Preface xxxii

Foreword xxxiii

About the Companion Website xxxiv

1 Principles of Surgical Oncology 1

William T.N. Culp and Nicole Ehrhart

Preoperative Considerations 1

Signalment 1

Staging/Concomitant Disease 2

Neoadjuvant Therapy 2

Surgical Planning 2

Fine Needle Aspirate 3

Biopsy 5

Pretreatment Biopsy 5

Excisional Biopsy 7

Specific Biopsy Techniques 7

Surgical Considerations for Curative-Intent Surgery 9

Defining and Evaluating Surgical Margins 9

Varying Definitions of “Margin” 10

The Influence of Sectioning 10

Future Directions 11

Palliative and Cytoreductive Surgery 12

Postoperative Considerations 12

Tissue Marking 12

Guidelines for Fixation of Surgical Tissue Specimens 12

Frozen Sections 13

Wound Healing 13

Adjuvant Therapy 13

References 14

2 Multi-modal Therapy 17

Tania A. Banks, Christine Mullin, and Craig A. Clifford

Introduction 17

Surgery 17

Radiation Therapy 17

Surgery and Radiation 17

Chemotherapy 19

Electrochemotherapy 21

Molecular and Targeted Therapies 21

Complications of Chemotherapy	21
Chemotherapy Extravasation	21
Guidelines for Doxorubicin Extravasation	36
Chemotherapy Effects on Wound Healing	37
Complications of Radiation Therapy	38
Radiation Side Effects	38
Impact of Radiotherapy on Surgical Outcome	40
Timing of Radiation Therapy Relative to Surgery	40
Skin Grafts and Flaps in the Radiation Field	40
Bone Healing and Radiation Therapy	41
Minimizing the Negative Impact of Radiotherapy on Surgery	41
References	41

3 Interventional Oncology 69

William T.N. Culp

Imaging	69
Modalities	69
Contrast Agents	70
Instrumentation and Implants	70
Access Needles	70
Guidewires	71
Sheaths	72
Catheters	72
Vascular Closure Devices	73
Vascular Occlusion Agents and Devices	74
Particles	74
Liquids	74
Coils	75
Balloons	75
Stents	75
Approaches	76
Vascular	76
Natural Orifices	76
Nonvascular Interventional Oncology Techniques	77
Stents	77
Tracheobronchial Neoplasia	77
Ureteral Neoplasia	77
Bladder, Urethral, and Prostatic Neoplasia	77
Colorectal Neoplasia	78
Esophageal Neoplasia	79
Biliary Neoplasia	79
Percutaneous Drainage	79
Malignant Body Cavity Effusions	79
Other Drainages	80
Tumor Ablation	80
Vascular Interventional Oncology Techniques	81
Stents	81
Intraarterial Chemotherapy	82
Transarterial Embolization and Chemoembolization	82
References	83

4 Skin and Subcutaneous Tumors 92

Erik G.H. Wouters, Sebastiaan (Bas) A. van Nimwegen, Stewart Ryan, and Jolle Kirpensteijn

