Foreword	x
Preface	xi
Contributors	xii
Part I Science and Principles	
1 Wound Healing: Science and Clinical Relevance	2
<i>Aditya Sood, Jonathan Keith, and Mark S. Granick</i>	
2 Hand and Upper Extremity Anatomy	9
<i>Loretta Coady-Fariborzian and Winston Richards</i>	
3 Anatomy of the Lower Extremity	18
<i>Mario Rueda, Steven Rueda, Brendan Alleyne, Richard L. Drake, and Raffi Gurunluoglu</i>	
4 Anatomy of the Trunk	30
<i>Mario Rueda, Steven Rueda, Brendan Alleyne, Richard L. Drake, and Raffi Gurunluoglu</i>	
5 Surgical Principles: Grafts, Flaps, Microsurgery	40
<i>Mark Leyngold and Adam J. Katz</i>	
6 Principles of Facial Aesthetics	48
<i>Krishna S. Vyas and Henry C. Vasconez</i>	
7 Lasers and Radiant Energy in Plastic Surgery	68
<i>Richard Gregory</i>	
Part II Skin and Soft Tissue	
8 Burn and Thermal Injury	78
<i>Steven J. Hermiz, Paul Diegidio, and C. Scott Hultman</i>	
9 Skin Cancer	93
<i>Lauren C. Nigro, Shuhao Zhang, Maryann E. Martinovic, and Andrea L. Pozez</i>	
10 Hidradenitis Suppurativa, Necrotizing Fasciitis, and Soft Tissue Infections	104
<i>J. Blair Summitt, Yee Cheng Low, and Nishant Ganesh Kumar</i>	
11 Pressure Ulcers	112
<i>Noah H. Prince, Rachel Cohen-Shohet, and Bruce A. Mast</i>	
Part III Pediatric Plastic Surgery	
12 Cleft Lip Deformity	122
<i>Ashley K. Lentz</i>	

Contents

13	Cleft Palate Repair by Double Opposing Z-Plasty	127
	<i>Leonard T. Furlow Jr.</i>	
14	Craniosynostosis	135
	<i>Jessica A. Ching and John H. Phillips</i>	
15	Ear Reconstruction and Otoplasty	144
	<i>Stephanie Suprenant, Ruston Sanchez, and Timothy W. King</i>	
16	Nevi and Vascular Malformations	156
	<i>Christopher J.M. Brooks</i>	
Part IV Craniofacial		
17	Reconstruction of the Scalp and Forehead	164
	<i>Edward A. Luce</i>	
18	Nasal Reconstruction	181
	<i>Patrick J. Buchanan, William J. Campbell, and Bruce A. Mast</i>	
19	Facial Fractures	188
	<i>Russell Walther, Luke Pearson, Sushmita Mittal and Dhruv Singhal</i>	
20	Rhinoplasty	203
	<i>Geo N. Tabbal and Alan Matarasso</i>	
21	Browlift and Blepharoplasty	215
	<i>Jorge de la Torre and Cristiano Boneti</i>	
22	Face and Neck Rejuvenation	224
	<i>Ahmed M. Hashem, Rafael A. Couto, Cagri Cakmakoglu, Eliana F. R. Duraes, and James E. Zins</i>	
23	Facial Rejuvenation with Injectables	247
	<i>Lynn A. Damitz</i>	
Part V Hand and Upper Extremity		
24	Hand Fractures	256
	<i>Lisa M. Block and A. Neil Salyapongse</i>	
25	Soft-Tissue Reconstruction of the Hand and Upper Extremity	268
	<i>Wendy Lynne Czerwinski and Robert A. Weber</i>	
26	Tendon Repair	275
	<i>Brian D. Rinker</i>	
27	Nerve Compression Syndromes of the Upper Extremity	286
	<i>Loretta Coady-Fariborzian and Winston Richards</i>	
28	Replantation and Amputation of Fingers	295
	<i>Michael Friel and William C. Lineaweaver</i>	

