

## **Section 1: Phenomenological characteristics and dimensional conceptualization of psychosis**

1. Conceptualization of psychosis in psychiatric nosology: past, present and the future  
Matcheri S. Keshavan, John Torous, Rajiv Tandon
2. Historical epistemology of the "unitary psychosis"  
German E. Berríos, Ivana S. Marková
3. Dimensional conceptualization of psychosis  
Kürsat Altınbaş, Sinan Guloksuz, and Jim van Os  
Transdiagnostic dimensions of psychosis
4. Applying Research Domain Criteria (RDoC) Dimensions to psychosis  
Sarah E. Morris, Jennifer Pacheco, Charles A. Sanislow
5. Schizophrenia, Schizoaffective disorder, Bipolar Disorder  
Barrett Kern, Sarah K. Keedy
6. Psychotic symptoms in bipolar disorder  
Marsal Sanches, Xiang-Yang Zhang, and Jair C. Soares
7. Major depressive disorder with psychotic features: confronting and resolving the dimensional challenge  
John L. Waddington, Tara Kingston, Nnamdi Nkire, Vincent Russell
8. Psychosis in Personality Disorders  
Nidhi Kapil-Pair, Yulia Landa, Marie C. Hansen, Daniel H. Vaccaro, Marianne Goodman
9. Symptom network models of psychosis  
Adela-Maria Isvoranu, Lindy-Lou Boyette, Sinan Guloksuz, Denny Borsboom  
Psychosis in general medical conditions and organic brain disorders
10. Organic psychosis: phenotypic deviants or clues to schizophrenia?  
Peter Buckley, Brian Miller
11. Epilepsy and psychosis  
Michael R. Trimble, Kousuke Kanemoto, Dale C. Hesdorffer
12. Understanding sex differences in psychosis through the exploration of hormonal contributions  
Leah H. Rubin

## **Section 2: Psychosis course and lifetime manifestations**

- Early Psychosis
13. Clinical phenomenology of the prodrome for psychosis  
Albert R. Powers III, Thomas H. McGlashan, Scott W. Woods
  14. Predictors of conversion to psychosis  
Rachael G. Grazioplene, Tyrone D. Cannon
  15. First-episode psychosis: phenomenology, onset, course and early intervention (OPUS)  
Merete Nordentoft, Nikolai Albert
  16. Evidence based treatment and implementation for early psychosis  
Sacha Zilkha, Iruma Bello, Hong Ngo, Samantha Jankowski, Lisa Dixon  
Psychosis Over Life Span and Late-Life Psychosis
  17. Life span development of schizophrenia: symptoms, clinical course and outcomes  
Matt Isohanni, Jouko Miettunen, Matti Penttilä
  18. Phenomenological characteristics of psychosis of aging: psychosis and dementia interphase  
Graham M.L. Eglit, Barton W. Palmer, Dilip V. Jeste

### **Section 3: Neurobiology of psychosis**

#### Heritability and Genetics

19. Genetic neuropathology revisited: gene expression in psychosis  
Samuel J. Allen; Rahul Bharadwaj,, Thomas M. Hyde, Joel E. Kleinman
20. Epigenomic regulation in psychosis  
Bibi S. Kassim, Behnam Javidfar, Schahram Akbarian
21. DNA modifications in schizophrenia  
Ehsan Pishva, Bart P. F. Rutten, Jonathan Mill
22. Endophenotypes: a window on the genetics of schizophrenia  
David Braff

#### *Cognitive Biomarkers of psychosis*

23. Cognitive biomarkers of psychosis  
S. Kristian Hill, Richard S.E. Keefe, John A. Sweeney
  24. Social cognition in psychosis  
Amy E. Pinkham, David L. Roberts
  25. Self-awareness in schizophrenia: affected domains and their impact  
Juliet M. Silberstein, Amy E. Pinkham, Philip D. Harvey
- #### Neurophysiologic biomarkers of psychosis
26. Neurophysiologic biomarkers of psychosis: Event-related potential biomarkers  
Judith M. Ford, Holly K. Hamilton, Katiah Llerena, Brian J. Roach, Daniel H. Mathalon
  27. Oculomotor biomarkers of illness, risk, and pharmacogenetic treatment effects across the psychosis spectrum  
James L Reilly, Jennifer McDowell, Jeffrey Bishop, Andreas Sprenger, Rebekka Lencer

#### Brain imaging biomarkers

28. Structural connectivity in psychosis  
Amanda E. Lyall, Johanna Seitz, Marek Kubicki
29. Functional connectivity biomarkers of psychosis  
Godfrey Pearlson, Michael Stevens
30. MR Spectroscopy  
Adrienne C. Lahti, Nina V. Kraguljac

#### Pathophysiology of Psychosis: Neurotransmitters

31. Dopaminergic mechanisms underlying psychosis  
Oliver Howes & Michael Bloomfield
32. Glutamate in the pathophysiology of schizophrenia  
Daniel C. Javitt
33. GABAergic Mechanisms in Psychosis  
Takanori Hashimoto, David A Lewis
34. Alteration in nicotinic receptors in psychotic disorders: molecular neurobiology and clinical relevance  
Robert Freedman
35. Muscarinic acetylcholine receptors in the etiology and treatment of schizophrenia  
M.S. Moehle, S. E. Yohn, and P. J. Conn
36. Kynurenic acid in brain function and dysfunction: focus on the pathophysiology and treatment of schizophrenia  
Robert Schwarcz and Sophie Erhardt

