

Preface

Section I: Molecular and Cellular Mechanisms

Ch1. Overview: Cellular Components of the Nervous System and Disease Mechanisms

Ch2. Organization of the Cell Membranes

Ch3. Intracellular Signaling

Ch4. DNA: Epigenetic Control of Transcription and Repair Mechanisms

Ch5. RNA Metabolism and Control of Translation

Ch6. Proteostasis

Ch7. Vesicular Trafficking

Ch8. Cytoskeleton

Ch9. Axonal Transport

Ch10. Axon and Myelin

Ch11. Mitochondria and Energy Metabolism

Ch12. Mechanisms of Cell Death and Axonal Degeneration

Ch13. Growth Factors, Survival, and Regeneration

Section II: Excitability, Signal Communication, and Plasticity

Ch14. Ion Channels and Channelopathies

Ch15. Principles of Synaptic Transmission and Presynaptic Synaptopathies

Ch16. Neurotransmission, Neuromodulation, and Plasticity

Ch17. Glutamatergic Transmission, Plasticity and Synaptopathies

Ch18. Inhibitory Amino Acid Transmission and Synaptopathies

Ch19. Cholinergic Transmission

Ch20. Monoaminergic Neurotransmission

Section III: Microenvironment and Mechanisms of Injury and repair

Ch21. Astrocyte-Neuron Interactions

Ch22. Neuronal Microenvironment

Ch23. Microglia and Inflammation in the Nervous System

Section III: Neuronal Interactions in Cortical and Subcortical Circuits

Ch24. Neocortical Circuits

Ch25. Hippocampal and Amygdala Circuits

Ch26. Thalamocortical Interactions

Ch27. Sleep

Ch28. Behavioral State Control

Ch29. Sensory Processing

Ch30. Cortical Motor Control

Ch31. Segmental Spinal Motor Control

Ch32. Brainstem Motor Control

Ch33. Cerebellum

Ch34. Basal ganglia

Section V: Homeostatic Systems

Ch35. Nociceptors

Ch36. Central Pain Processing and Modulation

Ch37. Autonomic Nervous System

Ch38. Forebrain Control of Homeostasis and Adaptation

Section VI: Cortical Networks and Cognitive Domains

Ch39. Emotion and Social Cognition

Ch40. Episodic Memory, Navigation, and Inner Thoughts

Ch41. Language, Speech, and Semantic Cognition

Ch42. Cortical Executive Networks and High-level Behavioral and Cognitive Control
