

## **Volume One**

1. Ensuring Patient Safety in Surgery-First Do No Harm
2. Surgical Navigation with Intraoperative Imaging: Special Operating Room Concepts

### **Section One**

#### ***Surgical Management of Brain and Skull Base Tumors***

##### **Intra-Axial Brain Tumors**

3. Functional Tractography, Diffusion Tensor Imaging, Intraoperative Integration of Modalities, and Neuronavigation
4. Intraoperative Neurophysiology: A Tool to Prevent and/or Document Intraoperative Injury to the Nervous System
5. Gamma Knife Surgery for Cerebral Vascular Malformations and Tumors
6. Cortical and Subcortical Brain Mapping
7. Chemotherapy for Brain Tumors
8. Current Surgical Management of High-Grade Gliomas
9. Surgical Management of Low-Grade Gliomas
10. Management of Recurrent Gliomas
11. Tumors in Eloquent Areas of Brain
12. Management of Primary Central Nervous System Lymphomas
13. Surgical Management of Brain Stem Tumors in Adults
14. Cerebellar Tumors in Adults
15. Surgical Management of Cerebral Metastases

##### **Pituitary and Parapituitary Tumors**

16. Multimodal Assessment of Pituitary and Parasellar Lesions
17. Medical Management of Hormone-Secreting Pituitary Tumors
18. Growth Hormone-Secreting Tumors
19. Prolactinomas
20. Cushing's Disease
21. Endocrinologically Silent Pituitary Tumors
22. Endoscopic Endonasal Pituitary and Skull Base Surgery

23. Transcranial Surgery for Pituitary Macroadenomas
24. Craniopharyngiomas
25. Endoscopic Endonasal Approach for Craniopharyngiomas
26. Arachnoid, Suprasellar, and Rathke's Cleft Cysts

#### **Intraventricular Tumors**

27. Surgical Approaches to Lateral and Third Ventricular Tumors
28. Transcallosal Surgery of Lesions Affecting the Third Ventricle: Basic Principles
29. Endoscopic Approach to Intraventricular Brain Tumors
30. Management of Pineal Region Tumors
31. Management of Tumors of the Fourth Ventricle

#### **Extra-Axial and Posterior Tumors**

32. Surgical Management of Parasagittal and Convexity Meningiomas
33. Surgical Approach to Falcine Meningiomas
34. Surgical Management of Midline Anterior Skull Base Meningiomas
35. Supraorbital Approach Variants for Intracranial Tumors
36. Surgical Management of Sphenoid Wing Meningiomas
37. Spheno-Orbital Meningioma
38. Tumors Involving the Cavernous Sinus
39. Surgery for Trigeminal Neurinomas
40. Surgical Management of Petroclival Meningiomas
41. Surgical Management of Lesions of the Clivus
42. Surgical Management of Posterior Fossa Meningiomas
43. Surgical Management of Tumors of the Foramen Magnum
44. Surgical Management of Tumors of the Jugular Foramen

#### **Cerebellopontine Angle Tumors**

45. Suboccipital Retrosigmoid Surgical Approach for Vestibular Schwannoma (Acoustic Neuroma)
46. Translabyrinthine Approach to Vestibular Schwannomas
47. Transtemporal Approaches to Posterior Cranial Fossa
48. Surgical Management of Neurofibromatosis Types 1 and 2

