Preface to the Second Edition	<i>ix</i>
Preface to the First Edition	<i>xi</i>
List of Contributors	<i>xiii</i>
About the Companion Website	<i>xv</i>

1	Introduction to the Clinical Process	1
1.1	Essential Elements of the Clinical Process	1
1.2	Quality Management in the Clinical Process	2
1.3	Patient–Doctor Communication in the Clinical Process	3
1.4	Characteristics of the Patient–Doctor Relationship	6
1.5	Documentation of the Clinical Process	6
1.6	Designations and Abbreviations	10
1.7	Summary	18
	Suggested Reading	18
2	The Historical Profile	19
2.1	Patient Identification	20
2.2	Chief Complaint (Problem)	20
2.3	Dental History	21
2.4	Medical History	21
2.5	Family History	22
2.6	Social History	22
2.7	Review of Organ Systems	23
2.8	Summary	35
	Suggested Reading	36
3	Basic Procedures in Physical Examination	39
3.1	Inspection	39
3.2	Palpation	53
3.3	Percussion	53
3.4	Auscultation	54
3.5	Olfaction	54
3.6	Evaluation of Function	54
3.7	Summary	61
	Suggested Reading	61

4	Examination of the Head and Neck	63
4.1	Examine the Head and Face	63
4.2	Examine the Ears and Temporomandibular Joints	98
4.3	Examine the Nose	99
4.4	Examine the Eyes	101
4.5	Examine the Hair	106
4.6	Examine the Neck	109
4.7	Examine the Lymph Nodes	113
4.8	Conclusion	116
	Suggested Reading	117
5	Examination of the Oral Cavity	123
5.1	Examine the Vermilion of the Lips	123
5.2	Examine the Labial and Buccal Mucosa	131
5.3	Examine the Hard Palate	142
5.4	Examine the Soft Palate and Tonsillar Area	149
5.5	Examine the Tongue	152
5.6	Examine the Glossopharyngeal (IX) and Vagus (X) Nerves	157
5.7	Examine the Floor of the Mouth	158
5.8	Examine the Gingivae	161
5.9	Examine the Teeth	168
5.10	Summary	171
	Suggested Reading	172
6	Radiographic Examination	177
6.1	Radiographic Examination of the New Patient	178
6.2	Radiographic Examination of the Recall Patient	179
6.3	Introduction to Radiographic Interpretation	180
6.4	Radiographic Manifestations of Common Conditions	181
6.5	Conclusion	201
	Suggested Reading	201
7	Laboratory Methods	203
7.1	Hematology Screening	204
7.2	Evaluation of Hemostasis	205
7.3	Biochemical Tests	208
7.4	Tissue Studies	211
7.5	Summary	214
	Suggested Reading	214
8	Diagnostic and Treatment Planning Considerations for Orofacial Pain	215
8.1	Subjective Information	216
8.2	Objective Findings	217
8.3	Plan: Treatment Options	221
8.4	Summary	224
	Suggested Reading	224

9	Evidence-Based Treatment Planning in Restorative Dentistry	227
9.1	Historical Perspective	227
9.2	Etiology of Dental Caries	228
9.3	Caries Lesion Detection, Assessment and Diagnosis	230
9.4	Primary Caries Lesion Diagnosis and Risk Assessment	234
9.5	Developing a Minimally Invasive Evidence-Based Treatment Plan Predicated on Caries Risk	235
9.6	Diagnosis and Treatment of Root Caries Lesions	241
9.7	Clinical Detection and Diagnosis of Secondary or Recurrent Caries Lesions	242
9.8	Repair Versus Replacement of Direct Restorations	243
9.9	Summary	244
	Suggested Reading	244
10	Periodontal and Peri-Implant Examination	249
10.1	Periodontal Evaluation	250
10.2	Establishing a Periodontal Diagnosis	256
10.3	Basic Principles of Periodontal Treatment Planning	262
10.4	Peri-Implant Examination and Diagnosis	264
10.5	Summary	264
	References	265
11	Oral and Maxillofacial Surgery	269
11.1	Introduction	269
11.2	Medical History	270
11.3	Chief Complaint (CC)	270
11.4	History of Present Illness (HPI)	270
11.5	Past Medical History	271
11.6	Past Surgical History	271
11.7	Medications	271
11.8	Allergies	271
11.9	Social History	272
11.10	Last Meal	272
11.11	Review of Systems (ROS)	272
11.12	Physical Examination	272
11.13	Medical Status	275
11.14	Anesthesia Requirements	276
	References	294
12	Endodontic Evaluation	295
12.1	Introduction	295
12.2	Pulp Status	297
12.3	Periradicular Status	299
12.4	Imaging Assessment	302
12.5	Additional Clinical Evaluations	303
12.6	Diagnosis	304
12.7	Endodontic Treatment Planning	306

12.8	Concluding Remarks	311
	References	311
13	Prosthodontic Restoration	313
13.1	Documenting Patient Health Histories	313
13.2	Documenting Clinical, Radiographic, and Photographic Findings	315
13.3	Designing Prosthodontic Treatment Plans	320
13.4	Summary	338
	References	340
14	Exam, Diagnosis and Treatment Planning in Pediatric Patients	343
14.1	The Complete History and Examination	343
14.2	Diagnosis	360
14.3	Treatment Planning	361
14.4	Risk Based, Age Appropriate Diagnosis and Treatment Planning	370
	Recommended Textbooks and Additional Reading	384
	References	384
15	Orthodontics for the General Practitioner	387
15.1	Introduction to Orthodontics	387
15.2	Diagnosis and Malocclusion Classification	388
15.3	Orthodontic Interventions Commonly Accomplished by the General Practitioner	399
15.4	Management of the Mixed Dentition	402
	Recommended Resources and Textbooks	404
	References	404
16	Putting It All Together	407
16.1	Rational Approach to Treatment Planning	407
16.2	Putting It All Together	410
16.3	Presentation of the Treatment Plan	411
16.4	Consultations and Referrals	412
16.5	Conclusion	413
	Suggested Reading	414
	Index	415