Skin Tumors General Principles 92

Introduction 92

Prevalence 92

Classification 93

General Approach to the Diagnosis and Staging of Skin Tumors 93

Preoperative Assessment 93

History and Physical Examination 93

Tumor Staging 94

Assessment of the Cutaneous Mass 94

FNA Cytology 94

Biopsy 94

Needle Core Biopsy 94

Incisional Biopsy 94

Excisional Biopsy 95

Regional Lymph Node Assessment 95

Preoperative Diagnostic Imaging 95

Treatment Options for Skin Tumors 95

Principles of Surgical Excision 96

Surgical Margins 96

Margin Evaluation 97

Reconstructive Procedures 98

Adjunctive Therapies for Skin Tumors 98

Mast Cell Tumors 98

Clinical Presentation 98

Diagnosis of MCTs 100

Clinical Staging 101

Treatment of Canine Cutaneous MCTs 102

Surgery 102

Regional Lymph Node Treatment 104

Anatomical Site Considerations 104

Prognostic Factors 104

Histologic Parameters 104

Clinical Stage 105

Size 105

Anatomical Location 105

Multiple Cutaneous MCT 106

Subcutaneous MCT 106

Postoperative Recommendations 106

Completely Excised MCTs 106

Incompletely Excised MCTs 106

Local Tumor Recurrence 107

Radiation Therapy for MCT 107

Electrochemotherapy 107

Chemotherapy for MCT 107

Combination Chemotherapy 107

Deionized or Hypotonic Water 108

Tyrosine Kinase Inhibitors 108

Feline Cutaneous MCT 108

Mesenchymal Tumors and Melanoma	108
Introduction	108
Soft Tissue Sarcomas	109
Incidence and Predisposing Factors	109
Clinical Signs	109
Metastasis	110
Diagnostic Strategies and Preoperative Planning	110
Novel Diagnostic Imaging Techniques	110
Staging and Grading	111
Surgical Aspects	111
Reconstructive Surgery	113
Cryosurgery	115
Adjuvant Therapies	115
Palliative Procedures	118
Prognosis	118
Specific Soft Tissue Sarcomas	119
Fibrosarcomas	119
Peripheral Nerve Sheath Tumors	119
Perivascular Wall Tumors	119
Myxosarcoma	120
Cutaneous Hemangiosarcoma	120
Lipoma	121
Infiltrative Lipomas	122
Liposarcoma	122
Lymphangiosarcoma	122
Leiomyoma and Leiomyosarcoma	123
Melanoma	123
Feline Injection-Site-Associated Sarcoma (FISAS)	124
References	128

5 Head and Neck Tumors 143

Sara A. Ayres and Julius M. Liptak

Lymph Node Staging	143
Nasal Planum Tumors	143
History and Clinical Signs	144
Diagnosis and Clinical Staging	144
Nasal Planum Resection	145
Surgical Technique	145
Postoperative Management	146
Complications	146
Adjunctive Management	146
Prognosis	147
Other Treatment Options	147
Prevention of Precancerous (Actinic) Lesions	147
Cryosurgery	147
Curettage and Diathermy	147
Radiation Therapy	148
Photodynamic Therapy	148
Intralesional Chemotherapy	148
Tumors of the Pinna	148
Diagnosis and Clinical Staging	149
Pinnectomy	149
Adjunctive Treatment	150

Tumors of the External Ear Canal 151

Diagnosis 152

Treatment 153

Postoperative Management 155

Complications 156

Prognosis 157

Adjunctive Treatment 157

Tumors of the Middle Ear 157

Diagnosis 159

Treatment 159

Ventral Bulla Osteotomy 160

Prognosis 161

Salivary Gland Tumors 162

Diagnosis 165

Treatment 165

Prognosis 166

Tumors of the Lip 167

Treatment 167

Postoperative Care 175

Complications 175

Prognosis 175

References 176

6 Oral Tumors 182

Julius M. Liptak and B. Duncan X. Lascelles

Introduction 182

Diagnosis and Clinical Staging 182

History and Clinical Signs 182

Diagnosis and Clinical Staging 182

Diagnosis 182

Clinical Staging – Local Tumor 183

Clinical Staging – Regional Lymph Nodes 184

Clinical Staging – Distant Metastasis 185

General Surgical Considerations 185

Antibiotics 187

Analgesia 187

Positioning and Preparation 189

Surgical Considerations 189

Surgical Approach to Tumors of the Mandible 190

Anatomy 190

Rostral Mandibulectomy – Unilateral 190

Rostral Mandibulectomy – Bilateral 191

Segmental Mandibulectomy 193

Rim Mandibulectomy 194

Subtotal and Total Unilateral Mandibulectomy 195

Ventral Approach for Segmental, Subtotal Unilateral, and Total Unilateral Mandibulectomy 196