49. Hearing Prosthetics: Surgical Techniques

### **Lesions at the Skull Base**

50. Multimodal Treatment of Orbital Tumors

51. Surgical Approaches to the Orbit<sup>603</sup>

52. Anterior Midline Approaches to the Skull Base

53. Orbitozygomatic Infratemporal Approach to Parasellar Meningiomas

### **Section Two**

#### ***Operative Techniques in Pediatric Neurosurgery***

54. Methods for Cerebrospinal Fluid Diversion in Pediatric Hydrocephalus: From Shunt to Scope

55. Posterior Fossa Tumors in the Pediatric Population: Multidisciplinary Management

56. Supratentorial Tumors in the Pediatric Population: Multidisciplinary Management

57. Mapping, Disconnection, and Resective Surgery in Pediatric Epilepsy

58. Surgical Decision-Making and Treatment Options for Chiari Malformations in Children

59. Fetal Surgery for Open Neural Tube Defects

60. Surgical Management of Spinal Dysraphism

61. Revascularization Techniques in Pediatric Cerebrovascular Disorders

62. Management of Pediatric Severe Traumatic Brain Injury

63. Contemporary Dorsal Rhizotomy Surgery for the Treatment of Spasticity in Childhood

64. Instrumentation and Stabilization of the Pediatric Spine: Technical Nuances and Age-Specific Considerations

65. Methods of Cranial Vault Reconstruction for Craniosynostosis

### **Section Three**

#### ***Vascular Diseases***

#### **Open Treatment**

66. Surgical Management of the Extracranial Carotid Artery Disease

67. Management of Dissections of the Carotid and Vertebral Arteries

68. Management of Unruptured Intracranial Aneurysms

69. Surgical Management of Intracerebral Hemorrhage

70. Surgical Management of Cerebellar Stroke-Hemorrhage and Infarction

71. Surgical Treatment of Moyamoya Disease in Adults
72. Surgical Treatment of Paraclinoid Aneurysms
73. Surgical Management of Posterior Communicating, Anterior Choroidal, Carotid Bifurcation Aneurysms
74. Surgical Management of Anterior Communicating and Anterior Cerebral Artery Aneurysms
75. Surgical Management of Aneurysms of the Middle Cerebral Artery
76. Surgical Management of Terminal Basilar and Posterior Cerebral Artery Aneurysms
77. Surgical Management of Midbasilar and Lower Basilar Aneurysms
78. Surgical Management of Aneurysms of the Vertebral and Posterior Inferior Cerebellar Artery Complex
79. Far Lateral Approach and Transcondylar and Supracondylar Extensions for Aneurysms of the Vertebrobasilar Junction
80. Surgical Management of Cranial Dural Arteriovenous Fistulas
81. Surgical Management of Cavernous Malformations of the Nervous System
82. Surgical Management of Infratentorial Arteriovenous Malformations
83. Surgical Management of Cerebral Arteriovenous Malformations

#### ***Endovascular Treatment***

84. Endovascular Management of Intracranial Aneurysms<sup>1019</sup>
85. Endovascular Treatment of Stroke
86. Endovascular Treatment of Cerebral Arteriovenous Malformations
87. Endovascular Treatment of Intracranial Occlusive Disease
88. Endovascular Treatment of Extracranial Occlusive Disease
89. Embolization of Tumors: Brain, Head, Neck, and Spine
90. Endovascular Management of Dural Arteriovenous Fistulas
91. Endovascular Management of Spinal Vascular Malformations
92. Endovascular Treatment of Head and Neck Bleeding
93. Imaging Evaluation and Endovascular Treatment of Vasospasm

#### **Section Four**

##### ***Hydrocephalus***

94. Surgical Management of Hydrocephalus in the Adult

95. Adult Pseudotumor Cerebri Syndrome
96. Endoscopic Third Ventriculostomy
97. Management of Shunt Infections

## **Section Five**

### ***Stereotactic Radiosurgery***

98. Interstitial and LINAC-Radiosurgery for Brain Metastases
99. Stereotactic Radiosurgery for Trigeminal Neuralgia
100. CyberKnife Radiosurgery for Spinal Neoplasms
101. Stereotactic Radiosurgery for Pituitary Adenomas
102. Radiation Therapy and Radiosurgery in the Management of Craniopharyngiomas
103. Vestibular Schwannomas: The Role of Stereotactic Radiosurgery
104. Stereotactic Radiosurgery Meningiomas
105. Role of Gamma Knife Radiosurgery in the Management of Arteriovenous Malformations
106. Radiation Therapy of Epilepsy
107. Gamma Surgery for Functional Disorders

