Introduction xxi

Part I The P-QRS-T Complex 1

1 The P-QRS-T: Basics 3

Leads 3

Waveforms/intervals 5

P-R interval (P-Ri) 5

S-T segment 6

Q-T interval (Q-Ti) 6

Amplitudes 7

Paper speeds 8

Mean electrical axis 10

False poling 12

Situs inversus 13

Further reading 15

2 The P-QRS-T: Some Abnormalities 16

Right atrial abnormality (P pulmonale) 16

P pseudo-pulmonale 16

Left atrial abnormality (P mitrale) 17

Interatrial conduction defect 18

P pseudo-mitral 19

Biatrial abnormality/bilateral atrial abnormality (P biatriale) 19

P pseudo-biatriale 19

Right ventricular enlargement 19

Left ventricular enlargement 22

Biventricular enlargement 23

Horizontal QRS axis 23

Vertical QRS axis 24

Indeterminate QRS axis 24

Early repolarization 24

Further reading 26

3 The P-QRS-T: Trouble 27

- P-R segment changes 27
- Q-T segment changes 27
 - The prolonged QRS 27
 - Hypokalemia 28
 - Other changes 28
 - Digoxin effects 32
 - Cushing response 34
 - S-T segment elevation/depression 35
- Low-voltage QRS-T 38
 - Electrical alternans 38
 - Pericarditis 38
- Further reading 41

Part II Aberrancy 43**4 Atrial Aberrancy 45**

- Interatrial block 45
- Chung's phenomenon 47
- Atrial ectopy 47
- Further reading 54

5 Right Bundle Branch Block 55

- Incomplete right bundle branch block 55
- Ashman's phenomenon 55
- Second-in-the-row anomaly 59
- Rate-dependent/critical rate BBB 60
- Complete right bundle branch block 62
- Further reading 66

6 Left Bundle Branch Block 67

- Incomplete left bundle branch block 67
- Rate-dependent/critical rate BBB 67
- Complete left bundle branch block 68
- Further reading 76

7 Fascicular Blocks 77

- Left anterior fascicular block 77
- Left medial fascicular block 77
- Left posterior fascicular block 78
- Bilateral bundle branch block 79
- Bifascicular block 79
 - Masquerading bundle branch block 80
- Trifascicular block 81
- Arborization block 86
- Further reading 86

8 Wide-Complex Supraventricular Tachycardia and Intraventricular Conduction Disturbances 87

- Wide-complex supraventricular tachycardias 87
- Intraventricular conduction disturbances 90
- Further reading 92

Part III Arrhythmias 93**Sinoatrial Arrhythmias 99**

- Normal sinus rhythm 99
- Sinoatrial Bradyarrhythmias 103
- Sinoatrial Block 117
- Sick Sinus Syndrome 123
- Sinoatrial Tachyarrhythmias 133
- Further Reading 101

9 Sinoatrial Bradyarrhythmias 103

- Sinus bradycardia 103
- Sinus arrhythmia 105
 - Non-phasic sinus arrhythmia 105
 - Phasic sinus arrhythmia 105
 - Respiratory sinus arrhythmia 105
 - Wandering pacemaker 105
 - Phasic non-respiratory sinus arrhythmia 106
 - Ventriculophasic sinus arrhythmia 108
- Sinus bigeminy 112
 - Sinoatrial escape-capture bigeminy 112
- Sinus pause 114
- Sinus arrest 114
- Asystole 114
- Further reading 116

10 Sinoatrial Block 117

- Sinoatrial block 117
- Type I second degree SA block 117
- Type II second degree SA block 120
- Further reading 122

11 Sick Sinus Syndrome 123

- Sick sinus syndrome 123
- Overdrive suppression 123
- Sinus nodal dysfunction 123
- Bradycardia variant 126
- Tachycardia-bradycardia variant 128
- Further reading 132

12 Sinoatrial Tachyarrhythmias 133

- Sinus nodal premature systoles 133
- Sinoatrial reciprocal complexes 133
- Sinus nodal parasystole 134
- Sinus tachycardia 136
- Sinus nodal reentrant tachycardia 137
- Further reading 138

Atrial Arrhythmias 139

Atrial Bradyarrhythmias 141

Atrial Tachyarrhythmias 151

Atrial Premature Systoles 151

Atrial Tachycardia 166

Bypass Tract Mediated Supraventricular Tachycardia/Ventricular Pre-excitation Syndromes 175

Atrial Flutter 187

Atrial Fibrillation 196

13 Atrial Bradyarrhythmias 141

Atrial escape beats 141

Atrial escape-capture bigeminy 141

Atrial escape rhythm 141

Atrial standstill 141

Further reading 150

14 Atrial Premature Systoles 151

Atrial premature complexes 151

Right atrial premature complexes 151

Left atrial premature complexes 151

Multifocal atrial premature complexes 153

Resetting 153

Resetting with a pause 153

Interpolation 154

Atrial bigeminy 156

Atrial trigeminy 157

APCs with aberrancy 157

Supernormal excitation 159

Non-conducted ("blocked") APCs 159

Atrial fusion complexes 162

Atrial reciprocal complexes 162

Atrial parasystole 163

Further reading 165

15 Atrial Tachycardia 166

Accelerated atrial rhythm 166

Automatic atrial tachycardia 166

Intra-atrial reentrant tachycardia 171

Atrial dissociation 171

Further reading 174

16 Bypass Tract–Mediated Macroreentrant Tachycardias/Ventricular Pre-excitation Syndromes 175

Ventricular pre-excitation and accessory pathways 175

RV accessory pathway 176

LV accessory pathways 176

Ventricular fusion 178

Atrial echo 179

Atrioventricular reciprocating tachycardia/circus movement tachycardia 179

Further reading 186

17 Atrial Flutter 187

- Atrial flutter 187
 - Type I AFL 187
 - Type II AFL 188
- Atrioventricular block 193
- Artifacts 194
- Further reading 195

