

Foreword

1 Historic Perspectives

2 Epidemiology

3 Clinical Manifestations and Phenotypes

4 Differential Diagnosis

5 Histopathology

6 Imaging Modalities

7 Clinical Evaluation

8 Comorbidities and Systemic Associations

9 Disease Complications

10 Follicular Occlusion and Inflammation

11 Microbiome

12 Genetics and Epigenetics

13 Disease Evaluation & Outcome Measures

14 Overview and Comparison of Management Guidelines

15 Topical Therapeutics

16 Systemic Antibiotics

17 Non-Antibiotic Systemic Therapeutics for HS

18 Targeted Therapeutics: Biologics, Small Molecules

19 Pain and Itch Control

20 Wound Care

21 Quality of Life

22 Office-Based Non-Excision Procedures

23 Surgical Excisions for Hidradenitis Suppurativa

24 Office-based excision for hidradenitis suppurativa: a surgeon's decades-long experience

25 Laser and Light-Based Treatments

26 Other Procedural Treatments

27 Lifestyle Modifications

28 Complementary and Alternative Medicine (CAM)

29 Pediatrics

30 Skin of Color

31 Hidradenitis Suppurativa in Women

32 HS Action Plan

32 HS Multi-Disciplinary Approach

33 HS Support Groups

34 Pipeline Therapeutics

35 The Future