Pathophysiology: Voltage-gated ion channels in psychosis

37. Genetic Association of Voltage-gated Ion Channels with Psychotic Disorders

Charles H Large

38. Voltage-gated Ion channels in neural circuits implicated in psychotic disorders

Charles H Large

Pathophysiology: Immune Mechanisms

39. Inflammatory mechanisms in psychosis

Anna P. McLaughlin, Carmine M. Pariante, Valeria Mondelli

40. Autoimmune processes in mental disorders

Marina Mané-Damas, Carolin Hoffmann, Shenghua Zong, Peter C. Molenaar, Mario Losen, Pilar Martinez-Martínez

Brain circuit alterations in psychosis

41. The circuitry of midbrain dopamine system dysregulation in schizophrenia

Felipe V. Gomes, Eric C. Zimmerman, Anthony A. Grace

42. Feeling and remembering: effects of psychosis on the structure and function of the amygdala and hippocampus

M.D. Bauman, J.D. Ragland, C.M. Schumann

43. The cerebellum in psychosis

Kelsey Heslin, Joe Shaffer, Albert Powers, Nancy Andreasen, and Krystal Parker

#### **Section 4: Socio-environmental mechanistic factors in psychosis**

Early life adversity

44. Perinatal factors in psychosis

Mary Clarke, Mary Cannon

45. The role of early life experience in psychosis

Richard P. Bentall

46. Socio-environmental adversity across the life span

Peter Bosanac, David Castle

47. Migration, ethnicity, and psychoses

Craig Morgan

Psychological mechanisms and psychosis

48. Cognitive and emotional processes in psychosis

Steffen Moritz, Thies Lüdtkke, Lukasz Gaweda, Jakob Scheunemann, and Ryan P. Balzan

49. Aberrant salience attribution and psychosis

Toby T. Winton- Brown and Shitij Kapur

Neural correlates of socio-environmental risk and psychosis

50. Neural correlates of childhood trauma

Alaptagin Khan, Kyoko Ohashi, Maria Maierd, Martin H. Teicher

51. Neural correlates of urban risk environments

Imke L.J. Lemmers-Jansen, Anne-Kathrin J. Fett, Lydia Krabbendam

52. Neural correlates of ethnic minority position and risk for psychosis

Jean-Paul Selten, Jan Booij, Bauke Buwalda, Andreas Meyer-Lindenberg

53. Resilience in psychosis spectrum disorder

Lotta-Katrin Pries, Sinan Guloksuz, Bart P. F. Rutten

## **Section 5: Treatment of psychotic disorders**

### Pharmacological Treatments

#### 54. Pharmacological approaches to treatment

Stefan Leucht, Andrea Cipriani, Toshi A. Furukawa

#### 55. Animal models of psychosis: approaches and validity

Daniel Scott

### Psychological treatments in psychosis

#### 56. Psychoanalytic treatment of psychosis

Elyn R. Saks

#### 57. Cognitive-behavioral therapy

Tania Lincoln, Alison Brabban

#### 58. Psychoeducation as an approach to treatment of severe mental illness

Emma Sophia Kay, David E. Pollio, Carol S. North

#### 59. Family Interventions in psychosis

Juliana Onwumere, Elizabeth Kuipers

#### 60. Peer support for people with psychiatric illness: A comprehensive review

Chyrell D. Bellamy, Anne S. Klee, Xavier Cornejo, Kimberly Guy, Mark Costa, Larry Davidson

#### 61. Mind-body approaches, mindfulness

Louise Johns, Mark Hayward, Clara Strauss, Eric Morris

#### 62. Hearing voices groups

Alison Branitsky, Eleanor Longden and Dirk Corstens

#### 63. AVATAR Therapy: a new digital therapy for Auditory Verbal Hallucinations

Tom K.J. Craig, Mar Rus-Calafell

#### 64. Health in a connected world

Philippe Delespaul and Catherine van Zelst

#### 65. Recovery-oriented services

Mike Slade, Eleanor Longden, Julie Repper, Samson Tse

### Cognitive Remediation and Other Approaches

#### 66. Neuroscience-informed cognitive training for psychotic spectrum illnesses

Sophia Vinogradov, Rana Elmaghraby, Laura Pientka

#### 67. Cognitive remediation: theory, meta-analytic evidence, and practice

Til Wykes and Adam Crowther

#### 68. Noninvasive brain stimulation techniques in psychosis

Marine Mondino, Frédéric Haesebaert, Jérôme Brunelin

### Early interventions

#### 69. Treatment approaches in the psychosis prodrome

Andrea M. Auther and Barbara A. Cornblatt

#### 70. From early intervention in psychosis to transformation of youth mental health reform

Ashok Malla, Patrick McGorry

## **Section 6: Future directions and opportunities**

#### 71. Future directions: making a start towards the primary prevention of psychosis

Robin M Murray, Olesya Ajnakina and Marta Di Forti

#### 72. A glimpse forward regarding psychopathology of psychotic disorders

William T. Carpenter

73. Time for change in psychosis research  
Brett A. Clementz