Caudal (Vertical Ramus) Mandibulectomy 200

Surgical Approach to Tumors of the Mandible in Cats 202

Postoperative Management 202

Analgesia 202

Nutrition 202

Complications 202

Cosmetic Appearance 202

Eating Difficulties 203

Incisional Swelling	204
Ranula-Like Lesions	204
Wound Dehiscence	204
Excessive Drooling	205
Mandibular Drift and Malocclusion	206
Miscellaneous Complications	207
Surgical Approach to Tumors of the Maxilla	207
Anatomy	207
Incisivectomy	207
Rostral Maxillectomy – Unilateral	209
Rostral Maxillectomy – Bilateral	211
Rostral Maxillectomy – Bilateral Combined with Nasal Planum Resection	212
Radical Maxillectomy	212
Caudal Maxillectomy – Intraoral Approach	216
Caudal Maxillectomy – Combined Approach	218
Bilateral Caudal Maxillectomy	221
Surgical Approach to Tumors of the Maxilla in Cats	223
Postoperative Management	223
Analgesia	223
Nutrition	223
Miscellaneous	223
Complications	224
Cosmetic Appearance	224
Intraoperative Bleeding	225
Epistaxis	226
Eating Difficulties	226
Wound Dehiscence and Oronasal Fistula	227
Incisional Swelling	229
Ulcer Formation Secondary to Trauma by Teeth	229
Miscellaneous Complications	229
Mandibular and Maxillary Tumors in Dogs	230
Oral Tumors in Dogs	230
Malignant Melanoma	230
Squamous Cell Carcinoma	232
Fibrosarcoma	232
Osteosarcoma	232
Peripheral Odontogenic Fibroma	232
Acanthomatous Ameloblastoma	234
Eosinophilic Granuloma	234
Oral Tumors in Cats	234
Squamous Cell Carcinoma	234
Odontogenic Tumors	234
Eosinophilic Granuloma	235
Other Tumor Types	235
Surgical Approach to Tumors of the Hard Palate	236
Anatomy	236
Hard Palate Resection	236
Postoperative Management and Complications	238
Surgical Approach to Tumors of the Tongue	238
Diagnosis and Clinical Staging	238
Anatomy	238
Glossectomy	238

Wedge Glossectomy	239
Transverse Glossectomy	239
Longitudinal Glossectomy	239
Postoperative Management	239
Complications	242
Tongue Tumors in Dogs	244
Tongue Tumors in Cats	244
Multimodal Management of Oral Tumors	244
Radiation Therapy	244
Chemotherapy	245
Immunotherapy	246
Prognosis	246
Malignant Melanoma	247
Squamous Cell Carcinoma	249
Canine Oral Squamous Cell Carcinoma	249
Feline Oral Squamous Cell Carcinoma	250
Fibrosarcoma	252
Osteosarcoma	252
Multilobular Osteochondrosarcoma	253
Acanthomatous Ameloblastoma	254
Peripheral Odontogenic Fibroma	254
Tongue	254
References	255

7 Alimentary Tract 265

William T.N. Culp, Ryan P. Cavanaugh, Earl F. Calfee III, Paolo Buracco, and Tania A. Banks

Esophagus	265
Surgical Anatomy and Potential Procedures	265
Aspiration and Biopsy Principles	265
Clinical Signs	266
Diagnostic Tests	266
Clinical Laboratory Testing	266
Radiography	266
Ultrasound	267
CT and MRI	267
Esophagoscopy	268
Surgery	268
Approach	268
Techniques	269
Healing and Complications	271
Complications	271
Alternative Techniques	271
Histologic Tumor Types	271
Adjuvant Therapies and Outcome	271
Stomach	272
Diagnostic Workup and Biopsy Techniques	272
Technical Aspects of Surgical Procedure	274
Anatomy	274
Surgical Procedures	275
Submucosal Resection	275
Partial Gastrectomy	275
Billroth I (Pylorotomy and Gastroduodenostomy)	276

Billroth II (Gastrojejunostomy)	277
Complete Gastrectomy	278
Gastric Lymph Node Dissection	278
Aftercare	278
Cosmetic and Functional Outcome	280
Potential Complications	280
Common Tumors for Which This Procedure is Performed	281
Adjuvant Therapies	282
Liver and Gallbladder	282
General Operative Considerations	282
Morphological Classification of Liver Tumors	282
Diagnostic Workup and Biopsy Techniques	283
Laparoscopic Biopsy Techniques	285
Incisional Biopsy and Partial Lobectomy	286
Complete Lobectomy	287
Aftercare	291
Functional Outcome and Complications	291
Common Tumors for Which This Procedure Is Performed and Prognosis	292
Hepatocellular	292
Bile Duct	294
Carcinoid (Neuroendocrine)	295
Mesenchymal	296
Adjuvant and Other Therapies	296
Pancreas	297
Pancreatic Anatomy	297
Pancreatic Vasculature	297
Imaging of Pancreatic Neoplasia	297
Ultrasonographic Examination of the Pancreas	298
Radiographic Examination of the Pancreas	299
Imaging of Endocrine Pancreatic Tumors	299
Insulinoma	299
Glucagonoma	300
Gastrinoma	300
Imaging of Exocrine Neoplasia	300
Carcinoma	300
Thoracic Imaging for Staging Purposes	300
Insulinoma	300
Glucagonoma	301
Gastrinoma	301
Carcinoma	301
Surgical Procedures and Principles	301
Pancreatic Biopsy	301
Fine Needle Aspiration	301
Partial Pancreatectomy	301
Total Pancreatectomy	302
Aftercare	302
Surgery for Endocrine Pancreatic Neoplasia	303
Insulinoma	303
Potential Complications of Surgery for Insulinoma	304
Prognosis for Insulinoma Treated with Surgery	305
Gastrinoma	305
Glucagonoma	305