Contents

29	Dupuytren's and Trigger Finger	300
	<i>Chris McCarthy and Sonu A. Jain</i>	
Part VI Breast		
30	Breast Reduction	308
	<i>Rukmini S. Rednam and Bruce A. Mast</i>	
31	Mastopexy	319
	<i>Francesco M. Egro, Edward H. Davidson, and Kenneth C. Shestak</i>	
32	Breast Augmentation	333
	<i>Richard C. Baynosa, Andrew G. Silver, and Rachel I. Mason Weber</i>	
33	Breast Reconstruction with Devices	342
	<i>Daniel F. Haynes</i>	
34	Breast Reconstruction with Free Flaps	350
	<i>Nasim Abedi and Steven L. Bernard</i>	
35	Breast Reconstruction Using the Latissimus Dorsi Myocutaneous Flap	360
	<i>Galen Perdakis and Stephanie L. Koonce</i>	
36	Oncoplastic Breast Surgery	365
	<i>Albert Losken and Alexandra M. Hart</i>	
37	Tuberous Deformity of the Breast (Breast Implantation Base Constriction)	374
	<i>Manuel R. Vegas and José L. M. del Yerro</i>	
38	Poland Syndrome	387
	<i>Patrick J. Buchanan and Bruce A. Mast</i>	
39	Gynecomastia	395
	<i>Brandon K. Richland, Emil J. Kohan, and Gregory R.D. Evans</i>	
Part VII Chest, Trunk, and Lower Extremity Reconstruction		
40	Sternal Reconstruction	404
	<i>R. Brad Nesmith, Zachary T. Young, and Adam J. Katz</i>	
41	Abdominal Wall Reconstruction	412
	<i>Gregory A. Dumanian and Bruce A. Mast</i>	
42	Lower Extremity Reconstruction	421
	<i>Mark M. Leyngold</i>	
Part VIII Body Contouring		
43	Liposuction	430
	<i>Julian Winocour, John Layliev, Han Shi, Varun Gupta, and Kent K. Higdon</i>	
44	Abdominoplasty	442
	<i>Bruce A. Mast</i>	

Contents

45	Lower Body Lift	451
	<i>Paul N. Afrooz and Jeffrey A. Gusenoﬀ</i>	
46	Brachioplasty	459
	<i>J. Peter Rubin</i>	
47	Thigh Lift and Reduction	468
	<i>Paul A. Ghareeb, Alexandra M. Hart, and Felmont F. Eaves</i>	
	Index	473

Videos

- Video 1:** Abdominoplasty. (Courtesy: Bruce A. Mast)
- Video 2:** Marking superior medical pedicle and infiltrating tumescent solution into the skin to be de-epithelialized and the breast parenchyma. (Courtesy: Rukmini S. Rednam and Bruce A. Mast)
- Video 3:** Skin overlying the pedicle has been de-epithelialized. Next step is tissue dissection, isolating the pedicled nipple complex and mobilizing the tissue to be excised. (Courtesy: Rukmini S. Rednam and Bruce A. Mast)
- Video 4:** The mobilized tissue is removed, starting medially and continuing laterally. The pedicle and lateral breast pillar are not undercut. (Courtesy: Rukmini S. Rednam and Bruce A. Mast)
- Video 5:** Inset of nipple complex and approximation of the vertical incision line. (Courtesy: Rukmini S. Rednam and Bruce A. Mast)
- Video 6:** Approximation of the medial and lateral breast pillars, followed by inframammary incision line approximation. (Courtesy: Rukmini S. Rednam and Bruce A. Mast)
- Video 7:** Exposure of pulley system in thumb and retrieval of severed flexor pollicis longus tendon. (Courtesy: Brian D. Rinker)
- Video 8:** Placement of suture in distal tendon segment. (Courtesy: Brian D. Rinker)
- Video 9:** Further core suture placement in tendon repair. (Courtesy: Brian D. Rinker)
- Video 10:** Tendon being approximated with tied-down sutures and demonstration of glide within tendon sheath. (Courtesy: Brian D. Rinker)
- Video 11:** After epitendinous repair. (Courtesy: Brian D. Rinker)
- Video 12:** Exposure and dissection of gracilis muscle for free tissue transfer. (Courtesy: Mark M. Leyngold)
- Video 13:** Full dissection of gracilis muscle for free tissue transfer, demonstrating vascular pedicle and surrounding structures. (Courtesy: Mark Leyngold)
- Video 14:** Random chest flap: soft reconstruction of the hand and upper extremity: Part I. (Courtesy: Wendy Lynne Czerwinski and Robert A. Weber)
- Video 15:** Random chest flap: soft reconstruction of the hand and upper extremity: Part II. (Courtesy: Wendy Lynne Czerwinski and Robert A. Weber)
- Video 16:** Rhinoplasty. (Courtesy: Geo N. Tabbal and Alan Matarasso)
- Video 17:** Animation deformity in breast reconstruction patients. (Courtesy: Bruce A. Mast)
- Video 18:** Dual plane breast augmentation. (Courtesy: Bruce A. Mast)
- Video 19:** Endoscopic browlift. (Courtesy: Bruce A. Mast)
- Video 20:** Breast reconstruction with latissimus dorsi myocutaneous flap. (Courtesy: Bruce A. Mast)
- Video 21:** CTR: Endoscopic carpal tunnel release. (Courtesy: Harvey Chim)
- Video 22:** CuTR: Endoscopic cubital tunnel release. (Courtesy: Harvey Chim)