## **Volume Two**

### **Section Six: Functional Neurosurgery**

#### ***Surgical Management of Medically Intractable Epilepsy***

108. Presurgical Evaluation for Epilepsy Including Intracranial Electrodes
109. Temporal Lobe Operations in Intractable Epilepsy
110. Surgical Management of Extratemporal Lobe Epilepsy
111. Multilobar Resection and Hemispherectomy in Epilepsy Surgery
112. Corpus Callosotomy: Indications and Techniques
113. Treatment of Intractable Epilepsy by Electrical Stimulation of the Vagus Nerve

#### ***Surgical Management of Psychiatric and Movement Disorders***

114. Deep Brain Stimulation in Movement Disorders: Parkinson's Disease, Essential Tremor, and Dystonia
115. Cervical Dystonia and Spasmodic Torticollis: Indications and Techniques
116. Novel Targets in Deep Brain Stimulation for Movement Disorders

- 117. Molecular Therapies for Movement Disorders
- 118. Cingulotomy for Intractable Psychiatric Illness
- 119. Deep Brain Stimulation for Intractable Psychiatric Illness
- 120. Brain-Computer Interfacing Prospects and Technical Aspects
- 121. Thoracoscopic Sympathectomy for Hyperhidrosis
- 122. Surgery for Intractable Spasticity

### ***Surgical Management of Intractable Pain***

- 123. Retrogasserian Glycerol Rhizolysis in Trigeminal Neuralgia
- 124. Percutaneous Stereotactic Rhizotomy in the Treatment of Intractable Facial Pain
- 125. Neurovascular Decompression in Cranial Nerves V, VII, IX, and X
- 126. Deep Brain Stimulation for Pain
- 127. Mesencephalic Tractotomy and Anterolateral Cordotomy for Intractable Pain
- 128. Spinal Cord Stimulation for Chronic Pain
- 129. Spinal Cord Stimulation and Intraspinal Infusions for Pain
- 130. Dorsal Root Entry Zone Lesions
- 131. Motor Cortex Stimulation for Intractable Facial Pain

### ***Section Seven***

#### **Trauma**

- 132. Perioperative Management of Severe Traumatic Brain Injury in Adults
- 133. Surgical Management of Severe Closed Head Injury in Adults
- 134. Management of Penetrating and Blast Injuries of the Nervous System
- 135. Decompressive Craniectomy for Traumatic Brain Injury
- 136. Management of Skull Base Trauma
- 137. Surgical Management of Chronic Subdural Hematoma in Adults
- 138. Management of Cerebrospinal Fluid Leaks
- 139. Principles of Scalp Surgery and Surgical Management of Major Defects of Scalp
- 140. Surgical Management of Major Skull Defects and Potential Complications
- 141. Management of Traumatic Intracranial Aneurysms
- 142. Management of Penetrating Brain Injury

## ***Section Eight***

### **Surgical Management of Nervous System Infections**

143. Management of Suppurative Intracranial Infections
144. Management of Infections After Craniotomy
145. Spinal Infections: Vertebral Osteomyelitis and Spinal Epidural Abscess
146. Neurosurgical Management of HIV-Related Focal Brain Lesions
147. Management of Neurocysticercosis
148. Management of Tuberculous Infections of the Nervous System
149. Fungal Infections of the Central Nervous System
150. Management of Intracranial Aneurysms Caused by Infection