Surgery for Exocrine Tumors	305
Small Intestine	306
Diagnostic Workup and Biopsy Techniques	306
Technical Aspects of Surgical Procedure	307
Anatomy	307
Technical Options	308
Simple Interrupted Intestinal Anastomosis	308
Anastomosis Augmentation Techniques	311
Aftercare	311
Functional Outcome – Potential Complications	312
Dehiscence	312
Stricture	312
Recurrence	313
Mechanical and Physiological Complications	313
Length Limits to Intestinal Resection	313
Common Tumors and Prognosis	313
Adjuvant Therapies	314
Colorectal Tumors	315
Clinical Workup and Biopsy Principles	315
Imaging Techniques	317
Radiography and Contrast Studies	317
Ultrasound	318
Thoracic Radiography	318
Contrast-Enhanced CT and MRI	318
Laparoscopy	319
Surgical Techniques	319
Preparation for Colorectal Surgery	319
Surgical Procedures	320
Typhlectomy	320
Colectomy	321
Simple Excision of the Mass	323
Colorectal Resection (Variable Portions of Both Descending Colon and Rectum)	323
Dorsal Inverted (Dorsal Perineal) Approach	325
Lateral (Perineal) Approach	327
Rectal Pull-Through Procedure	327
Transanal Pull-Through Procedure	330
The So-called Swenson's Pull-Through and Modifications	333
Metastasis Resection	336
Surgical Palliation	336
Nonsurgical Treatments	337
Additional Technical Details for Colorectal Anastomosis	338
Surgical Stapling	338
Postoperative Care	339
Potential Complications	339
Extent of Resection	342
Posttreatment Prognosis	342
Dogs	342
Cats	345
Adjuvant Therapies	347
Perianal Tumors	347
Surgical Procedures	347
Clinical Workup and Biopsy Procedures	347

Imaging Techniques	350
Surgical Techniques and Procedures	351
Castration	352
Cytoreduction or Marginal Excision	352
Correction of Perineal Hernia	352
En bloc Excision With or Without Anoplasty	352
Anal Sac Removal	354
Resection of Metastases (Metastasectomy)	356
Postoperative Care	357
Cosmetic and Functional Outcome	358
Potential Complications	358
Common Perianal Tumors and Prognosis	363
Canine Hepatoid Tumors	363
Anal Sac Adenocarcinoma	365
Other Perianal Tumors	368
Adjuvant Therapies	369
References	373

8 Respiratory Tract and Thorax 393

Marina Martano, Sarah Boston, and Emanuela Morello

Rhinotomy	393
Clinical Workup and Biopsy Principles	393
Imaging Techniques	395
Surgical Techniques	397
Dorsal Rhinotomy	397
Ventral Rhinotomy	399
Lateral Rhinotomy	400
Temporary Carotid Artery Occlusion	401
Aftercare	401
Cosmetic and Functional Outcome	402
Potential Complications	402
Common Nasal Tumors	402
Adjuvant Treatments	403
Laryngeal Tumors	406
Biopsy Principles	406
Imaging Tests	407
Surgical Techniques	408
Vocal Cordectomy Laryngectomy	408
Hemilaryngectomy	408
Epiglottectomy	409
Total Laryngectomy	409
Palliative Surgical Management	411
Aftercare	411
Cosmetic and Functional Outcome	411
Most Common Tumors – Prognosis and Decision-Making	412
Adjunctive Therapy	412
Thoracotomy	412
Imaging	412
Surgical Techniques	414
Intercostal Thoracotomy	414
Median Sternotomy	417
Transdiaphragmatic Thoracotomy	418

Aftercare	419
Complications and Outcome	420
Tracheal Tumors	420
Biopsy Principles	420
Imaging	420
Surgical Techniques	421
Resection and Anastomosis	421
Surgical Approaches	423
Quantity of Trachea that Can Be Safely Removed	424
Tension-Relieving Techniques	425
Non-Surgical Management	426
Aftercare	426
Complications	427
Lung	427
Surgical Procedures	427
Surgical Anatomy	427
Biopsy Procedures	428
Imaging Tests	429
Surgical Procedures	431
Lung Lobectomy	431
Partial Lobectomy	431
Complete Lobectomy	434
Pneumonectomy	435
Multiple Lung Lobectomies	437
Thoracoscopy	437
Metastasectomy	439
Postoperative Care	439
Complications of Thoracic Surgery	439
Types of Lung Tumors	440
Adjuvant and Alternative Therapy	442
Prognosis	443
Metastasectomy for Sarcomas	444
Time to Detection	445
Number of Lesions	445
Doubling Times	445
Technique	445
Outcomes after Metastasectomy	445
Thoracic Wall Resection	446
Biopsy Procedures	446
Imaging Tests	446
Description of Surgical Procedures	447
Rib Tumors	447
Invasive Soft Tissue Masses of Tissues Lateral to the Ribs	449
Reconstruction After Thoracic Wall Resection	449
Sternectomy	452
Aftercare	455
Cosmetic and Functional Outcome	455
Potential Complications	455
Common Tumor Types	455
Adjunctive Therapy	456

