

## Contents

	<b>About the Author</b>	<i>xi</i>
	<b>List of Contributors</b>	<i>xiii</i>
	<b>Preface</b>	<i>xv</i>
	<b>Acknowledgement</b>	<i>xvii</i>
<b>1</b>	<b>Laser Fundamental Principles</b>	<b>1</b>
	<i>Georgios E. Romanos</i>	
1.1	Historical Background	3
1.2	Energy Levels and Stimulated Emission	3
1.3	Properties of the Laser Light	3
1.4	The Laser Cavity	4
1.4.1	Active Medium	4
1.4.2	Pumping Mechanism	5
1.4.3	Lenses – Resonator	5
1.5	Laser Application Modes	5
1.5.1	Beam Profiles	7
1.6	Delivery Systems	7
1.6.1	Direct Coupling	7
1.6.2	Articulated Arms	7
1.6.3	Fiber Systems and Flexible Hollow Guides	8
1.7	Applicators	9
1.7.1	Handpieces	9
1.7.2	Fiber Applicators	10
1.8	Laser Types Based on the Active Medium	11
1.8.1	Gas Lasers	11
1.8.2	Crystal Lasers	14
1.8.3	Liquid (Dye) Lasers	17
1.8.4	Semiconductor (Diode) Lasers	17
1.8.5	New Developments in Laser Technology	19
1.8.6	Lasers for Research Applications	24
1.9	Laser and Biological Tissue Interactions	24
1.9.1	Photochemical Effects	27
1.9.2	Photothermal Effects	29
1.9.3	Ionizing or Nonlinear Effects	33
<b>2</b>	<b>Lasers and Wound Healing</b>	<b>41</b>
	<i>Georgios E. Romanos</i>	
2.1	Introduction	41
2.2	Wound Healing and Low Power Lasers	42
2.3	Wound Healing and High-Power Lasers	44
2.3.1	Wound Healing and CO <sub>2</sub> Laser	44
2.3.2	Wound Healing and the Nd:YAG Laser	47

- 2.3.3 Wound Healing and Other Laser Wavelengths 50
- 2.4 Lasers and Bone Healing 51
  
- 3 Lasers in Oral Surgery 57**  
*Georgios E. Romanos*
- 3.1 Introduction 57
- 3.2 Basic Principles 57
- 3.3 Excision Biopsies 58
- 3.4 Removal of Benign Soft Tissue Tumors 59
  - 3.4.1 Surgical Protocol for Removal of Small Tumors 59
  - 3.4.2 Surgical Protocol for Removal of Larger Soft Tissue Tumors 62
- 3.5 Removal of Drug-Induced Gingival Hyperplasias and Epulides 80
  - 3.5.1 Removal of Drug-Induced Gingival Hyperplasias 80
  - 3.5.2 Removal of Epulides 81
- 3.6 Removal of Soft Tissue Cysts 83
- 3.7 Frenectomies and Vestibuloplasties 87
  - 3.7.1 Frenectomies 87
  - 3.7.2 Vestibuloplasties 92
- 3.8 Removal of Precancerous Lesions (Leukoplakia) 99
- 3.9 Surgical Removal of Malignant Soft Tissue Tumors 106
- 3.10 Laser Coagulation 106
- 3.11 Lasers in Vascular and Pigmented Lesions 107
  - 3.11.1 Laser Types 107
  - 3.11.2 Removal of Vascular Alterations with the “Ice Cube” Method 108
- 3.12 Exposure of Impacted, Unerupted Teeth 121
  - 3.12.1 Exposure of an Unerupted Teeth for Orthodontic Reasons 122
- 3.13 Removal of Sialoliths Using the Laser 123
  
- 4 Lasers and Bone Surgery 129**  
*Georgios E. Romanos*
- 4.1 Introduction 129
- 4.2 CO<sub>2</sub> Laser 129
- 4.3 Excimer Laser 130
- 4.4 Er:YAG and Ho:YAG Lasers 130
- 4.5 Laser Systems for Clinical Dentistry 131
  
- 5 Lasers in Periodontology 139**  
*Georgios E. Romanos*
- 5.1 Introduction 139
- 5.2 Laser-Assisted Bacteria Reduction in Periodontal Tissues 140
- 5.3 Removal of Subgingival Calculus 142
- 5.4 Removal of Pocket Epithelium 144
- 5.5 Retardation of the Epithelial Downgrowth 149
- 5.6 Laser Application in Gingivectomy and Gingivoplasty 152
- 5.7 Laser-Assisted Hemostasis in Periodontics 154
- 5.8 Photodynamic Therapy in Periodontology 156
- 5.9 Gingival Troughing for Prosthetic Restorations 165
- 5.10 Fractional Photothermolysis in Periodontology 165
- 5.11 Education and Future of Lasers in Periodontal Therapy 178
  
- 6 Lasers and Implants 185**  
*Georgios E. Romanos*
- 6.1 Introduction 185
- 6.2 Laser-Assisted Surgery Before Implant Placement and Implant Exposure 185

6.3	Laser Application During Function	187
6.4	Laser Applications in Peri-implantitis Treatment	188
6.5	Recent Laser Research on Implants	199
6.6	Implant Removal	204
6.7	Laser-Assisted Implant Placement	204
6.8	Future of Laser Dentistry in Oral Implantology	204
<b>7</b>	<b>Photodynamic Therapy in Periodontal and Peri-Implant Treatment</b>	<b>209</b>
	<i>Anton Sculean and Georgios E. Romanos</i>	
7.1	Biological Rationale	209
7.2	Use of PDT as an Alternative to Systemic or Local Antibiotics	211
7.3	Conclusions	212
<b>8</b>	<b>Understanding Laser Safety in Dentistry</b>	<b>215</b>
	<i>Vangie Dennis, Patti Owens and Georgios E. Romanos</i>	
8.1	Laser Safety	215
8.2	International Laser Standards	215
8.3	Regulatory Agencies and Nongovernmental Organizations	215
8.3.1	Food and Drug Administration	215
8.3.2	FDA Center for Devices and Radiological Health	216
8.3.3	American National Standards Institute	216
8.3.4	Occupational Safety and Health Administration	216
8.4	State Regulations	218
8.5	Nongovernmental Controls and Professional Organizations	218
8.5.1	American Society for Lasers in Medicine and Surgery	218
8.5.2	Association of periOperative Registered Nurses (AORN)	218
8.6	The Joint Commission (TJC)	218
8.7	Standards and Practice	218
8.7.1	Laser Safety Officer	218
8.8	Hazard Evaluation and Control Measures	219
8.9	Administrative Controls	219
8.10	Procedural and Equipment Controls	219
8.11	Laser Treatment Controlled Area	220
8.12	Maintenance and Service	221
8.13	Beam Hazards	221
8.13.1	Eye Protection	221
8.13.2	Skin Protection	223
8.14	Laser Safety and Training Programs	223
8.15	Medical Surveillance	223
8.16	Nonbeam Hazards	223
8.17	Electrical Hazards	224
8.18	Smoke Plume	224
8.19	Fire and Explosion Hazards	224
8.20	Shared Airway Procedures	225
8.21	Conclusion	226
	<b>Appendix A: Suggested Reading</b>	<b>227</b>
	<b>Appendix B: Physical Units, Laser Parameters, Physical Parameters, Important Formulas</b>	<b>229</b>
	<b>Index</b>	<b>231</b>
