

Section I: Introductions

1. A Clinical Neuroscientist's Overview of Disorders of the Brain
Guy McKhann
- 2: Disease around the world
Vijayalakshmi Ravindranath and Michael Zigmond

Section II. Developmental Disorders

3. Introduction
Aarti Ruparelia and William C. Mobley
4. Developmental Disabilities and Metabolic Disorders
Mary Lee Gregory, Vera Joanna Burton, and Bruce K. Shapiro
5. Attention Deficit/Hyperactivity Disorder
Samuele Cortese and F. Xavier Castellanos
6. Down Syndrome: A Model for Chromosome Abnormalities
Aarti Ruparelia and William C. Mobley
7. Autism Spectrum Disorder
James C. Harris
8. Rett Syndrome: From the Involved Gene(s) to Treatment
Charlotte Kilstrup Nielsen, and Nicoletta Landsberger
9. Fragile X-Associated Disorders
Scott M. Summers and Randi Hagerman

Section III. Diseases of The Peripheral Nervous System

10. Introduction
Henry J. Kaminski
11. Myasthenia Gravis
Linda L. Kusner and Henry J. Kaminski
12. Muscular Dystrophy
Saša A. Živkovic and Paula R. Clemens
13. Peripheral Neuropathies
Mario A. Saporta and Michael E. Shy
14. Diabetes and Cognitive Dysfunction, Catrina Sims-Robinson
Bhumsoo Kim and Eva L. Feldman

Section IV. Diseases of the Central Nervous System and Neurodegeneration

15. Introduction
Elena Cattaneo and Alessandro Vercelli
16. Spinal Cord Injury
Alessandro Vercelli and Marina Boido
17. Vascular Diseases of the Nervous System
Raj Kalaria
18. Toxic/Metabolic Diseases of the Nervous System
Jillian Kril
19. Traumatic Brain Injury
Daniel H. Daneshvar and Ann C. McKee
19. Epilepsy
Helen E. Scharfman
20. Amyotrophic Lateral Sclerosis
O.M. Peters and R.H. Brown
21. Parkinson Disease and Other Synucleinopathies
Thomas Gasser, Thomas Wichmann, and Mahlon R. DeLong
22. Huntington Disease
Matthew P. Parsons and Lynn A. Raymond
23. Alzheimer Disease
Alena V. Savonenko, Tatiana Melnikova, Tong Li, Donald L. Price and Philip C. Wong
24. Cerebrovascular Disease – Stroke
Louis R. Caplan and Roger P. Simon
25. Prion Diseases
Pawel P. Liberski and James W. Ironside

Section V. Infectious and Immune-Mediated Diseases Affecting the Nervous System

26. Introduction
Clayton A. Wiley
27. Role of Inflammation in Neurodegenerative Diseases
Stanley H. Appel, David R. Beers, and Weihua Zhao
28. Role of Inflammation in Psychiatric Disease

Charles L. Raison, Graham W. Rook, Andrew H. Miller and Tommy K. Begay

29. Infections and Nervous System Dysfunction

Krister Kristensson

30. Pathobiology of CNS Human Immunodeficiency Virus Infection

Jennifer L. Lyons, Luis B. Tovar-y-Romo, Kiran T. Thakur, Justin C. McArthur, and Norman J. Haughey

31. Emergent Viral Infections of the Nervous System

Clayton A. Wiley

32. Autoimmune and Paraneoplastic Neurological Disorders

Raffaele Iorio, Orna O'Toole, and Sean J. Pittock

33. Fibromyalgia and Chronic Fatigue

Gordon H Guyatt

34. Multiple Sclerosis

Julia Schaeffer, Chiara Cossetti, Giulia Mallucci, and Stefano Pluchino

Section VI. Diseases of Higher Function

35. Introduction

Joseph T. Coyle

36. Disorders of Higher Cortical Function

Anna Berti, Francesca Garbarini, and Marco Neppi-Modona

37. Disorders of Frontal Lobe Function

Peter Pressman and Howard J. Rosen

38. Stress

Bruce S. McEwen

39. Addictions

Eduardo R. Butelman, Roberto Picetti, Brian Reed, Vadim Yuferov, and Mary Jeanne Kreek

40. Sleep Disorders

Birgitte Rahbek Kornum and Emmanuel Mignot

41. Restless Legs Syndrome

Christopher Earley

42. Fear-Related Anxiety Disorders and Post-Traumatic Stress Disorder

Arshya Vahabzadeh, Charles F. Gillespie, and Kerry J. Ressler

43. Obsessive–Compulsive Disorder

Nastassja Koen and Dan J. Stein

44. Schizophrenia

Glenn T. Konopaske and Joseph T. Coyle

45. Bipolar Disorder

Heinz Grunze

46. Pain: From Neurobiology to Disease

Michael S. Gold and Miroslav Backonja

47. Migraine, David Borsook

Nasim Maleki, and Rami Burstein

48. Depression and Suicide

Maura Boldrini and J. John Mann

Section VII. Diseases of the Nervous System and Society

49. Introduction

Michael J. Zigmond

50. The Neurological and Psychiatric Consequence of Aging

Thad Polk

51. Advances in Ethics for the Neuroscience Agenda

Judy Illes and Peter B. Reiner

52. Burden of Neurological Disease

Mitchell T. Wallin and John F. Kurtzke

53. Stress, Health, and Disparities

Zinzi D. Bailey and David R. Williams

54. The impact of isolation on brain health

Richard Smeyne