18 Atrial Fibrillation 196

- Atrial fibrillation 196
- Aberrancy 201
 - Ashman's phenomenon 201
- Ventricular ectopics 203
- Atrioventricular dissociation 204
- Concealed conduction 207
- Further reading 209

Junctional Arrhythmias 211

- Junctional Bradyarrhythmias 213
 - Atrioventricular Block 228
- Junctional Tachyarrhythmias 259
 - Junctional Premature Systoles 259
 - Junctional Tachycardia 270
- Further Reading 212

19 Junctional Bradyarrhythmias 213

- Junctional escape beats 213
 - Junctional escape-capture bigeminy 213
- Junctional escape rhythm 216
 - Rule of reset 219
- Reciprocation 219
- Junctional dissociation 223
- Ventriculophasic junctional arrhythmia 226
- Further reading 227

20 Atrioventricular Block 228

- Atrioventricular block 228
- First degree AVB 229
- Second degree AVB 231
 - Mobitz Type I second degree AVB 231
 - Low-Grade Type I second degree AVB 231
 - 2:1 Wenckebach 234
 - High-Grade Type I second degree AVB 235
- Mobitz Type II second degree AVB 240
 - Low-Grade Type II second degree AVB 240
 - 2:1 Mobitz 240
 - High-Grade Type II second degree AVB 241
- Block/acceleration dissociation 242
- Paroxysmal atrioventricular block 247

- Third degree AVB 248
 - Atrioventricular dissociation 253
- Ventriculoatrial block 256
- Exit block 257
- Further reading 257

21 Junctional Premature Systoles 259

- Junctional premature complexes 259
 - Resetting 259
 - Resetting with a pause 260
- Interpolation 260
- Junctional bigeminy 262
- Junctional trigeminy 262
- Junctional premature complexes with aberrancy 262
- Non-conducted junctional premature complexes 263
- Concealed conduction 263
- Atrial fusion 264
- Junctional reciprocal complexes 265
- Junctional parasystole 269
- Further reading 269

22 Junctional Tachycardia 270

- Accelerated junctional rhythm 270
 - Isorhythmic dissociation 270
- Automatic junctional tachycardia 276
- Atrioventricular nodal reentrant tachycardia 278
- Further reading 282

Ventricular Arrhythmias 283

- Ventricular Bradyarrhythmias 285
- Ventricular Tachyarrhythmias 291
 - Ventricular Premature Systoles 291
 - Ventricular Tachycardia 319

23 Ventricular Bradyarrhythmias 285

- Ventricular escape beats 285
 - Ventricular escape-capture bigeminy 287
- Ventricular escape rhythm 287
- Electromechanical dissociation 288
- Ventricular asystole 289
- Further reading 290

24 Ventricular Premature Systoles 291

- Ventricular premature complexes 291
 - Right ventricular premature complexes 292
 - Left ventricular premature complexes 292
- Compensatory pause 293
 - The “compensatory-like” pause* 295

Interpolation	296
Post-extrastolic aberrancy	298
Ventricular bigeminy	298
Rule of bigeminy	298
Ventricular trigeminy	305
Ventricular quadrigeminy	306
Concealed conduction	309
Concealed ventricular bigeminy	309
Concealed interpolated ventricular bigeminy	310
Concealed ventricular trigeminy	310
Concealed interpolated ventricular trigeminy	310
Ventricular fusion complexes	311
Ventriculoatrial conduction and reciprocation	312
Atrial fusion	315
Ventricular parasystole	315
Further reading	317

25 Ventricular Tachycardia, Flutter, and Fibrillation 319

Accelerated idioventricular rhythm	319
Atrioventricular dissociation	321
Ventriculoatrial association and ventriculoatrial block	323
Polymorphic and bidirectional AIVR	325
Ventricular tachycardia	328
Left ventricular tachycardia	331
Fascicular VT	333
Bidirectional VT	333
Right ventricular tachycardia	336
Right ventricular outflow tract-VT	336
Bundle branch reentrant VT	336
Exit block	338
Double tachycardia	340
Polymorphic VT	342
Torsades de pointes	342
Ventricular flutter	342
Ventricular fibrillo-flutter/ventricular dissociation	345
Ventricular fibrillation	346
Further reading	347

Part IV Pacemakers 349

26 Pacemakers: Basics 351

Indications	351
Pacemaker polarity	351
Modes	351
Lead placement	353
MEA of the paced QRS	353
Further reading	356

27 Pacemakers: Some Abnormalities 357

Concealed conduction 357
Ventriculoatrial conduction 357
Paced fusion complexes 357
Paced reciprocal complexes 361
Further reading 362

28 Pacemakers: Trouble 363

Undersensing 363
Oversensing 363
Failure to capture 363
Battery depletion 367
Pacemaker-mediated tachycardia 367
Pacemaker syndrome 367
Further reading 370

Index 371