## ***Section Nine: Neurosurgical Management of Spinal Disorders***

### **Degenerative Spine Disorder**

#### ***Cervical Spine***

151. Treatment Evolution in Management of Cervical Disc Disease
152. Anterior Cervical Foraminotomy (Jho Procedure): Microscopic or Endoscopic
153. Minimally Invasive Posterior Cervical Foraminotomy and Microdiscectomy
154. Disc Replacement Technologies in the Cervical and Lumbar Spine
155. Anterior Approaches for Multilevel Cervical Spondylosis
156. Management of Cervical Spondylotic Myelopathy
157. Cervical Laminoplasty: Indications and Techniques
158. Circumferential Cervical Spinal Fusion

#### ***Thoracic Spine***

159. Surgical Techniques in the Management of Thoracic Disc Herniations
160. Video-Assisted Thoracoscopic Discectomy: Indications and Techniques

#### ***Lumbar Spine***

161. Lumbar Microdiscectomy: Indications and Techniques
162. Minimally Invasive Lumbar Microdiscectomy: Indications and Techniques
163. Management of Far Lateral Lumbar Disc Herniations
164. Lumbar Spinal Arthroplasty: Clinical Experiences of Motion Preservation

- 165. Management of Degenerative Lumbar Stenosis and Spondylolisthesis
- 166. Posterior Lumbar Fusion by Open Technique: Indications and Techniques
- 167. Percutaneous Placement of Lumbar Pedicle Screws: Indications and Techniques
- 168. Dynamic Stabilization of the Lumbar Spine: Indications and Techniques
- 169. Posterior Lumbar Interbody Fusion
- 170. Transforaminal Lumbar Interbody Fusion: Indications and Techniques
- 171. Anterior Lumbar Interbody Fusion: Indications and Techniques
- 172. Lateral Lumbar Interbody Fusion: Indications and Techniques
- 173. Vertebroplasty and Kyphoplasty: Indications and Techniques

### **Spine Trauma**

- 174. Management of Injuries of the Cervical Spine and Spinal Cord
- 175. Transoral Approaches to the Cervical Spine
- 176. Atlantoaxial Instability and Stabilization
- 177. Stabilization of the Subaxial Cervical Spine (C3-C7)
- 178. Thoracolumbar Anterolateral and Posterior Stabilization
- 179. Management of Sacral Fractures
- 180. Management of Penetrating Injuries to the Spine

### **Congenital and Developmental Spinal Abnormalities**

- 181. Craniovertebral Abnormalities and Their Neurosurgical Management
- 182. Management of Chiari Malformations and Syringomyelia
- 183. Management of Occult Spinal Dysraphism in Adults
- 184. Neurologic Problems of the Spine in Achondroplasia

### **Spinal Deformity**

- 185. Management of Degenerative Scoliosis

### **Spine Tumors**

- 186. Surgical Management of Intramedullary Spinal Cord Tumors in Adults
- 187. Intradural Extramedullary Tumors
- 188. Management of Spinal Cord Tumors and Arteriovenous Malformations
- 189. Management of Cauda Equina Tumors

- 190. Management of Primary Malignant Tumors of the Osseous Spine
- 191. Surgical Approaches to the Cervicothoracic Junction
- 192. Surgery for Metastatic Spine Disease
- 193. Surgical Resection of Sacral Tumors

**Specific Complications of Spine Surgery**

- 194. Surgical Management of Cerebrospinal Fluid Leakage after Spinal Surgery

***Section Ten: Surgical Management of the Peripheral Nervous System***

- 195. Peripheral Nerve Injury
- 196. Imaging for Peripheral Nerve Disorders
- 197. Management of Adult Brachial Plexus Injuries
- 198. Nerve Transfers: Indications and Techniques
- 199. Management of Median Nerve Compression
- 200. Management of Ulnar Nerve Compression
- 201. Management of Entrapment Neuropathies
- 202. Management of Nerve Sheath Tumors Involving the Spine
- 203. Peripheral Nerve Tumors of the Extremities
- 204. Management of Cranial Nerve Injuries
- 205. Management of Thoracic Outlet Syndrome
- 206. Nerve-Grafting Procedures for Birth-Related Peripheral Nerve Injuries
