Foreword *ix*

About the Companion Website *xi*

1 Principles of Surgery *1*

- 1.1 Wound Healing *2*
- 1.1.1 Haemostasis *2*
- 1.1.2 Inflammatory Phase *4*
- 1.1.3 Proliferative Phase *4*
- 1.1.4 Remodelling and Resolution *4*
- 1.2 Patient Assessment *4*
- 1.3 Radiographic Assessment *5*
- 1.4 Informed Consent *7*
- 1.5 Anaesthesia *7*
- 1.6 Preparation of Equipment *9*
- 1.7 The Surgeon's Preoperative Checklist *10*
- 1.8 Operative Note *12*

2 Local Anaesthesia *15*

- 2.1 Principles of Anaesthesia *16*
- 2.2 Mechanism of Action *16*
- 2.3 Common Local Anaesthetic Preparations *18*
- 2.4 Side Effects and Toxicity *19*
- 2.4.1 Local Risks *19*
- 2.4.2 Systemic Risks *19*
- 2.5 Basic Oral Anaesthesia Techniques *19*
- 2.5.1 Buccal Infiltration Anaesthetic *20*
- 2.5.2 Mandibular Teeth *21*
- 2.5.2.1 Conventional 'Open-Mouth' Technique *22*
- 2.5.2.2 Akinosi 'Closed-Mouth' Technique *23*
- 2.5.2.3 Gow-Gates Technique *23*
- 2.5.2.4 Mandibular Long Buccal Block *24*
- 2.5.2.5 Mental Nerve Block *25*
- 2.5.3 Maxillary Teeth *26*
- 2.5.3.1 Greater Palatine Block *27*

- 2.5.3.2 Palatal Infiltration 28
- 2.5.3.3 Nasopalatine Nerve Block 29
- 2.5.3.4 Posterior Superior Alveolar Nerve Block 29
- 2.6 Adjunct Methods of Local Anaesthesia 30
- 2.6.1 Intraligamentary Injection 30
- 2.6.2 Intrapulpal Injection 31
- 2.7 Troubleshooting 32

3 Basic Surgical Instruments 35

- 3.1 Retractors 35
- 3.2 Elevators, Luxators, and Periotomes 37
- 3.3 Dental Extraction Forceps 40
- 3.4 Ancillary Soft Tissue Instruments 44
- 3.5 Suturing Instruments 47
- 3.6 Surgical Suction 49
- 3.7 Surgical Handpiece and Bur 50
- 3.8 Surgical Irrigation Systems 51
- 3.9 Mouth Props 53

4 Simple Extraction Techniques 55

- 4.1 Maxillary Incisors 55
- 4.2 Maxillary Canines 57
- 4.3 Maxillary Premolars 58
- 4.4 Maxillary First and Second Molars 59
- 4.5 Mandibular Incisors 61
- 4.6 Mandibular Canines and Premolars 62
- 4.7 Mandibular Molars 64

5 Surgical Extraction Techniques 67

- 5.1 General Principles of Surgical Extraction 68
- 5.2 Practical Aspects of Surgical Extraction 69
- 5.3 Common Soft Tissue Flaps for Dental Extraction 70
- 5.4 Bone Removal 73
- 5.5 Tooth Sectioning 74
- 5.6 Cleanup and Closure 75

6 Intraoperative Complications 79

- 6.1 Lip Burns and Lacerations 79
- 6.2 Damage to Adjacent Teeth or Restorations 80
- 6.3 Mandible Fracture 81
- 6.4 Tooth Aspiration or Ingestion 81
- 6.5 Instrument Fracture 82
- 6.6 Intraoperative Bleeding 82
- 6.7 Oroantral Communication 83
- 6.8 Dentoalveolar Fracture 84

7 Third Molar Surgery 87

- 7.1 Treatment Planning of Impacted Third Molars 87
- 7.2 Difficulty Assessment and Preoperative Workup 89

- 7.3 Radiographic Assessment of Inferior Alveolar Nerve Risk 91
- 7.4 Surgical Approach to Third Molars 91
 - 7.4.1 Maxillary Third Molars 91
 - 7.4.1.1 Erupted 91
 - 7.4.1.2 Unerupted/Partially Erupted 92
 - 7.4.2 Mandibular Third Molars 93
 - 7.4.2.1 Mesioangular 93
 - 7.4.2.2 Distoangular/Vertical 93
 - 7.4.2.3 Horizontal 95
 - 7.4.2.4 Full Bony Impaction (Early Root Development) 99
 - 7.4.2.5 Buccolingual/Other Impactions 99

8 Management of the Medically Compromised Patient 101

- 8.1 Ischaemic Cardiovascular Disease 102
- 8.2 Patients with a History of Infective Endocarditis 102
- 8.3 Hypertension 103
- 8.4 Medication-Related Osteonecrosis of the Jaws 103
- 8.5 Diabetes Mellitus 107
- 8.6 Increased Bleeding Risk 108
 - 8.6.1 Bleeding Diatheses 108
 - 8.6.2 Medications 109
 - 8.6.2.1 Management of Antiplatelet Agents Prior to Dentoalveolar Surgery 110
 - 8.6.2.2 Management of Patients Taking Warfarin Prior to Dentoalveolar Surgery 110
 - 8.6.2.3 Management of Patients Taking Direct Anticoagulant Agents Prior to Dentoalveolar Surgery 110
- 8.7 Adrenal Suppression 110
- 8.8 The Irradiated Patient 112
 - 8.8.1 Management of the Patient with a History of Head and Neck Radiotherapy 113
- 8.9 Hepatic or Renal Impairment 113
- 8.10 Pregnancy and Lactation 114

9 Postoperative Care and Late Complications 115

- 9.1 Immediate Postoperative Period 115
- 9.2 Postoperative Instructions 116
- 9.3 Postoperative Medications 116
- 9.4 24-Hour On-Call Service and Tertiary Hospital Referral 117
- 9.5 Management of Late Complications 117
 - 9.5.1 Alveolar Osteitis 117
 - 9.5.2 Acute Facial Abscess 118
 - 9.5.3 Postoperative Haemorrhage 119
 - 9.5.4 Temporomandibular Joint Disorder 119
 - 9.5.5 Epulis Granulomatosa 120
 - 9.5.6 Nerve Injury 121

Appendix A Special Cases: Common Indications for Surgical Extraction 123

Appendix B Extraction of Deciduous Teeth 127