Histologic Tumor Types 600

Adjuvant or Other Therapies 601

Ectopic Thyroid Tumors	601
Surgical Technique Requiring Partial Hyoidectomy (Milovancev et al. 2014)	602
Parathyroid Tumors	603
Clinical Workup and Biopsy Principles	603
Imaging Techniques	604
Surgical Techniques	604
Parathyroidectomy	604
Postoperative Care	606
Cosmetic and Functional Outcome, Potential Complications	607
Hypocalcemia	607
Disease Recurrence	608
Cats	608
Histologic Tumor Types	608
Adjuvant or Other Therapies	609
Endocrine Pancreatic Tumors	609
Clinical Workup and Biopsy Principles	609
Imaging Techniques	610
Surgical Techniques	610
Preoperative Management	610
Surgical Technique	611
Postoperative Care	613
Cosmetic and Functional Outcome, Potential Complications	613
Histologic Tumor Types	614
Adjuvant Therapy	614

15 Nervous System 668

<i>Rebecca A. Packer</i>	
Introduction	668
Clinical Workup	668
Preoperative Imaging Techniques	669
Intracranial and Calvarial Tumors	670
Biopsy Principles – Brain	670
Biopsy Principles – Calvaria	670
Pre-Operative and Perioperative Surgical Considerations	670
Surgical Planning and Patient Positioning	671
Intraoperative Considerations	672
Principles of Hemostasis	673
Surgical Approaches	673
Transfrontal Approach	673
Rostral Tentorial Approach	676
Bilateral Rostral Tentorial Approach	677
Caudal Tentorial Approach	677
Suboccipital Approach	679
Ventrocaudal Brain Stem Approach	680
Transsphenoidal Approach	682
Minimally Invasive Approaches	682
Modified Rostral Tentorial or Transtentorial Approach for Trigeminal Nerve Masses	682
Modifications to Surgical Approaches for Skull Masses	683
Intraoperative Navigation and Imaging Techniques	684
Species Differences	684
Post-Operative Management	685

Cosmetic and Functional Outcomes	686
Potential Complications	686
Histologic Tumor Types of the Brain and Calvaria	687
Adjuvant Therapy and Prognosis	687
Ventricular Shunt Placement for Secondary Obstructive Hydrocephalus	690
Vertebral and Spinal Cord Tumors	690
Cerebrospinal Fluid Analysis	690
Biopsy Principles – Spine	691
Pre-Operative and Perioperative Surgical Considerations	691
Intraoperative Considerations	691
Surgical Approaches	692
Hemilaminectomy (Thoracolumbar)	692
Hemilaminectomy (Cervical) – Modified Lateral Approach	693
Dorsal Laminectomy (Lumbosacral)	694
Dorsal Laminectomy (Cervical or Cranial Thoracic)	696
Lateral Approach to the Lumbosacral Foramina	696
Corpectomy (Partial)	697
Durotomy/Durectomy	698
Myelotomy	698
Vertebrectomy (Spondylectomy)	698
Stabilization	699
Post-Operative Management	700
Cosmetic and Functional Outcomes	700
Potential Complications	700
Histologic Tumor Types of the Spinal Cord and Vertebrae	700
Adjuvant or Alternative Therapies and Prognosis	701
Nerve Sheath Tumors	704
Clinical Signs	704
Diagnostic Evaluation	705
Biopsy Techniques	705
Surgical Decision-making	706
General Surgical Considerations	706
Surgical Approaches	707
Craniolateral Approach to Brachial Plexus	707
Craniomedial Approach to Brachial Plexus	707
Surgical Technique for Intraspinal Components	707
Durotomy and Rhizotomy	707
Species Differences	708
Post-Operative Management and Potential Complications	708
Cosmetic and Functional Outcomes	709
Histologic Tumor Types of the Peripheral Nervous System	710
Adjuvant Therapies	710
Prognosis	710
