

A. Introduction and clinical cases

- 1: Definition and pathophysiology of complex cancer pain, *Michael Bennett*
- 2: Evidence based pharmacological approaches to management, *Michael Bennett and Paul Farquhar Smith*
- 3: Neurolytic blocking agents, *Mahesh Choudhary*
- 4: Role of surgery in cancer pain management, *Paul Eldridge and Deepti Bhargava*
- 5: Oncological management of cancer pain, *Chinnamani Eswar*
- 6: Pelvic pain, *Arun Bhaskar*
- 7: Chest wall pain from mesothelioma or lung cancer, *Manohar Sharma, Sanjeeva Gupta, and Lakshmi Vas*
- 8: Unilateral upper limb plexopathy pain caused by cancer, *Lakshmi Vas*
- 9: Unilateral lower limb plexopathy related cancer pain, *Kate Marley*
- 10: Upper GI pain from invasive pancreatic cancer, *Hemkumar Pushparaj*
- 11: Multiple bone metastases/bone fracture related, *Manohar Sharma and Sanjeeva Gupta*
- 12: Intrathecal pump case history, *JJohn Titterington, Louise Lynch, and Hemkumar Pushparaj*
- 13: Cancer survivor with pain progression, *Kate Marley and Manohar Sharma*

B. Details of interventional techniques

- 14: Basic procedure safety and patient considerations for cancer pain interventions, *Samyadev Datta*
- 15: Sympathectomy for cancer pain, *Dhanalakshmi Koyyalagunta and Arun Bhaskar*
- 16: Kyphoplasty and vertebroplasty for spinal metastasis pain, *Kumar S V Das and Shubhabrata Biswas*
- 17: Cervical cordotomy (Fluoroscopic and CT Guided technique), *Manohar Sharma and Ashwin Vishwanathan*
- 18: Intrathecal drug delivery for cancer pain, *John Titterington*
- 19: Spinal neurolysis, *Mahesh Chaudhari*
- 20: Interventions for head and neck cancer related pain, *Manohar Sharma and Lakshmi Vas*
- 21: Neurosurgical techniques for cancer pain, *Paul Eldridge and Deepti Bhargava*
- 23: Spinal cord stimulation for cancer related pain, *Dmitry Kruglov and Simon Thomson*
- 24: Radiological tumour ablative techniques, *Gaurav Sundar*
- 25: Radiofrequency brain lesioning for cancer related pain, *Erlick Pereira and Abteen Mostafi*
- 26: Radiofrequency ablation technique for metastatic spine disease, *Samyadev Datta*
- 27: The role of High Intensity Focused Ultrasound (HIFU) in cancer pain management, *Mathew Brown*

C. Collaboration between services

- 28: Role of collaboration between pain medicine and palliative care, *Kate Marley and Hemkumar Pushparaj*
- 29: Pain in cancer survivors, *Mathew Brown*
- 30: Control of complex pain at the end of life in hospice or community setting, *Eugene Choi, Priya Krishaswamy, and Umesh K. Gidwani*
