

- 1 Anesthesia of the Hand
- 2 Fasciotomy for Compartment Syndrome of the Hand and Forearm
- 3 Digit Amputations
- 4 Proximal Upper Extremity Amputation
- 5 Finger Infections (Paronychia, Felons, Pyogenic Flexor Tenosynovitis)
- 6 Splints and Orthoses
- 7 Principles of Bone Fixation and Healing
- 8 Kirschner Wire Fixation of Mallet Fractures
- 9 Treatment of Extraarticular Phalangeal Fractures
- 10 Open Reduction and Internal Fixation of Extraarticular Phalangeal Fractures
- 10 Dynamic External Fixation of Fracture-Dislocation of the Proximal Interphalangeal Joint
- 11 Open Reduction and Internal Fixation of Intraarticular Phalangeal Fractures
- 12 Volar Plate Arthroplasty of the Proximal Interphalangeal Joint
- 13 Hemi-Hamate Arthroplasty
- 14 Techniques and Fixation of Metacarpal Fractures
- 15 Percutaneous Intramedullary Fixation of Metacarpal Head and Neck Fractures
- 15 Open Reduction and Internal Fixation of Metacarpal Shaft Fractures
- 15 Open Reduction for Metacarpophalangeal Joint Dislocation
- 16 Corrective Osteotomy of Metacarpal Fracture Malunion
- 17 Reconstruction of Acute and Chronic Ulnar Collateral Ligament Injuries of the Thumb
- 18 Techniques for Fixation of Bennett and Rolando Fractures
- 19 Wrist Arthroscopy
- 20 TFCC Repair
- 21 Scapholunate Ligament Repair
- 22 Scapholunate Ligament Reconstruction
- 23 Lunotriquetral Ligament Reconstruction Options using Tendon Grafts
- 24 Scapholunate and Lunotriquetral Ligament Reconstruction with Internal Brace and Tendon Grafting
- 25 Open Reduction and Internal Fixation of Acute Scaphoid Fracture
- 26 Treatment of Scaphoid Nonunion
- 27 Salvage Procedures for Scaphoid Nonunion
- 28 Open Reduction and Fixation of Acute Lunate or Perilunate Dislocation With or Without Fracture
- 29 Ulnar Shortening Osteotomy for Ulnar Impaction Syndrome
- 30 Distal Radioulnar Joint Reconstruction Using the Palmaris Longus Graft
- 31 Procedures for Avascular Necrosis of the Lunate (Kienböck Disease)
- 32 Operative Treatment of Distal Radius Fractures
- 33 Corrective Osteotomy of Radius Malunion
- 34 Associated Ulnar Fixation (ulnar styloid and metadiaphyseal fractures)
- 35 Management of Other Carpal Fractures
- 35 Forearm Fracture-Dislocations (Galeazzi and Monteggia)
- 36 Metacarpophalangeal Joint Synovectomy, Crossed Intrinsic Tendon Transfer, and Extensor Tendon Centralization
- 37 Tendon Transfers for Rheumatoid Tendon Attrition Rupture
- 38 Stabilization of Extensor Carpi Ulnaris Tendon Subluxation with Extensor Retinaculum
- 39 Associated Ulnar Fixation

