and E, beta carotene, and zinc slow the progression of age-related macular degeneration and vision loss?
37. Argon laser photocoagulation for extrafoveal neovascular maculopathy
38. Photodynamic Therapy of Subfoveal Choroidal Neovascularization in Age-related Macular Degeneration with Verteporfin
39. Pegaptanib for Neovascular Age-Related Macular Degeneration
40. Ranibizumab for Neovascular Age-Related Macular Degeneration
41. Ranibizumab and Bevacizumab for Neovascular Age-Related Macular Degeneration
42. Effect of Pre-Enucleation Radiation on Mortality in Large Choroidal Melanomas
43. Systemic Anti-Inflammatory Therapy versus Fluocinolone Acetonide
44. Botulinum A Toxin Injection into Extraocular Muscles as an Alternative to Strabismus Surgery
45. Botulinum A Toxin Injection as a Treatment for Blepharospasm
46. A Clinical Activity Score That Discriminates Between Inflammatory and Non-Inflammatory Graves' Ophthalmopathy
47. Corticosteroids in the Treatment of Acute Optic Neuritis
48. Atropine or Patching for Treatment of Moderate Amblyopia in Children
49. Contact Lens vs Intraocular Lens Correction of Monocular Aphakia During Infancy
50. Effect of Acetazolamide on Visual Function in Patients With Idiopathic Intracranial Hypertension and Mild Visual Loss
