

Part 1 Introduction to science and theory of patient safety

- 1: The Rationale and science of Patient Safety, *Peter Lachman & John Fitzsimons*
- 2: The Culture and system of Patient Safety, *Ahmeda Ali & John Fitzsimons*
- 3: Transparent Leadership for safety, *Blair L. Sadler & Peter Lachman*
- 4: Codesigning for Safety and Patients Leading for Safety, *John Brennan, Eugene Nelson, Sibylle Erdmann & Margaret Murphy*
- 5: The Economics of Patient Safety, *James F O'Mahony*
- 6: Developing a Safe Clinical Team, *Patricia O'Connor*
- 7: Communicating to be Safe, *David Crosby & Peter Lachman*
- 8: Situation Awareness and patient safety, *Eoin Fitzgerald & Peter Lachman*
- 9: Practical Application of Human Factors and ergonomics to Improve Safety, *Thomas Jun & Sue Hignett*
- 10: Reliability Theory and its application in daily work and standardisation, *Uma Kotagal & Peter Lachman*
- 11: Resilience Theory, Complexity Science and Safety 2, *Kate Churruca, Robyn Clay-Williams, Janet C Long, Louise A Ellis & Jeffrey Braithwaite*

Part 2 Practical application and methodologies of patient safety

- 12: Measuring Patient Safety at a System, Organisation and National Level, *Jason Leitch & Thomas Lamont*
- 13: How to Measure Patient Safety on the Front Line, *Jane Runnacles & John Fitzsimons*
- 14: Improving to be Safe, *Peter Lachman, Susanne O'Reilly, Michael Marx and John Brennan*
- 15: Learning from Success to be safer, *Adrian Plunkett*
- 16: Investigating and learning from Adverse Events, *Kevin Stewart & Rachel Pool*
- 17: Open Disclosure, *Mark O'Brien & Pallavi Bradshaw*
- 18: Caring for the Caregivers - The Second Victim, *Kris Vanhaecht*

Part 3 Translating theory to clinical practice

- 19: Safety and information technology, *Christopher Cornue*
- 20: Enabling Medication Safety, *Frank Frederico*
- 21: Paediatric medication safety, *James Hoffman & Kristen Hughes*
- 22: Preventing and Decreasing Infections, *Rob Cunney*
- 23: Sepsis and Antimicrobial stewardship, *Rob Cunney*
- 24: Detecting and Limiting Deterioration, *Anita Jayadev, Karen Britton & Shefal Patel*
- 25: Preventing and Limiting Diagnostic Error, *Tricia Woodhead and Gail Nielsen*
- 26: Safety in Primary Care and General Practice, *John Brennan*
- 27: Safety in the Emergency Department, *Damian Roland & Jay Banerjee*
- 28: Safety in Outpatients and Ambulatory Care, *Anita Jayadev & Sean Harding*
- 29: Safety in the operating theatre, *Rob Bethune*
- 30: Safety in Paediatrics and Child Health, *Jane Runnacles*
- 31: Safety in Maternity and Women's Health, *David Crosby*
- 32: Safety in Mental Health, *Daniel Hayes*
- 33: Safety in Intensive Care, *Kevin Rooney & Suying Ong*
- 34: Safety in Patients with Frailty and Complex Long-Term Conditions, *Kirstyn James*
- 35: Safety in a multi-disciplinary team, *Kieran Murray & Michael Marx*
- 36: Safety in the laboratory, *Kevin O'Hare*
- 37: Safety in a pandemic, *Riccardo Trataglia, Micaela La Regina and Peter Lachman*