- 39 Correction of Swan-Neck Deformity
- 40 Correction of Boutonniere Deformity
- 41 Metacarpophalangeal Arthroplasty
- 42 Proximal Interphalangeal Arthroplasty
- 43 Distal Interphalangeal Joint Arthrodesis
- 44 Joint Fusion for Thumb Metacarpophalangeal Instability
- 45 CMC Fusion for Basilar Joint Arthritis
- 46 Reconstruction for Thumb Carpometacarpal Joint Instability Using Flexor Carpi Radialis (Littler Procedure)
- 47 Trapeziectomy and Abductor Pollicis Longus Suspensionplasty
- 48 Revision Carpometacarpal Joint Arthroplasty
- 49 Distal Ulnar Resection (Darrach Procedure)
- 50 Sauvé-Kapandji Procedure
- 51 Hemiresection Ulnar Arthroplasty
- 52 Total Wrist Arthroplasty
- 53 Total Wrist Fusion
- 54 Thumb Denervation for CMC Arthritis
- 54 Wrist Denervation
- 55 Open Carpal Tunnel Release
- 56 Endoscopic Carpal Tunnel Release
- 57 Revision Carpal Tunnel Release and Coverage Using a Hypothenar Fat Pad Flap
- 58 Procedures for Ulnar Compressive Neuropathy
- 59 Radial Nerve Decompression
- 60 Digital Nerve Repair
- 61 Ulnar Nerve Group Fascicular Repair
- 62 Median Nerve Epineural and Group Fascicular Nerve Repair
- 63 Tendon Transfers for Low Median Nerve Injury: Opponensplasty
- 64 Tendon Transfers for High Median Nerve Palsy
- 65 Tendon Transfers for Low and High Ulnar Nerve Injury
- 66 Tendon Transfers for High and Low Radial Nerve Injury
- 67 Tendon Transfers for Combined Nerve Palsy
- 68 Distal Anterior Interosseous Nerve (AIN) Transfer to Motor Branch of Ulnar Nerve
- 69 Tendon and Nerve Transfers for Spinal Cord Injury Patients
- 70 Restoration of Elbow Extension: Deltoid to Triceps Transfer and Biceps to Triceps Transfer
- 71 Restoration of Wrist Extension: Brachioradialis to Extensor Carpi Radialis Tendon Transfer
- 72 Restoration of Active Key Pinch: Brachioradialis and Pronator Teres to Flexor Pollicis Longus Transfer
- 73 Restoration of Passive Key Pinch
- 74 Restoration of Active Pinch and Grasp: Extensor Carpi Radialis Longus Transfer to Flexor Digitorum Profundus
- 75 Intrinsic Tendon Reconstruction
- 76 Nerve Transfer for Spinal Cord Injuries
- 77 Wide Awake Approach for Tendon Transfers
- 78 Acute Repair of Flexor Tendon Injuries in Zones I-V

- 79 Two-Stage Flexor Tendon Reconstruction with Silicone Rod
- 80 A2 Flexor Tendon Pulley Reconstruction with Free Tendon Graft
- 81 Tenolysis of Flexor Tendons
- 82 Acute Repair of Extensor Tendon Injuries: Zones I to VII
- 83 Release of Trigger Finger
- 84 Release of De Quervain Tenosynovitis
- 85 Management of Mangled Extremities
- 86 Local Tissue Rearrangement for Treatment of Scar Contractures
- 87 Flap Coverage of Fingertip Injuries
- 88 Flap Coverage for Thumb Defects
- 89 Dorsal Metacarpal Artery Flap and Dorsal Metacarpal Artery Perforator Flap
- 90 Pedicled Forearm Flaps
- 91 Groin Flaps
- 92 Lateral Arm Flap
- 93 Venous Flap
- 94 Revascularization and Replantation of Digits and Hand
- 95 Toe to Thumb Transfer
- 96 Major Limb Replantation
- 96 Sympathectomy of Radial, Ulnar, and Common Digital Arteries for Raynaud's Phenomenon
- 97 Ulnar Artery to Superficial Arch Bypass with a Vein Graft
- 98 Surgical and Nonsurgical Treatment of Dupuytren Contracture
- 99 Revascularization and Replantation of Major Limbs
- 99 Biceps and Brachialis Lengthening
- 100 Step-cut Fractional Lengthening of Flexor Tendons and Flexor Digitorum Superficialis to Flexor Digitorum Profundus Transfer
- 101 Percutaneous Needle Aponeurotomy for Dupuytren Contracture
- 101 Open Fasciectomy for Dupuytren Contracture
- 101 Dermatofasciectomy for Dupuytren Contracture
- 101 Flexor-Pronator Slide
- 102 Venous Flap
- 102 Thumb Adductor Release
- 103 Capsulotomy for Proximal Interphalangeal Contracture
- 104 Capsulotomy for Metacarpophalangeal Contracture
- 105 Pediatric Trigger Digits
- 106 Release of Finger Syndactyly Using Dorsal Rectangular Flap
- 107 Duplicated Thumb and Finger Treatment
- 108 Free Gracilis Flap for Elbow Flexion
- 108 Index Pollicization for Hypoplastic Thumb
- 109 Pediatric Opponensplasty
- 110 Extensor Carpi Radialis Longus Transfer to Flexor Digitorum Profundus
- 110 Camptodactyly Correction
- 111 Macroductyly Correction
- 112 Release of Constriction Ring Syndrome
- 113 Centralization for Radial Longitudinal Deficiency

- 114 Cleft Hand Reconstruction
- 115 Arthrogyposis Reconstruction
- 116 Hand Masses
- 117 Excision of Vascular Lesions of the Hand
- 118 Excision of Metacarpal Enchondroma
- 119 Excision of Peripheral Nerve Schwannoma
- 120 Excision of Malignant Skin Tumors
